MAKING A NEW MAN

CICERONIAN SELF-FASHIONING IN THE RHETORICAL WORKS

JOHN DUGAN

Making A New Man Ciceronian Self Fashioning In The Rhetorical Works

John Richard Dugan

Making A New Man Ciceronian Self Fashioning In The Rhetorical Works:

Making a New Man John Richard Dugan, 2005 In *Making a New Man* John Dugan investigates how Cicero 106 43 BCE uses his major treatises on rhetorical theory *De oratore* *Brutus* and *Orator* in order to construct himself as a new entity within Roman cultural life a leader who based his authority upon intellectual oratorical and literary accomplishments instead of the traditional avenues for prestige such as a distinguished familial pedigree or political or military feats Eschewing conventional Roman notions of manliness Cicero constructed a distinctly aesthetized identity that flirts with the questionable domains of the theatre and the feminine and thus fashioned himself as a new man

The Cambridge Companion to Ancient Rhetoric Erik Gunderson, 2009-07-09 A comprehensive overview of rhetorical practice and theory in Graeco Roman antiquity from Homer to early Christianity aimed primarily at students and non specialists It examines the relationship between rhetoric and other competing verbal arts and also investigates the role of rhetoric in social and political life

Cicero Malcolm Schofield, 2021 The *Founders of Modern Political and Social Thought* series presents critical examinations of the work of major political philosophers and social theorists assessing both their initial contribution and continuing relevance to politics and society Each volume provides a clear accessible historically informed account of each thinker's work focusing on a reassessment of their central ideas and arguments The series encourages scholars and students to link their study of classic texts to current debates in political philosophy and social theory Book jacket

Catullus, Cicero, and a Society of Patrons Sarah Culpepper Stroup, 2010-04-29 This is a study of the emergence development and florescence of a distinctly late Republican socio textual culture as recorded in the writings of this period's two most influential authors Catullus and Cicero It reveals a multi faceted textual rather than more traditionally defined literary world that both defines the intellectual life of the late Republic and lays the foundations for those authors of the Principate and Empire who identified this period as their literary source and inspiration By first questioning and then rejecting the traditional polarisation of Catullus and Cicero and by broadening the scope of late Republican socio literary studies to include intersections of language social practice and textual materiality this book presents a fresh picture of both the socio textual world of the late Republic and the primary authors through whom this world would gain renown

Words on Fire Rob Goodman, 2021-12-16 Ranging from Cicero's Rome to contemporary politics *Words on Fire* is a provocative rethinking of political eloquence for our time

Cicero in Heaven Carl P.E. Springer, 2017-10-02 In *Cicero in Heaven* The Roman Rhetor and Luther's Reformation Carl Springer traces the historical outlines of Cicero's rhetorical legacy paying special attention to the momentous impact that he had on Luther his colleagues at the University of Wittenberg and later Lutherans While the revival of interest in Cicero's rhetoric is more often associated with the Renaissance than with the Reformation it would be a mistake to overlook the important role that Luther and other reformers played in securing Cicero's place in the curricula of schools in modern Europe and America Luther's attitude towards Cicero was complex and the final chapter of the book

discusses negative reactions to Cicero in the Reformation and the centuries that followed **Political Communication in the Roman World**, 2017-07-31 This volume aims to address the question of political communication in the Roman world It draws upon social sciences and the current trend for the historical study of political communication The book tackles three main problems What constitutes political communication in the Roman world In what ways could information be transmitted and represented What mechanisms made political communication successful or unsuccessful This edited volume covers questions like speech and mechanisms of political communication political communication at a distance bottom up communication failure of communication and representation of political communication It will be of help to specialists in the Roman world but also to students and researchers of political sciences and specialists of political communication in pre industrial times *Cicero's 'De Officiis'* Raphael Woolf, 2023-06-29 Cicero's *De Officiis* perhaps his most influential philosophical work ranges over a wide variety of themes from the role of the family in society to the question of whether our duties can conflict with one another and from the moral significance of offence to the question of whether it is right to kill a dictator This Critical Guide the first collection of essays devoted to the work is helpfully organised in thematic sections and aims to illuminate both the main individual topics of *De Officiis* and their interconnections with essays by an international team of contributors that will allow readers to appreciate the work's distinctive blend of philosophical theory and social and political reality It will be valuable for a range of readers in fields including philosophy classics and political theory

