## **Making Majorities:**

**Legislative Politics in Latin America** Scott Morgenstern, Benito Nacif, 2002-03-04 This theoretically inspired study explores legislative politics in Argentina Brazil Chile and Mexico Instead of beginning with an assumption that these legislatures are either rubber stamps or obstructionist bodies the chapters provide new data and a fresh analytical approach to describe and explain the role of these representative bodies in these consolidating democracies For each country the book provides three chapters dedicated in turn to executive legislative relations the legislatures organizational structure and the policy process

**Supermajorities in Constitutional Courts** Mauro Arturo Rivera León, 2024-04-05 Constitutional adjudication is a subject of fascination for scholars Judges may annul the will of a democratically elected Parliament in counter majoritarian fashion Although conceived as a remedy against majoritarianism judges also decide cases by voting Whether they do so through simple majorities or supermajorities is not trivial The debate around supermajorities has awakened anew amidst theories of judicial limitation and new conceptions of judicial review This book advances our knowledge of systems employing supermajorities in constitutional adjudication by performing a comparative analysis of ten jurisdictions and twelve supermajority models It introduces a typology of the main models of institutional design the reasons leading policymakers to establish them and the impact supermajorities have on courts It explores the question of whether supermajorities grant deference and foster consensus or if they disable constitutional courts from exercising judicial review By analyzing the history practice and effects of supermajority rules in courts this book contributes to an ongoing conversation on the democratic implications of voting protocols in constitutional courts It will be a valuable resource for policy makers scholars and researchers working in the areas of comparative constitutional law and constitutional politics The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution CC BY 4.0 license

Delegation to the Mexico-United States Interparliamentary Conference, 1999 *Democracy* Albert Weale, 2007-08-29 This wide ranging text identifies and assesses the main conceptions of democracy from participationist to elitist It proceeds to consider in detail a range of key issues in democratic theory in relation to which these conceptions can be distinguished

**Empathy and Democracy** Michael E. Morrell, 2015-09-10 Democracy harbors within it fundamental tensions between the ideal of giving everyone equal consideration and the reality of having to make legitimate binding collective decisions Democracies have granted political rights to more groups of people but formal rights have not always guaranteed equal consideration or democratic legitimacy It is Michael Morrell's argument in this book that empathy plays a crucial role in enabling democratic deliberation to function the way it should Drawing on empirical studies of empathy including his own Morrell offers a process model of empathy that incorporates both affect and cognition He shows how this model can help

**Engines of Democracy** Alan Rosenthal, 2008-10-07 State legislators have often been in the shadow of their national counterparts but they drive the processes of democracy Rosenthal brings together a lifetime of research and experience on state legislative politics into one eminently readable volume a dynamic inside view of the people involved the politics that prevail and the interest groups and lobbyists who advocate their causes Building on earlier work with new data and recent interviews and observations Rosenthal looks at the way representation works Americans critical view of their legislatures the role of legislative leaders the dynamics of executive legislative relationships as well as norms and ethics Both a complement and contrast to the policymaking process on Capitol Hill *Engines of Democracy* proves that no one gives insight into state legislators and their work the way Alan Rosenthal can

**The Chinese Revolution on the Tibetan Frontier** Benno Weiner, 2020-06-15 In *The Chinese Revolution on the Tibetan Frontier* Benno Weiner provides the first in depth study of an ethnic minority region during the first decade of the People's Republic of China the Amdo region in the Sino Tibetan borderland Employing previously inaccessible local archives as well as other rare primary sources he demonstrates that the Communist Party's goal in 1950s Amdo was not just state building but also nation building Such an objective required the construction of narratives and policies capable of convincing Tibetans of their membership in a wider political community As Weiner shows however early efforts to gradually and organically transform a vast multiethnic empire into a singular nation state lost out to a revolutionary impatience demanding more immediate paths to national integration and socialist transformation This led in 1958 to communization then to large scale rebellion and its brutal pacification Rather than joining voluntarily Amdo was integrated through the widespread often indiscriminate use of violence a violence that lingers in the living memory of Amdo Tibetans and others

