Making Of Zimbabwe Decolonization In The Context Of Regional And International Politics:

The Making of Zimbabwe M. Tamarkin, 2012-11-12 First published in 1990 This volume is essentially a study in decolonization The approach of the author is of a conflict resolution process taken from the perspective of 1974 as the chosen point Following the decolonization of the Portuguese colonial empire the uniqueness of the decolonization of Rhodesia became more apparent and the conflict began to realize its full potential The author has taken three analytical concepts the goals continuum the strategic options continuum and the interaction within and between the three levels of the conflict system A Selected Bibliography--Sub-Saharan Africa ,1991 **Unpopular Sovereignty** Luise White, 2015-03-23 In 1965 the white minority government of Rhodesia after 1980 Zimbabwe issued a unilateral declaration of independence from Britain rather than negotiate a transition to majority rule In doing so Rhodesia became the exception if not anathema to the policies and practices of the end of empire In *Unpopular Sovereignty* Luise White shows that the exception that was Rhodesian independence did not in fact make the state that different from new nations elsewhere in Africa indeed this history of Rhodesian political practices reveals some of the commonalities of mid twentieth century thinking about place and race and how much government should link the two White locates Rhodesia s independence in the era of decolonization in Africa a time of great intellectual ferment in ideas about race citizenship and freedom She shows that racists and reactionaries were just as concerned with questions of sovereignty and legitimacy as African nationalists were and took special care to design voter qualifications that could preserve their version of legal statecraft Examining how the Rhodesian state managed its own governance and electoral politics she casts an oblique and revealing light by which to rethink the narratives of decolonization

African Democratic Montage E. Ike Udogu, 2025-03-10 *African Democratic Montage Case Studies on Ghana Zimbabwe Tanzania Ethiopia and Kenya* explores the challenges African states face in achieving democratic consolidation The book highlights that these countries have constitutional tools human rights frameworks the African Union s code of leadership and democratic election principles to foster good governance However their varied application of these tools leads to different democratic outcomes Coincidentally the book addresses the resurgence of military coups in some African countries exposing democracy s fragility and calling for solutions to prevent future coups It provides a brief history of each country s pre colonial colonial and post colonial periods showcasing their unique democratic journeys The volume notes that the struggle for democratic consolidation is hindered by issues in electoral contests and human rights violations Nevertheless it suggests that enforcing constitutional human rights and adhering to African Union declarations can promote good governance democratic consolidation peaceful coexistence and national cohesion **Southern African Update** ,1991 A bibliographical survey

The Foreign Policy of the Douglas-Home Government A. Holt, 2014-03-07 This book provides an important study of a short lived government making foreign policy in the shadow of an impending general election It considers Britain s relations with the United States Africa Asia and the Middle East **Redefining Regional Power in International Relations**

Miriam Prys,2012-05-04 This book examines the concept of regional power in international relations Using the emerging powers of India and South Africa as the case studies it explores how regional powers simultaneously differ and share common features The book develops a method to classify and evaluate different types of regional powers and applies this typology to contemporary case studies of India and South Africa Regional power is often expected to have a positive influence on region specific problems of conflict economic deprivation and political instability In reality an achievement expectations gap can be seen in many regional powers which can be analysed and understood through observable variation in regional power The author discovers that in addition to the management of the internal regional order regional powers have to establish individuality whilst fitting into the global international environment altering both regional dynamics and creating variance in the level of control within the region Elucidating concepts and definitions this book is an accessible and in depth study that both introduces key concepts and provides a framework for the future study of regional power in international relations Redefining Regional Power in International Relations will be of interest to students and scholars of regionalism and international relations *Bibliographie Mensuelle* United Nations Library (Geneva, Switzerland),1991 **British Book News** ,1990 **Subject Guide to Books in Print** ,1997 **British Book News** British Council,1992 Includes no 53a British wartime books for young people **Current Geographical Publications** University of Wisconsin--Milwaukee. Tamarkin,1990 *Zimbabwe* Deborah Helen Potts,Deborah Potts,1993 **Politics and Religion in Zimbabwe** Ezra Chitando,2020-04-03 This book illustrates how religion and ideology were used by Robert Mugabe to ward off opposition

within his own party in Zimbabwe and from the West. An interdisciplinary line up of contributors argue that Mugabe used a calculated narrative of deification presenting himself as a divine figure who had the task of delivering land freedom and confidence to black people across the world to remain in power in Zimbabwe. The chapters highlight the appropriation and deployment of religious themes in Mugabe's domestic and international politics, reflect on the contestation around the deification of Mugabe in Zimbabwean politics across different forms of religious expression including African Traditional Religions and various strands of Christianity, and initiate further reflections on the interface between religion and politics in Africa and globally. *Politics and Religion in Zimbabwe* will be of interest to scholars of religion and politics, Southern Africa and African politics.
