Making Of A Christian Aristocracy Social:

The Making of a Christian Aristocracy Michele Renee Salzman, 2009-06-30 What did it take to cause the Roman aristocracy to turn to Christianity changing centuries old beliefs and religious traditions Salzman takes a fresh approach to this much debated question by focusing on a sampling of individual aristocratic men and women as well as on writings and archeological evidence

Pagans and Christians in Late Antique Rome Michele Renee Salzman, Marianne Sághy, Rita Lizzi Testa, 2016 This book sheds new light on the religious and consequently social changes taking place in late antique Rome The essays in this volume argue that the once dominant notion of pagan Christian religious conflict cannot fully explain the texts and artifacts as well as the social religious and political realities of late antique Rome Together the essays demonstrate that the fourth century city was a more fluid vibrant and complex place than was previously thought Competition between diverse groups in Roman society be it pagans with Christians Christians with Christians or pagans with pagans did create tensions and hostility but it also allowed for coexistence and reduced the likelihood of overt violent physical conflict Competition and coexistence along with conflict emerge as still central paradigms for those who seek to understand the transformations of Rome from the age of Constantine through the early fifth century

Official Power and Local Elites in the Roman Provinces Rada Varga, Viorica Rusu-Bolindeț, 2016-11-25 Presenting a new and revealing overview of the ruling classes of the Roman Empire this volume explores aspects of the relations between the official state structures of Rome and local provincial elites The central objective of the volume is to present as complex a picture as possible of the provincial leaderships and their many and varied responses to the official state structures The perspectives from which issues are approached by the contributors are as multiple as the realities of the Roman world from historical and epigraphic studies to research of philological and linguistic interpretations and from architectural analyses to direct interpretations of the material culture While some local potentates took pride in their relationship with Rome and their use of Latin exhibiting their allegiances publicly as well as privately others preferred to keep this display solely for public manifestation These complex and complementary pieces of research provide an in depth image of the power mechanisms within the Roman state The chronological span of the volume is from Rome s Republican conquest of Greece to the changing world of the fourth and fifth centuries AD when a new ecclesiastical elite began to emerge

Group Identity and Religious Individuality in Late Antiquity Eric Rebillard,Jorg Rupke,2015 To understand the past we necessarily group people together and consequently frequently assume that all of its members share the same attributes In this ground breaking volume Eric Rebillard and J rg R pke bring renowned scholars together to challenge this norm by seeking to rediscover the individual and to explore the dynamics between individuals and the groups to which they belong

From Rome to Byzantium AD 363 to 565 A. D. Lee,2013-01-15 Between the deaths of the Emperors Julian 363 and Justinian 565 the Roman Empire underwent momentous changes Most obviously control of the west was lost to barbarian groups during the fifth century and although parts were recovered by Justinian the empire s centre of gravity shifted irrevocably to the east with its focal point now the city of Constantinople Equally important was the increasing dominance of Christianity not only in religious life but also in politics society and culture Doug Lee charts these and other significant developments which contributed to the transformation of ancient Rome and its empire into Byzantium and the early medieval west By emphasising the resilience of

the east during late antiquity and the continuing vitality of urban life and the economy this volume offers an alternative perspective to the traditional paradigm of decline and fall The Oxford Handbook of Early Christian Ritual Rikard Roitto, 2018-11-08 Scholars of religion have long assumed that ritual and belief constitute the fundamental building blocks of religious traditions and that these two components of religion are interrelated and interdependent in significant ways Generations of New Testament and Early Christian scholars have produced detailed analyses of the belief systems of nascent Christian communities including their ideological and political dimensions but have by and large ignored ritual as an important element of early Christian religion and as a factor contributing to the rise and the organization of the movement In recent years however scholars of early Christianity have begun to use ritual as an analytical tool for describing and explaining Christian origins and the early history of the movement Such a development has created a momentum toward producing a more comprehensive volume on the ritual world of Early Christianity employing advances made in the field of ritual studies The Oxford Handbook of Early Christian Ritual gives a manifold account of the ritual world of early Christianity from the beginning of the movement up to the fifth century The volume introduces relevant theories and approaches central topics of ritual life in the cultural world of early Christianity and important Christian ritual themes and practices in emerging Christian groups and factions Chastity Nancy van Deusen, 2008-02-28 Chastity as a topic is an ideal interdisciplinary consideration since it accesses iconographical representation the philosophical issues of purity morality and of innocence the legal issues of loss and punishment the historical issues of celibacy and the legislation that topic evoked as well as the role of chastity as a literary topos in Late Antiquity as well as the Middle Ages for example in medieval commentary traditions and within medieval vernacular literatures The topic of Chastity as well as its opposing characteristics thus provides an arena for a discussion of the transmission of Ovid and the commentaries this author provoked in the Middle Ages the interpretation of images illustrating legal texts cross cultural enquiries such as the reciprocity between Christian Muslim and Judaic interpretations of temperance continence and abstinence and the theological legal issue of God's rights in excising Adam and Eve from the Garden of Eden Contributors Nancy van Deusen Frank T Coulson Marcia L Colish Uta Renate Blumenthal Th r se Anne Druart Claudia Bornholdt Susan L Engle Cristian Gaspar and Rafael Chodos **Children and Asceticism in Late Antiquity** Ville Vuolanto, 2016-03-03 In Late Antiquity the emergence of Christian asceticism challenged the traditional Greco Roman views and practices of family life The resulting discussions on the right way to live a good Christian life provide us with a variety of information on both ideological statements and living experiences of late Roman childhood This is the first book to scrutinise the interplay between family children and asceticism in the rise of Christianity Drawing on texts of Christian authors of the late fourth and early fifth centuries the volume approaches the study of family dynamics and childhood from both ideological and social historical perspectives It examines the place of children in the family in Christian ideology and explores how families in the late Roman world adapted these ideals in practice Offering fresh viewpoints to

