McDermott, 2013-03-01 Teaching is not merely a technical process it is one that requires creative and inspirational thinking not only on the part of students but for teachers themselves as artful reflective beings The purpose of this book is to provide educators with creative experiences which unlock their imaginative potential so they can re envision their curriculum to promote active learning culturally relevant pedagogy and differentiated instruction This book guides the reader through a series of experiences intended to tap into the right side of the brain and provide educators opportunities to re imagine their

existing curriculum in new ways Through this re imaging or re envisioning of the creative potential within themselves teachers can redesign their curricula in ways that best meet the needs of their learners schools and communities This book emphasizes creativity in teaching as a collaborative effort The experiences and ideas presented in this book are intended to inspire small groups or whole communities including schools to work together and support each other in their creative efforts Creativity does not just exist for individuals in isolated contemplation but resides instead in the relational work that community members create together toward a shared vision In order to encourage imaginative students who will have the capacities to see the world not merely as it is but as it could be we need to encourage teachers to tap into their creative imaginative capacities to teach as well Such work cannot be performed in isolation Creative social change requires that we imagine together that which we cannot do alone

Education System Design

Brian Hudson, Marilyn Leask, Sarah Younie, 2020-11-26 This book highlights decisions governments have to make about their public education systems the options they have before them and the consequences of their decisions As well as covering issues such as values curriculum teacher training structures and so on the book addresses education planning for epidemics pandemics and disasters Education systems provide the foundations for the future wellbeing of every society yet existing systems are a point of global concern Education System Design is a response to debates in developing and developed countries about the characteristics of a high quality national education service It questions what makes a successful system of education With chapters that draw on experience in education systems around the world each one considers an element of a national education service and its role in providing a coherent and connected set of structures to ensure good education for all members of society Key topics include Existing education systems and what a future system might look like Inclusion and social justice Leadership and teacher education Policy options and the consequences of policy changes This book suggests an education system be viewed as an ecosystem with interdependencies between many different components needing to be considered when change is contemplated It is a vital book for any stakeholders in educational systems including students teachers and senior leaders It would be particularly useful to policy makers and those implementing policy changes

Teachers and Schooling

Making A Difference Pam Christie, Bob Lingard, 2020-08-04 Teachers Schooling Making a Difference takes seriously the question that teachers ask What do I do on Monday and does provide answers From the foreword by Professor Michael Apple University of Wisconsin Education debates are currently dominated by free market ideologists who push privatisation and competition as the answer to every problem regardless of damage to schools and pupils Teachers Schooling Making a Difference shows that we can think about education in a far more productive way Professor R W Connell University of Sydney This book is a lesson in making hope practical It makes a compelling argument for recognising supporting and enabling teachers as central to progressive school reform Professor Jenny Ozga University of Edinburgh What teachers do in the classroom really matters even though schools cannot compensate fully for difficulties children may face at home and in

society Good teachers and good schools have been making a difference in children s lives for generations but what exactly is it that works Based on extensive research in 1000 primary and secondary classrooms this book examines the tough questions about teaching methods curriculum assessment and teachers professionalism The authors isolate the key elements that make the difference in the classroom and offer teachers practical approaches to working with all their students Teachers and Schools Making a Difference is essential reading for teachers and school administrators who want to improve their professional skills and offer a genuinely democratic education **On Your Mark, Get Set, Teach!** Lisa Funari Willever, Lisa Battinelli, 2002 Preparation is the key to a successful teaching career and veteran teachers Lisa Funari Willever and Lisa Battinelli have created the ultimate guide for new and student teachers Written in a conversational tone the authors share methods tips and techniques as well as heartwarming and humorous personal experiences Amazon