Dislocating China Dru C. Gladney, 2004-04 Until quite recently Western scholars have tended to accept the Chinese representation of non Han groups as marginalized minorities Dru C Gladney challenges this simplistic view arguing instead that the very oppositions of majority and minority primitive and modern are historically constructed and are belied by examination of such disenfranchised groups as Muslims minorities or gendered others Gladney locates China and Chinese culture not in some unchanging essential Chinese ness but in the context of historical and contemporary multicultural complexity He investigates how this complexity plays out among a variety of places and groups examining representations of minorities and majorities in art movies and theme parks the invention of folklore and creation myths the role of pilgrimages in constructing local identities and the impact of globalization and economic reforms on non Han groups such as the Muslim Hui In the end Gladney argues that just as peoples in the West have defined themselves against ethnic others so too have the Chinese defined themselves against marginalized groups in their own

society      **The Great Han** Kevin Carrico, 2017-08-29 The Great Han is an ethnographic study of the Han Clothing Movement a neotraditionalist and racial nationalist movement that has emerged in China since 2001 Participants come together both online and in person in cities across China to revitalize their utopian vision of the authentic Great Han and corresponding real China through pseudotraditional ethnic dress reinvented Confucian ritual and anti foreign sentiment Analyzing the movement's ideas and practices this book argues that the vision of a pure perfectly ordered ethnically homogeneous and secure society is in fact a fantasy constructed in response to the challenging realities of the present Yet this national imaginary is reproduced precisely through its own perpetual elusiveness The Great Han is a pioneering analysis of Han identity nationalism and social movements in a rapidly changing China      **Crowning the Nice Girl** Christine R. Yano, 2006-06-30 After World War II Japanese Americans in Hawai i sought to carve a positive niche of public citizenship in the community In 1953 members of the Honolulu Japanese Junior Chamber of Commerce and their wives created a beauty contest the Cherry Blossom Festival CBF Queen Pageant which quickly became an annual spectacle for the growing urban population of Honolulu Crowning the Nice Girl analyzes the pageant through its decades of development to the present within multiple frameworks of gender class and race ethnicity Drawing on extensive archival research interviews with CBF queens contestants and organizers and participant observation in the Fiftieth Annual Festival as a volunteer Christine Yano paints a complex portrait of not only a beauty pageant but also a community The study begins with the subject of beauty pageants in general and Asian American beauty pageants in particular interrogating the issues they raise embedding them within their histories and examining them as part of a global culture that has taken its model from the Miss America contest Yano follows the pageant throughout the decades into the 1990s adding corresponding herstories extensive narratives drawn from interviews with CBF queens She concludes by framing issues of race ethnicity spectacle and community within the intertwined themes of niceness and banality      **Portraits of "primitives"** Susan Debra Blum, 2001 Ethnicity is a highly politicized issue in contemporary China Twentieth century nation building has been intimately involved with classification of China's fifty five ethnic minorities and with fostering harmony and unity among nationalities Officially sanctioned social science classifies the majority group the so called Han at the pinnacle of modernization and civilization and most other groups as Oprimitive O In post socialist China popular conceptions of self person and nation intersect with political and scholarly concerns with identity sometimes contradicting them and sometimes reinforcing them In Portraits of OPrimitives O Susan D Blum explores how Han in the city of Kunming in southwest China regard ethnic minorities and by extension themselves She sketches Oportraits O or cognitive prototypes of ethnic groups in a variety of contexts explaining the perceived visibility of each group which almost never correlates with size of population Ideas of OHanness O can be understood in part through Han desire to identify unique characteristics in ethnic minorities and also through Han celebration of the differences that distance minorities The book considers questions of identity alterity and self in the context