current scholarship Ville Vuolanto demonstrates that there were many continuities in Roman ways of thinking about children and despite the rise of Christianity the old traditions remained deeply embedded in the culture Moreover the discussions about family and children are shown to have been intimately linked to worries about the continuity of family lineage and of the self and to the changing understanding of what constituted a meaningful life

Knowing God in Light Nichifor Tănase, Marius Portaru, Daniel Lemeni, The fall of Communism in Eastern Europe opened up a new future for theology too not least in Romania perhaps of all Orthodox nations the most open to the West Young Romanian Orthodox

theologians seized the opportunity to study and research in the West availing themselves of mentors and resources hitherto denied them some have settled in the West others returned home This welcome volume displays a theological revival as young Romanian theologians draw on tradition and address new problems We can discern here a welcome confidence in the Orthodox tradition no longer on the defensive nor concerned to mark itself off from the theology of the West It is a generous Orthodoxy a term that has been used of the theological approach of the late Metropolitan Kallistos ready to share its treasures with other Christians and eager to learn from them and engage with them *Episcopal Elections in Late Antiquity* Johan Leemans, 2011 The election of a new bishop was a defining moment for local Christian communities in Late Antiquity This volume contributes to a reassessment of the phenomenon of episcopal elections from the broadest possible perspective examining the varied combination of factors personalities rules and habits that played a role in the process Building on the state of the art regarding late antique bishops and episcopal election this interdisciplinary volume of collected studies by leading scholars offers fresh perspectives by focussing on specific case studies and opening up new approaches

The Song of Songs and the Fashioning of Identity in Early Latin Christianity Karl Shuve, 2016 In this work Karl Shuve provides a new account of how the Song of Songs became one of the most popular biblical texts in medieval Western Christianity through a close and detailed study of its interpretation by late antique Latin theologians It has often been presumed that early Latin writers exercised little influence on the medieval interpretation of the poem since there are so few extant commentaries from the period But this is to overlook the hundreds of citations of and allusions to the Song in the writings of influential figures such as Cyprian Ambrose Jerome and Augustine as well as the lesser known theologian Gregory of Elvira Through a comprehensive analysis of these citations and allusions Shuve argues that contrary to the expectations of many modern scholars the Song of Songs was not a problematic text for early Christian

theologians but was a resource that they mined as they debated the nature of the church and of the virtuous life The first part of the volume considers the use of the Song in the churches of Roman Africa and Spain where bishops and theologians focused on images of enclosure and purity invoked in the poem In the second part the focus is late fourth century Italy where a new ascetic interpretation concerned particularly with women s piety began to emerge This erotic poem gradually became embedded in the discursive traditions of Latin Late Antiquity which were bequeathed to the Christian communities of early medieval Europe

Doctrine and Power Carlos R. Galvao-Sobrinho, 2021-03-16 During the fourth century a d theological controversy divided Christian communities throughout the Eastern half of the Roman Empire At stake was not only the truth about God but also the authority of church leaders whose legitimacy depended on their claims to represent that truth In this book Carlos R Galvao Sobrinho argues that out of these disputes was born a new style of church leadership one in which the power of the episcopal office was greatly increased He shows how these disputes compelled church leaders repeatedly to assert their orthodoxy and legitimacy tasks that required them to mobilize their congregations and engage in action that continuously projected their power in the public arena These developments were largely the work of prelates of the first half of the fourth century but the style of command they inaugurated became the basis for a dynamic model of ecclesiastical leadership found throughout late antiquity
