The Hidden Agenda of the Political Mind Jason Weeden,Robert O. Kurzban,2016-09-06 Why your political views are more self serving than you think When it comes to politics we often perceive our own beliefs as fair and socially beneficial while seeing opposing views as merely self serving But in fact most political views are governed by self interest even if we usually don t realize it Challenging our fiercely held notions about what motivates us politically this book explores how self interest divides the public on a host of hot button issues from abortion and the legalization of marijuana to same sex marriage immigration affirmative action and income redistribution Expanding the notion of interests beyond simple economics Jason Weeden and Robert Kurzban look at how people s interests clash when it comes to their sex lives social status family and friends Drawing on a wealth of data they demonstrate how different groups form distinctive bundles of political positions that often stray far from what we typically think of as liberal or conservative They show how we engage in unconscious rationalization to justify our political positions portraying our own views as wise benevolent and

principled while casting our opponents views as thoughtless and greedy While many books on politics seek to provide partisans with new ways to feel good about their own side The Hidden Agenda of the Political Mind illuminates the hidden drivers of our politics even if it s a picture neither side will find flattering Fundamentals of Plan Making Edward J. Jepson, Jr., Jerry Weitz, 2015-12-07 Urban and regional planning programs aspire to prepare practitioners to write and implement plans primarily at the local level of government These programs are very much professional in their aspirations as opposed to research oriented Yet academic planning programs often place greater emphasis on theory than practice For decades the planning academy has acknowledged a major disconnect between what the planning academy teaches students and the techniques and skills needed to be a successful professional practitioner Fundamentals of Plan Making will give planning students an understanding of research design as it applies to planning develop familiarity with various data sources and help them acquire knowledge and the ability to conduct basic planning analyses such as population projections housing needs assessments development impact analyses and land use plans Students will also learn how to implement the various citizen participation methods used by planners and develop an appreciation of the values and roles of practicing planners In Fundamentals of Plan Making Edward Jepson and Jerry Weitz bring their extensive experience as practicing academics and give planning students the practical hands on tools they need to implement the various methods used to create and implement real plans and policies Its chapters on transportation housing environment economic development and other core development topics also make it a handy reference for planning practitioners Making Work and Family Work Jeffrey H. Failure to Flourish Clare Huntington, 2014-05-20 Exploring the connection between families and inequality Failure to Flourish How Law Undermines Family Relationships argues that the legal regulation of families stands fundamentally at odds with the needs of families Strong stable positive relationships are essential for both individuals and society to flourish but from transportation policy to the criminal justice system and from divorce rules to the child welfare system the legal system makes it harder for parents to provide children with these kinds of relationships exacerbating the growing inequality in America Failure to Flourish contends that we must re orient the legal system to help families avoid crises and when conflicts arise intervene in a manner that heals relationships To understand how wrong our family law system has gone and what we need to repair it Failure to Flourish takes us from ancient Greece to cutting edge psychological research and from the chaotic corridors of local family courts to a quiet revolution under way in how services are provided to families in need Incorporating the latest insights of positive psychology and social science research the book sets forth a new more emotionally intelligent vision for a legal system that not only resolves conflict but actively encourages the healthy relationships that are at the core of a stable society *Family Business Agenda*, 2007

When Strangers Become Family Ronald Angel, Verónica Montes-de-Oca Zavala, 2021-09-30 As the 21st Century unfolds the traditional welfare state that evolved during the 20th Century faces serious threats to the solidarity that social programs were meant to strengthen The rise of populist and nationalist parties reflects the decline of a sense of belonging and inclusiveness that mass education and economic progress were meant to foster as traditional politics and parties are rejected by working and middle class individuals who were previously their staunchest supporters Increasingly these groups reject the growing gaps in income power and privilege that they perceive between themselves and highly educated and cosmopolitan business academic and political elites When Strangers Become Family examines the potential role of civil society organizations in guaranteeing the rights and addressing the needs of vulnerable groups paying particular attention to their role in advocacy for and service delivery to older people The book includes a discussion of the origins and functions of this sector that focuses on the relationship between the state and non governmental organizations as well as a close examination of Mexico a middle income nation with a rapidly aging population and limited state welfare for older people The data reveals important aspects of the relationship among government actors civil society organizations and political parties Ronald Angel and Verónica Montes de Oca Zavala ask the fundamental question about the extent to which civil society organizations represent a potential mechanism whereby vulnerable individuals can join together to further their own interests and exercise their individual and group autonomy
