Volume 18, Tome VI: Kierkegaard Secondary Literature Jon Stewart,2017-02-24 In recent years interest in the thought of Kierkegaard has grown dramatically and with it the body of secondary literature has expanded so quickly that it has become impossible for even the most conscientious scholar to keep pace The problem of the explosion of secondary literature is made more acute by the fact that much of what is written about Kierkegaard appears in languages that most Kierkegaard scholars do not know Kierkegaard has become a global phenomenon and new research traditions have emerged in different languages countries and regions The present volume is dedicated to trying to help to resolve these two problems in Kierkegaard studies Its purpose is first to provide book reviews of some of the leading monographic studies in the Kierkegaard secondary literature so as to assist the community of scholars to become familiar with the works that they have not read for themselves The aim is thus to offer students and scholars of Kierkegaard a comprehensive survey of works that have played a more or less significant role in the research Second the present volume also tries to make accessible many works in the Kierkegaard secondary literature that are written in different languages and thus to give a glimpse into various and lesser known research traditions The six tomes of the present volume present reviews of works written in Catalan Chinese Czech Danish Dutch English Finnish French Galician German Greek Hebrew Hungarian Italian Japanese Norwegian

Buckley, 2012-12-06 The guiding dictum of phenomenology is to the things themselves This saying conveys a sense that the things the phenomena with which we are confronted and into which we seek some insight are not as immediately accessible as may be imagined Phenomena however are often hidden not by their distance from us but by their very proximity by the fact that they are taken for granted as being self evident and understood by all Even the most common everyday phenomena and the words used to describe them often reveal upon closer inspection a degree of complexity which had previously been unsuspected Upon interrogation that which had been taken to be self evident and widely understood shows itself otherwise assumed self evidence frequently masks unintelligibility and common understanding can be a sign of a lack of understanding One phenomenon which is extremely proximate in our times is the phenomenon of crisis To be sure one can hardly avoid the word these it abound in periodicals and newspapers but also in days Not only does the learned journals of medicine political science economics art and law barely does an edition appear without the discussion of a crisis of one sort or another within these respective fields One is tempted to remark along with Umberto Eco that crisis sells well l One is also inclined to be suspicious of the collective malaise of academics **The Crisis of the Arab Intellectual** Abd Allah Arawi, Abdallah Laroui, 'Abd Allāh 'Arawī, 'Abdallāh
