Making Of An English Underclass The Social Divisions Of Welfare And Labour

Stephanie Lawler

Making Of An English Underclass The Social Divisions Of Welfare And Labour:

The Making of an English "underclass"? Kirk Mann, 1992 **Postmodernity and the Fragmentation of Welfare** John Carter, 2012-10-12 Postmodern ideas have been vastly influential in the social sciences and beyond However their impact on the study of social policy has been minimal Postmodernity and the Fragmentation of Welfare analyses the potential for a postmodern or cultural turn in welfare as it treats postmodernity as an evolving canon from the seminal works of Baudrillard Foucault and Lyotard through to recent theories of the risk society Already disorientated by globalisation new technologies and the years of new right ascendancy welfare faces a significant challenge in the postmodern It suggests that rather than universality and state provision the new social policy will be consumerised and fragmented a welfare state of ambivalence With contributions from authors coming from a variety of fields offering very different perspectives on postmodernity and welfare Postmodernity and the Fragmentation of Welfare also keeps social policy's intellectual inheritance in view By exploring ways in which theorisations of postmodernity might improve understanding of welfare issues in the 1990s and assessing the relevance of theories of diversity and difference to mainstream and critical social policy traditions this book will be an essential text for all students of social policy social administration social work and sociology **State Schooling and the Reproduction of Social Inequalities** Sharon Jones, 2022-12-30 This book critically explores the role of state schooling in the reproduction of social class inequalities in the UK By uniquely combining critical ethnographic methods with participatory and visual research it foregrounds the experiences and recollections of working class adults in relation to their past schooling Drawing upon her own lived experiences Jones theorises the experiences of her participants using an analysis of Marxist Bourdieusian and Freirean frameworks to uncover relations of power and illustrate how schooling has reduced individual agency and sustained lived inequalities By creating space for a Visual Intervention within Critical Ethnography VICE alongside her analysis of class and society Jones successfully illuminates that working class struggles are not permanent and that agency can be activated The book also addresses an important need by centring research from the lived educational experiences of the working class and in particular working class adults Making a unique theoretical and methodological contribution using an innovative combined methodology approach the text ultimately highlights the potential of empowering disadvantaged individuals by raising critical consciousness Though it is focused on the experiences of adults this book has important understandings for all sectors of education and will be of interest to academics researchers and students interested in the sociology of education research methods in education social inequality social class and education politics *British Social Welfare in the Twentieth Century* Robert Page, Richard Silburn, 1999-03-31 This major thematic and historical overview provides a clear guide to key welfare practices and developments in the public private voluntary and informal welfare sectors in twentieth century Britain outlining the dominant ideas about welfare in the period in question As such it offers an effective bridge between historical and contemporary concerns drawing out some of the more rarely

articulated premises of courses in the history of social policy and illuminating the social political and economic dimensions of its subject *Youth, The 'Underclass' and Social Exclusion* Robert MacDonald, Robert Macdonald, 2020-07-24 The idea that Britain the US and other western societies are witnessing the rise of an underclass of people at the bottom of the social heap structurally and culturally distinct from traditional patterns of decent working class life has become increasingly popular in the 1990s Anti work anti social and welfare dependent cultures are said to typify this new dangerous class and dangerous youth are taken as the prime subjects of underclass theories Debates about the family and single parenthood about crime and about unemployment and welfare reforms have all become embroiled in underclass theories which whilst highly controversial have had remarkable influence on the politics and policies of governments in Britain and the US Youth the Underclass and Social Exclusion constitutes the first concerted attempt to grapple with the underclass idea in relation to contemporary youth It focuses upon unemployment training the labour market crime homelessness and parenting and will be essential reading for students of social policy sociology and criminology **Housing and Social Policy** Peter Somerville, Nigel Sprigings, 2005

The chapters in this book each consider a specific social category such as class gender or disability and evaluate the experience and understanding of housing and social policy under these categories **The Third Way and beyond** Sarah Hale, Will Leggett, Luke Martell, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license This collections brings together expert contributions to dissect the key political concept of the Third Way in theory and practice assessing its development and legacy and suggesting criticisms and alternatives

Professional Development in Social Work Janet Seden, Sarah Matthews, Mick McCormick, Alun Morgan, 2010-10-04 This text helps qualified social workers as well as those about to qualify to build on their initial studies in order to develop professionally Aimed at the newly qualified practitioner and the developing professional Back cover **Work and Society** Tim Strangleman, Tracey Warren, 2008-04-10 Work and Society provides a comprehensive investigation of the major trends in work and employment The changing social order and its impact upon the labour market in recent years alongside the huge changes brought about by new technology and globalization are considered **Mothering the Self** Stephanie Lawler, 2002-01-04 The mother daughter relationship has preoccupied feminist writers for decades but typically it has been the daughter s story at centre stage Mothering the Self brings together these maternal and daughterly stories by drawing on in depth interviews with women who speak both as mothers and as daughters This study examines the ways in which these mothers and daughters participate in their understanding of class gender and race locations both using and resisting them The result is a fresh start from which to consider the far reaching implications of this relationship not simply for mothers and daughters but in terms of how we understand the shaping of the self and its place within the social world **Underclass** John Welshman, 2013-10-10 Who are those at the bottom of society There has been much discussion in recent years on both Left and Right about the existence of an alleged underclass in both Britain and the USA It has been claimed this group lives

outside the mainstream of society is characterised by crime suffers from long term unemployment and single parenthood and is alienated from its core values John Welshman shows that there have always been concerns about an underclass whether constructed as the social residuum of the 1880s the problem family of the 1950s or the cycle of deprivation of the 1970s There are marked differences between these concepts but also striking continuities Indeed a concern with an underclass has in many ways existed as long as an interest in poverty itself This book is the first to look systematically at the question providing new insights into contemporary debates about behaviour poverty and welfare reform This new edition of the pioneering text has been updated throughout and includes brand new chapters on Problem Families and New Labour as well as Troubled Families and the Coalition Government It is a seminal work for anyone interested in the social history of Britain and the Welfare State