Cicero's Ideal Statesman in Theory and Practice Jonathan Zarecki, 2014-04-10 The resurgence of interest in Cicero's political philosophy in the last twenty years demands a re evaluation of Cicero's ideal statesman and its relationship not only to Cicero's political theory but also to his practical politics Jonathan Zarecki proposes three original arguments firstly that by the publication of his *De Republica* in 51 BC Cicero accepted that some sort of return to monarchy was inevitable Secondly that Cicero created his model of the ideal statesman as part of an attempt to reconcile the mixed constitution of Rome's past with his belief in the inevitable return of sole person rule Thirdly that the ideal statesman was the primary construct against which Cicero viewed the political and military activities of Pompey Caesar and Antony and himself **De Oratore** Marcus Tullius Cicero, 2011 Cicero's *De Oratore* is one of the masterpieces of Latin prose A literary dialogue in the Greek tradition it was written in 55 BC in the midst of political turmoil at Rome but reports a discussion concerning the ideal orator that supposedly took place in 91 BC just before an earlier crisis Cicero features eminent orators and statesmen of the past as participants in this discussion presenting competing views on many topics This edition of Book III is the first since 1893 to provide a Latin text and full introduction and commentary in English It is intended to help advanced students and others interested in Roman literature to comprehend the grammar and appreciate the stylistic nuances of Cicero's Latin to trace the historical literary and theoretical background of the topics addressed and to interpret Book III in relation to the rest of *De Oratore* and to Cicero's other works Publisher's description p 4 of cover **A Literary Commentary on Panegyrici Latini**

VI(7) Catherine Ware,2020-12-17 A literary commentary on the oration describing Constantine's break with Tetrarchic ideology and the creation of his new imperial persona **Community and Communication** Catherine Steel,Henriette van der Blom,2013-01-04 Community and Communication Oratory and Politics in Republican Rome brings together nineteen international contributions which rethink the role of public speech in the Roman Republic Speech was an integral part of decision making in Republican Rome and oratory was part of the education of every member of the elite Yet no complete speech from the period by anyone other than Cicero survives and as a result the debate on oratory and political practice more widely is liable to be distorted by the distinctive features of Cicero's oratorical practice With careful attention to a wide range of ancient evidence this volume shines a light on orators other than Cicero and considers the oratory of diplomatic exchanges and impromptu heckling and repartee alongside the more familiar genres of forensic and political speech In doing so it challenges the idea that Cicero was a normative figure and highlights the variety of career choices and speech strategies open to Roman politicians The essays in the volume also demonstrate how unpredictable the outcomes of oratory were politicians could try to control events by cherry picking their audience and using tried methods of persuasion but incompetence bad luck or hostile listeners were constant threats Cicero's Philosophy Stefano Maso,2022-01-19 Cicero was not only a great Roman politician lawyer and orator he also dealt extensively with philosophy which he believed constituted the surest foundation for his commitment to civic affairs Not limiting himself to the translation of previous philosophical thought he critically addressed central theoretical questions and thereby made a lasting impact on Roman intellectual life This book offers a modern guide to interpretations of Cicero's philosophical studies one that ranges across his numerous philosophical works Addressed to students and scholars of ancient philosophy and to interested readers in the humanities more generally the volume aims to break down the boundaries between the philosophical literary and linguistic dimensions of Cicero's highly influential oeuvre Stefano Maso is a full professor in Ancient Philosophy at the University of Ca Foscari Venice Among his books are *Grasp and Dissent Cicero and Epicurean Philosophy* Brepols 2015 *Epicurus on Eidola Peri Phuseos Book II Update Proposals and Discussions* ed with F Masi Hakkert 2015 He is co editor of *Lexis Poetica retorica e comunicazione nella tradizione classica* *The Ciceronian Tradition in Political Theory* Daniel J. Kapust,Gary Remer,2021-01-26 Cicero is one of the most influential thinkers in the history of Western political thought and interest in his work has been undergoing a renaissance in recent years *The Ciceronian Tradition in Political Theory* focuses entirely on Cicero's influence and reception in the realm of political thought Individual chapters examine the ways thinkers throughout history specifically Augustine John of Salisbury Thomas More Machiavelli Montaigne Hobbes Locke Adam Smith and Edmund Burke have engaged with and been influenced by Cicero A final chapter surveys the impact of Cicero's ideas on political thought in the second half of the twentieth century By tracing the long reception of these ideas the collection demonstrates not only Cicero's importance to both medieval and modern political theorists but also the comprehensive breadth and

