the author's tenacity as a lower ranking officer in the face of dwindling resources and sometimes disparagement by more senior investigators A straightforward account of the solving of heinous and complex crimes it also delves into media fascination with serious offences and shows how the press may latch on to one murder whilst ignoring another even more horrific one The author was an investigator on the Bisset case from day one through to seeing that case linked to London's Green Chain Walk rapes and the discovery that Napper also killed Rachel Nickell on Wimbledon Common The book tells for the first time the behind the scenes story of how the misguided targeting of Colin Stagg and rebuffing of the Bisset team's suspicions allowed Napper to escape justice for 15 years The book also looks at the mind of Robert Napper his bizarre behaviour family history and doodlings some reproduced in this book and the fact that sheer chance allowed him to remain free for so long By the detective who arrested Napper Looks at the emergence of criminal profiling Enters the mind of a psychotic killer Shows how media obsession can hinder justice Contains previously unpublished material Extract To be able to properly investigate the murders of Samantha and Jazmine it was necessary to research the sequence of Green Chain Walk rapes At first glance the string of offences bore the classic hallmarks of a psychopath who grew ever more cunning yet reckless but more importantly ever more violent Studies of this type of offender clearly show they learn as they progress in their offending

safeguarding in any setting **Gangsters, Killers and Me** Gerard Gallacher, 2011-11-08 Gerard Gallacher served as a police officer in Glasgow from the 1980s and three decades onwards. It was the time when drugs seized hold of the city and a new set of ruthless criminals were threatening to take control. There was still the usual violence of the city to deal with including domestic violence, gang warfare and robbery, but it was the huge increase in drug use that defined the times and led to many of the most notorious incidents in the city's criminal past. And Gerard Gallacher was in the thick of the action. As a detective, Gallacher knew and dealt with all the major criminals of the times, including Arthur Thompson and his son Arthur Jnr, Tam McGraw, Paul Ferris, Joe Hanlon and Bobby Glover. He gave evidence at Ferris' murder trial; he discovered that Arthur Thomson was a Security Services asset and was the first detective on the scene when Hanlon and Glover were murdered. He delivered the police warning to infamous criminal Frank McPhie to tell him that his life was in danger, a warning that went unheeded. Gallacher was also involved in countless other high-profile investigations, including the notorious drugs feud between former friends Tony McGovern and James Stevenson, which ended in assassination. This is a compelling account of a police career at the sharp end of the action by a detective who wouldn't toe the line. And as well as giving his forthright views on the less than exemplary conduct of some senior officers, Gallacher now reveals what really happened behind the scenes in some of the country's most high-profile cases. *Routledge International Handbook of Critical Policing Studies* Nicole L. Asquith, Jess Rodgers, James Clover, Gary Corder, Angela Dwyer, Rishweena Ahmed, 2025-06-06 Critical analyses of policing have accompanied accounts of the police since the early days of modern police organisations. More so than ever, police and policing are subject to close and critical scrutiny from governments and the public. It is timely therefore to consider what is critical about police and policing. The *Routledge International Handbook of Critical Policing Studies* brings together scholars and practitioners to critically explore the full continuum of safety governance, from police reforms to the redistribution of policing resources to the replacement of state police. In offering the three Rs of policing: reform, redistribute, replace, we provide a conceptualisation of critical policing studies that acknowledges a continuum of policing that mirrors the different trajectories, priorities and possibilities that exist across different cultural and historical contexts. This collection is composed of 65 scholars and practitioners across 39 chapters, edited by a team of police academics and policing scholars, to showcase accounts of policing from outside the Anglo-European metropole, privileging works from First Nations people and from the Global South, and presenting contextualised solutions to the problems facing police and communities. This Handbook identifies the key issues facing the police and safety governance across the globe and offers insights into the implications for policing theory and practice, proposing solutions to some of the most intransigent problems facing contemporary societies. Individually and as a collection, this Handbook will be an essential read for scholars, practitioners and activists alike.