The Routledge Companion to Media and Poverty Sandra L. Borden, 2021-07-19 Comprehensive and interdisciplinary this collection explores the complex and often problematic ways in which the news media shapes perceptions of poverty Editor Sandra L Borden and a diverse collection of scholars and journalists question exactly how the news media can reinforce or undermine poverty and privilege This book is divided into five parts that examine philosophical principles for reporting on poverty the history and nature of poverty coverage problematic representations of people experiencing poverty poverty coverage as part of reporting on public policy and positive possibilities for poverty coverage Each section provides an introduction to the topic as well as a broad selection of essays illuminating key issues and a Q A with a relevant journalist Topics covered include news coverage of corporate philanthropy structural bias in reporting representations of the working poor the moral demands of vulnerability and agency community empowerment and citizen media The book s broad focus considers media and poverty at both the local and global levels with contributors from 16 countries This is an ideal reference for students and scholars of media communication and journalism who are studying topics involving the media and social justice as well as journalists activists and policy makers working in these areas

The Making of an English "underclass"? Kirk Mann, 1992 Provides a theoretical and historical review of social divisions and their relationship to welfare The empirical evidence of social divisions in the last part of the 20th century is examined along with the idea of an underclass

The Return of Inequality Mike Savage, 2021-05-18 A pioneering book that takes us beyond economic debate to show how inequality is returning us to a past dominated by empires dynastic elites and ethnic divisions The economic facts of inequality are clear The rich have been pulling away from the rest of us for years and the super rich have been pulling away from the rich More and more assets are concentrated in fewer and fewer hands Mainstream economists say we need not worry what matters is growth not distribution In *The Return of Inequality* acclaimed sociologist Mike Savage pushes back explaining inequality s profound deleterious effects on the shape of societies Savage shows how economic inequality aggravates cultural social and political conflicts challenging the coherence of liberal democratic nation states Put simply severe inequality returns us to the past By fracturing social bonds and harnessing the

democratic process to the strategies of a resurgent aristocracy of the wealthy inequality revives political conditions we thought we had moved beyond empires and dynastic elites explosive ethnic division and metropolitan dominance that consigns all but a few cities to irrelevance Inequality in short threatens to return us to the very history we have been trying to escape since the Age of Revolution Westerners have been slow to appreciate that inequality undermines the very foundations of liberal democracy faith in progress and trust in the political community's concern for all its members Savage guides us through the ideas of leading theorists of inequality including Marx Bourdieu and Piketty revealing how inequality reimposes the burdens of the past At once analytically rigorous and passionately argued *The Return of Inequality* is a vital addition to one of our most important public debates *A Glossary of Literary and Cultural Theory* Peter

Brooker,2016-12-08 *The Glossary of Literary and Cultural Theory* provides researchers and students with an up to date guide through the vibrant and changing debates in Literary and Cultural Studies In a field where meanings are frequently complex and ambiguous this text is remarkable for its clarity and usefulness This third edition includes 17 entirely new entries and updates to more than a dozen others which address key concepts and contemporary positions in both literary and cultural theory New entries include Actor Network Theory Anthropocene Ecocriticism Digital Humanities Postcapitalism World Literature **Understanding State Welfare** Brian Lund,2002-03-14 This accessible and original text combines a

systematic examination of the theories of welfare with an historical account of the evolution of the welfare state and its impact in promoting social justice It identifies the principles governing social distribution and examines the rationales for these different distributive principles This book also links the theories of distribution to the actual development of social policy and considers their outcomes *Understanding State Welfare* will be essential reading for students of social policy It provides a clear understanding of both theories of welfare and the history of the development of the British welfare state

Realist Perspectives on Management and Organisations Stephen Ackroyd,Steve Fleetwood,2003-09-02 Realism has been one of the most powerful new developments in philosophy and the social sciences and is now making an increasing impact in business and management studies This is the first book length treatment of critical realism in business and management It pulls together a wide range of material which is all explicitly or implicitly rooted in philosophical realism and combines theoretical writing with substantive contributions addressing issues such as the nature of the firm and the labour process which together demonstrates that realism is a powerful alternative to postmodernism and positivism *Children, Family and the State* Rob Creasy,Fiona Corby,2023-03-28 This book gives students a critical insight into how children and

families everyday lives and experiences are shaped by policy and legislation *Transforming Managers* Roy Moodley,Stephen Whitehead,2005-06-23 In the 1990s considerable changes in the political and social world have impacted on the character of both public and private organizations At a time of increased uncertainty and insecurity in these organizations new ways of managing and being managed have emerged Recognising that organizational life is part reflective

and determined by dominant social discourses factors of gender will inevitably be central to the dynamics of organizational change This book addresses theoretical ideas and mythologies in the examination of gendered organizations The need to examine men in relation to family law and society in general is growing and this book extends this interrogation to work and organizational life It will be of interest to students in management studies public sector management and those involved in public policy making as well as students and academics within gender studies and sociology

Criminal Justice and Neoliberalism E. Bell, 2011-01-19 This book explores the origins of the so called punitive turn in penal policy across Western nations over the past two decades It demonstrates how the context of neoliberalism has informed penal policy making and argues that it is ultimately neoliberalism which has led to the recent intensification of punishment
