relate to the challenges and problems posed by the ever changing and diversified nature of today's classroom. The papers discuss and demonstrate methodologies and learning strategies and in the process recommend effective practices that are practical and open to adaptation for different teaching and learning contexts. They range from suggestions on how to exploit information technology resources to individual or specific case studies. These case studies report on a variety of contextual issues and problems that are specified to particular learning contexts. This book therefore thus not only offers examples of tried and tested teaching strategies but also offers useful insights into specific sociocultural problems that are experienced by learners as well as teachers and interested stakeholders in particular settings and countries. The papers offer a comprehensive documentation of past as well as present problems faced by teachers, policy makers and students and discuss ways and strategies of overcoming such problems such that the teaching and learning process is not only enhanced but made more meaningful and fulfilling to both teachers and learners. The inherently global perspective of the papers in this book makes it an enriching compendium.

Research Anthology on Makerspaces and 3D Printing in Education Management Association, Information Resources, 2022-05-06. Education has changed dramatically in recent years as educational technologies evolve and develop at a rapid pace. Teachers and institutions must constantly update their practices and curricula to match this changing landscape to ensure students receive the best education possible. 3D printing has emerged as a new technology that has the potential to enhance student learning and development. Moreover, the availability of makerspaces within schools and libraries allows students to utilize technologies that drive creativity. Further study on the strategies and challenges of implementation is needed for educators to appropriately adopt these learning practices. The Research Anthology on Makerspaces and 3D Printing in Education considers the benefits these technologies provide in relation to education as well as the various ways they can be utilized in the classroom for student learning. The book also provides a review of the difficulties educators face when implementing these technologies into their curricula and ensuring student success. Covering topics such as educational technologies, creativity and online learning, this major reference work is ideal for administrators, principals, researchers, scholars, practitioners, academicians, instructors and students.