applicability of his philosophy Emulation on the Shakespearean Stage Vernon Guy Dickson, 2017-03-02 The English Renaissance has long been considered a period with a particular focus on imitation however much related scholarship has misunderstood or simply marginalized the significance of emulative practices and theories in the period This work uses the interactions of a range of English Renaissance plays with ancient and Renaissance rhetorics to analyze the conflicted uses of emulation in the period including the theory and praxis of rhetorical imitatio humanist notions of exemplarity and the stage s purported ability to move spectators to emulate depicted characters This book emphasizes the need to see emulation not as a solely or even primarily literary practice but rather as a significant aspect of Renaissance culture giving insight into notions of self society and the epistemologies of the period and informed by the period s own sense of theory and history Among the individual texts examined here are Shakespeare s *Titus Andronicus* and *Hamlet* Jonson s *Catiline* and Massinger s *The Roman Actor* with its strong relation to Jonson s *Sejanus* **Portraying Cicero in Literature, Culture, and Politics** Francesca Romana Berno, Giuseppe La Bua, 2022-02-21 Cicero has played a pivotal role in shaping Western culture His public persona his self portrait as model of Roman prose philosopher and statesman has exerted a durable and profound impact on the educational system and the formation of the ruling class over the centuries Joining up with recent studies on the reception of Cicero this volume approaches the figure of Cicero from a biographical more than philological perspective and considers the multiple ways by which different ages reacted to Cicero and created their Ciceros From Cicero s lifetime to our times it focuses on how the image of Cicero was revisited and reworked by intellectuals and men of culture who eulogized his outstanding oratorical and political virtues but not rarely questioned the role he had in Roman politics and society An international group of scholars elaborates on the figure of Cicero shedding fresh light on his reception in late antiquity Humanism and Renaissance Enlightenment and modern centuries Historians literary scholars and philosophers as well as graduate students will certainly profit from this volume which contributes enormously to our understanding of the influence of Cicero on Western culture over the times Ten Speeches Cicero, 2009-09-15 The ten speeches in this volume illustrate Cicero s entire career and exemplify all the major contexts for his oratory before the senate the people and the courts They illuminate the major political crises of Cicero s time and offer portraits of many of the major political figures Several of these speeches also shed light on the most important cultural and literary debates of the late Republic James Zetzel s general Introduction discusses Cicero s public life the social political and cultural contexts of his speeches and the challenges of translating them into modern English This edition also includes an introduction to each speech a section on Roman institutions and offices a chronological table maps a bibliography and a biographical index *The Politics and Poetics of Cicero's Brutus* Christopher S. van den Berg, 2023-07-20 Cicero s dialogue on oratory responded to the political crisis of Julius Caesar but ultimately invented modern literary history A Companion to Roman Rhetoric William Dominik, Jon Hall, 2010-01-11 A Companion to Roman Rhetoric introduces the reader to the wide ranging importance of rhetoric in Roman

culture A guide to Roman rhetoric from its origins to the Renaissance and beyond Comprises 32 original essays by leading international scholars Explores major figures Cicero and Quintilian in depth Covers a broad range of topics such as rhetoric and politics gender status self identity education and literature Provides suggestions for further reading at the end of each chapter Includes a glossary of technical terms and an index of proper names and rhetorical concepts **Philosophical Life in Cicero's Letters** Sean McConnell, 2014-04-03 Cicero's letters are saturated with learned philosophical allusions and arguments This innovative study shows just how fundamental these are for understanding Cicero's philosophical activities and for explaining the enduring interest of his ethical and political thought Dr McConnell draws particular attention to Cicero's treatment of Plato's Seventh Letter and his views on the relationship between philosophy and politics He also illustrates the various ways in which Cicero finds philosophy an appealing and effective mode of self presentation and a congenial pointed medium for talking to his peers about ethical and political concerns The book offers a range of fresh insights into the impressive scope and sophistication of Cicero's epistolary and philosophical practice and the vibrancy of the philosophical environment of the first century BC A new picture emerges of Cicero the philosopher and philosophy's place in Roman political culture

Reviewing **Making A New Man Ciceronian Self Fashioning In The Rhetorical Works**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence.
