*Financial Rules for New College Grads* Michael C. Taylor, 2018-04-12 An indispensable guide for any recent graduate that provides simple easy to follow rules for making smart personal finance choices during the first decade of one's career. Having graduated from college with a degree even the luckiest newly minted professionals those who are able to quickly find a full time job and support themselves are often burdened with thousands of dollars in student loan debt. Many of these young professionals grow up hearing that they should not invest until their debt is paid off. Others fall too readily for investment scams or the siren call of instant entrepreneurship. Still others don't invest at all. From financial expert Michael C. Taylor comes a proposed means by which to not only pull oneself out of debt but to start building wealth from the first day on the job. Adoption of modesty, skepticism and optimism. The Financial Rules for New College Graduates explains that by embodying modesty the opposite of status seeking ostentation, skepticism the ability to recognize scams, false promises and the hyperbole and short sightedness of financial media and optimism the belief that financial security can be yours with little to no risk anyone can attain financial security. The early chapters address the role of interest rates, compound interest and discounted cashflows while the remaining chapters explore each of the most consequential personal finance choices that recent graduates will make in the first ten years of their career. **The Civil War Income Tax and the Republican Party, 1861-1872** Christopher Michael Shepard, 2010 A flat tax Tax cuts Complete elimination of the income tax These ideas have

most certainly been advocated by members of the Republican Party during the past few decades Party leaders such as George W Bush Ronald Reagan and Newt Gingrich expressed disdain for the income tax and utilized their power to remove it as a revenue source At the time of the Civil War many Republicans mainly in the Northeast were opposed to the new Federal Income Tax Initially used to finance that war the Federal income tax became a hotly debated issue at a time when America was trying to put back together a fractured nation The issue split the party with Midwestern and Southern Republicans wanting to continue the income tax and Northern and Western Republicans championing its demise In the end the anti income tax wing took control of the Republican Party and shaped its economic principles for the future The book is an in depth look into how the Republicans in Congress dealt with the creation of the United States first income tax and how it affected the party for the future The author argues that the anti income tax faction of the Republican Party won the debate and took over the party and to this day the Republican Party typically promotes either cutting taxes or eliminating them altogether The author gives a brief history of the formation of the Republican Party and how they developed their economic views in distinction from the declining Whig Party who mostly sought to fund the federal budget through tariffs and not by taxing the people directly The second half of the book looks at the different income tax legislations and how Republicans in Congress responded to them Each chapter begins with a brief historical context at the time when an income tax bill was being discussed in Congress The views of Republicans on the income tax were altered throughout the war and its aftermath In the beginning Republicans enthusiastically supported the income tax as a measure needed to sustain the fighting As the war came to a close however many Republicans began to change their view They originally backed progressive rates then they wanted just one flat tax rate and by 1870 many wanted the tax to be ended There was a divide in the Republican Party though Western Republicans wanted to keep the income tax intact while Northern Republicans called for its repeal The last chapter of the book looks at the Republican Party and the income tax since 1872 Many of the arguments made by current and past Republicans e g George W Bush Eisenhower Elihu Root and even Earl Warren against the income tax are shown to be the same ones made by many Republicans in the debate over the Civil War income tax Apparently the Northern anti income tax wing won the debate and took over the party 140 years ago
