Gallagher, Gabrielle Kruks-Wisner, Whitney K.

Taylor, 2024-03-06 Claim making the everyday strategies through which citizens pursue rights fulfilment is often overlooked in studies of political behavior which tend to focus on highly visible pivotal moments elections mass protests high court decisions legislative decisions But what of the politics of the everyday This Element takes up this question drawing together research from Colombia South Africa India and Mexico The authors argue that claim making is a distinct form of citizenship practice characterized by its everyday nature which is neither fully programmatic nor clientelistic and which is prevalent in settings marked by gaps between the state s de jure commitments to rights and their de facto realization Under these conditions claim making is both meaningful there are rights to be secured and necessary fulfillment is far from guaranteed Claim making of this kind is of critical consequence both materially and politically with the potential to shape how citizens engage or disengage the state **Transactions** Iron and Steel Institute, 1917 **Ordinance** , 1922 Cognition & Strategy Giovanni Gavetti, William Ocasio, 2015-08-19 This volume has two goals First it intends to attract a representative sample of the most significant empirical and theoretical developments in the field of cognition and strategy Second it intends to take stock of these developments by proposing a preliminary synthesis of the disparate advances in this field Army Ordinance , 1922 *An Introduction to Systematic Reviews* David Gough, Sandy Oliver, James Thomas, 2017-03-28 Focused on actively using systematic review as method this book provides clear step by step advice on the logic and processes of systematic reviewing Stressing the importance of precision and accuracy this new edition carefully balances a need for insightful theory with real world pragmatism it introduces a wide range of cutting edge approaches to research synthesis including text mining living reviews and new ideas in mixed methods reviews such as qualitative comparative analysis The book also includes A new chapter on statistical synthesis Coverage of computer assisted methods and relevant software Expanded

Nominations United States. Congress. Senate. Committee on Environment and Public Works,1977 **The Three Sector Solution** John Butcher,David Gilchrist,2016-07-15 This collection of essays had its origins in a one day workshop held in August 2015 at The Australian National University Jointly convened by Dr John Butcher ANZSOG and Professor David Gilchrist Curtin Not for profit Initiative the purpose of the workshop was to bring together academic researchers policy practitioners and thought leaders to address a variety of emerging issues facing policymakers public sector commissioners not for profit providers of publicly funded services and businesses interested in opportunities for social investment The workshop itself generated a great deal of interest and a baker s dozen of contributors challenged and engaged a full house The level of enthusiasm shown by the audience for the subject matter was such that the decision to curate the presentations in the form of a book was never in doubt The editors trust that this volume will vindicate that decision At one time the state exercised a near monopoly in the delivery of social programs Today almost every important public problem is a three sector problem and yet we have little idea of what a high performing three sector production system looks like It is the editors hope that this volume will provide a foundation for some answers to these important public policy questions
