Cooper,2014-12-18 Meaning is one of our most central and most ubiquitous concepts Anything at all may in suitable contexts have meaning ascribed to it In this wide ranging book David Cooper departs from the usual focus on linguistic meaning to discuss how works of art ceremony social action bodily gesture and the purpose of life can all be meaningful He argues that the notion of meaning is best approached by considering what we accept as explanations of meaning in everyday practice and shows that in these situations we are explaining the appropriate fit of an item whether a word or an artwork with something larger than or outside of itself This fuller account of meaning explores questions of the meaning of meaning and tackles issues such as whether meaning is just a misleading folk term for something more basic whether there really is meaning at all and whether we should strive for meaning or let our lives just be rather than mean By taking the problem of meaning out of the technical philosophy of language and providing a more general account Cooper is able to offer new insights into the

import function and status of meaning that will be of interest not only to philosophers of language but to students and philosophers working in areas such as epistemology and metaphysics

Finding Meaning in an Imperfect World Iddo Landau, 2017 Is it possible for life to be meaningful when the world is filled with suffering and when so much depends merely upon chance Landau argues our lives often are or could be made meaningful we've just been setting the bar too high for evaluating what meaning there is He offers new theories and practical advice that awaken us to the meaning already present in our lives and demonstrates how we can enhance it

Women Making Meaning Lana F. Rakow, 2015-10-23 Originally published in 1992 This book captures the dynamic confluence of feminist and communication scholarship by setting out some of the provocative questions that mark this intersection Several of the essays in the book are theoretical in nature and consider the changing complexion of the field in view of this cross fertilization other contributors tackle those individual forms of communication that pose certain challenges for women such as verbal harassment and pornography The final section of the book more ethnographic in nature presents a number of case studies written primarily by women of colour which recount the various ways that communication forms such as television journalism and spoken discourse construct and perpetuate racist and sexist stereotypes

Making Meaning: Bob Lichtenbert, 2016-10-31 Making Meaning concerns how to live your life to make maximum impact It does this by being the first book ever to fully develop the idea of meaning defined as significant impact which is greatest idea since everything has it in some way This development emphasizes that values or ought's should's provide more meaning in one's life We have a crying need for this today because most of us have little to believe in Does my life have enough meaning is a life or death question This book takes a common sense approach to answering it The author describes his own seeking and making meaning to render this abstract idea more concrete Making Meaning explores the following eight sources of meaning 1 relationships 2 community 3 dialogue 4 work 5 art 6 search for God 7 possessions and 8 intangibles or nonphysical realities The last source potentially the largest is explained and argued for We have another crying need today to know more than physical things This book tries to satisfy yet another crying need today the objectivity of meaning This gives us external

standards to judge and live by Today's widespread subjective view of meaning allows everyone to believe whatever they want This view is dangerously chaotic and wrong Toward the end Making Meaning tackles its major negative challenges meaninglessness nihilism the view that nothing matters eventually and extreme relativism Finally this book defines what is the meaning of life by drawing from all these sources A very brief survey of the history of thinking about the meaning of life including Socrates Plato and Aristotle concludes this book Welcome to the wonderful new field of meaningology About the cover image Making Meaning mostly involves drawing from its many sources as symbolized by the many good things in nature including the heights of mountaintops and the warm light of the sun

Kendrick Lamar and the Making of Black Meaning Christopher M. Driscoll, Monica R Miller, Anthony B. Pinn, 2019-09-25 Kendrick Lamar has established himself at the forefront of contemporary hip hop culture Artistically adventurous and socially conscious he has been unapologetic in using his art form rap music to address issues affecting black lives while also exploring subjects fundamental to the human experience such as religious belief This book is the first to provide an interdisciplinary academic analysis of the impact of Lamar's corpus In doing so it highlights how Lamar's music reflects current tensions that are keenly felt when dealing with the subjects of race religion and politics Starting with Section 80 and ending with DAMN this book deals with each of Lamar's four major projects in turn A panel of academics journalists and hip hop practitioners show how religion in particular black spiritualities take a front and center role in his work They also observe that his astute and biting thoughts on race and culture may come from an African American perspective but many find something familiar in Lamar's lyrical testimony across great chasms of social and geographical difference This sophisticated exploration of one of popular culture's emerging icons reveals a complex and multi faceted engagement with religion faith race art and culture As such it will be vital reading for anyone working in religious African American and hip hop studies as well as scholars of music media and popular culture

God and the Meanings of Life T. J. Mawson, 2016-10-20 Some philosophers have thought that life could only be meaningful if there is no God For Sartre and Nagel for example a God of the traditional classical theistic sort would constrain our powers of self creative autonomy in ways that would severely detract from the meaning of our lives possibly even evacuate our lives of all meaning Some philosophers by contrast have thought that life could only be meaningful if there is a God God and the Meanings of Life is interested in exploring the truth in both these schools of thought seeking to discover what God could and couldn't do to make life meaningful as well as what he would and wouldn't do Mawson espouses a version of the amalgam or pluralism thesis about the issue of life's meaning in essence that there are a number of different legitimate meanings of meaning and indeed life in the question of life's meaning According to Mawson God were he to exist would help make life meaningful in some of these senses and hinder in some others He argues that whilst there could be meaning in a Godless universe there could be other sorts of meaning in a Godly one and that these would be deeper

Creation, Evolution and Meaning Robin Attfield, 2018-07-17 This book presents the case for belief in both creation and

evolution at the same time as rejecting creationism Issues of meaning supply the context of inquiry the book defends the meaningfulness of language about God and also relates belief in both creation and evolution to the meaning of life Meaning it claims can be found in consciously adopting the role of stewards of the planetary biosphere and thus of the fruits of creation Distinctive features include a sustained case for a realist understanding of language about God a contemporary defence of some of the arguments for belief in God and in creation a sifting of different versions of Darwinism and their implications for religious belief a Darwinian account of the relation of predation and other apparent evils to creation a new presentation of the argument from the world's value to the purposiveness of evolution and discussions of whether or not meaning itself evolves and of religious and secular bases for belief in stewardship

Hayes, 2022-10-31 Making Meaning of Loss Change and Challenge Across the Lifespan is about how change brings loss to our lives how we make meaning of loss and how our experience with loss directs our encounters with loss in the future Each loss challenges us in this way to rethink our world view to ask who we have become and to reinvent ourselves anew Taking a lifespan approach Hayes examines how we make sense of the losses that change brings in each period of our lives and how the way in which we meet the challenge that each loss brings directs our encounters with loss in the future In addition he provides suggestions for how earlier losses can become fruitful allies in encounters with change in the present and how caregivers can help others to make meaning of the loss in their lives Above all this book is about how caregivers can help others learn from the losses in their lives and to recognize what part of the past to bring along into the present in constructing a more reliable self for meeting the challenges of an uncertain future
