Journalism at the End of the American Century, 1965-Present James Brian McPherson, 2006-06-30 McPherson captures the best and worst aspects of American journalism since 1965 The press has evolved into a conglomeration of entities that today can be described as pervasive entertaining and justifiably mistrusted In some ways today s press offers the best journalism Americans have ever seen In other ways the modern news media fall short of the ideals held by most of those who care about journalism and far short of the promise they once seemed to offer in terms of helping create an enlightened democracy Neither a paeon to the press nor an exercise in media bashing this book finds much to criticize and to praise about recent American journalism while illustrating that traditional journalistic values have diminished in importance not just for many of those who control the media but also for the media consumers who most need good journalism Chapters are devoted to various themes that include social unrest the influence of entertainment values technological shifts media consolidation and corporatization issues of content versus context new kinds of news media and why the 1970s may have been the high point of American journalism Events and issues given extra attention include the rise of television news and later CNN the Civil Rights Movement and other race related issues the Women s Movement various forms of alternative journalism wars in Vietnam and Iraq investigative journalism the World Trade Center attacks the Clinton Lewinsky scandal the 2000 and 2004 presidential campaigns and elections civic journalism and journalism scandals Publications Combined: Fake News, Conspiracy Theories, and Lies: Information Laundering In the 21st Century , 2018-09-06 The purpose of this research broadly speaking is to expose the threat that fake news poses to our national security This thesis answers the question Can the information laundering model or a modified version of it be used to explain how the internet is exploited to spread fake news and the resulting threat to the United States I assert that a well crafted narrative whether true or false can be spread rapidly online due to the accessibility and interconnectedness of the internet ecosystem I then articulate how these narratives can be further accelerated and disseminated when propagandists take advantage of existing processes that improve the customization ease of access and availability of information online I do this by modifying the information laundering model and then using the new model to examine the interconnectedness of search engines blogs social

networking platforms and media academic outlets and how these connections can be exploited to launder false or purposefully misleading information into public discourse Finally I demonstrate how this process allows adversarial nations criminals and malicious actors to increase public discord undermine democracy and threaten Americans physical and cognitive security Contains the following studies 1 Fake News Conspiracy Theories and Lies An Information Laundering Model for Homeland Security 2 THE COMMAND OF THE TREND SOCIAL MEDIA AS A WEAPON IN THE INFORMATION AGE 3 PUTIN S PROPAGANDA WAR IS HE WINNING 4 Cyber Terrorism and Cyber Crime There Is a Difference 5 CYBERDETERRANCE IN 2035 REDEFINING THE FRAMEWORK FOR SUCCESS 6 Countering Russian Active Measures

Weapons of Mass Distortion L. Brent Bozell, 2004-07-06 Could Al Franken and his left wing cronies possibly be right Is liberal media bias just a myth propagated by conservatives and have the mainstream media actually swung to the right Absolutely not In the new book *Weapons of Mass Distortion* L. Brent Bozell III founder and president of the Media Research Center America's largest and most respected media watchdog organization presents the definitive account of how liberal bias in the news industry is alive and well But here's the thing The liberal media are headed for a downfall Bozell demonstrates how their monopoly on information is at last coming to an end in large part because journalists continue to deny the bias that infects their news coverage His unrivaled expertise allows him to show readers exactly how the media landscape is changing and to expose the even bigger changes that are coming Marshaling an astonishing amount of evidence Bozell documents exactly how the news media deliberately attempt to set the national agenda through their slanted coverage In the process he destroys the arguments that Franken and many other left wing commentators have put forward regarding media bias *Weapons of Mass Distortion* also reveals How the liberal media's slanted coverage of President George W. Bush will play a huge role in the 2004 elections Why liberals' claims about the influence of Fox News and the conservative media are wrong and deliberately misleading How the mainstream press has waged war on the war on terrorism Never before told stories of how leading journalists behind the scenes betray the liberal bias they so forcefully deny in public incidents that Bozell has witnessed firsthand How the same journalists who condemn the Right for hate speech regularly launch and get away with vicious personal attacks on conservatives Clear evidence that the major news outlets are hemorrhaging viewers readers and listeners precisely because of their liberal bias By dominating the news media for so long liberals have been able to control what we see and hear But as Bozell makes clear the Left will lose that control soon enough
