Primavera,2016-02-23 Staying happily married has become a difficult proposition in recent times Although the institution is still firmly embedded in our culture divorce rates have steadily climbed since the 1960s While some marriages are truly divorce worthy many other broken marriages can be saved Recent emphasis on personal needs and greater social acceptance of divorce and alternative lifestyles may have weakened the resolve of partners to work through their problems Furthermore many couples may not realize that problems

in their current marriages are likely to surface in other relationships. Consequently while they may consider divorce a solution it may in fact only be a stepping stone to the next relationship where patterns may repeat. Solving marital differences can be difficult. They tend to be linked to or caused by other problems and that can make it hard to identify the real reasons for conflicts. Without knowing the true nature of their problems couples cannot arrive at solutions that actually work. To understand the underlying issues that plague many marriages the authors look to the research conducted on the subject over the past fifty years and to real life stories of success and failure to outline the major issues that detract from marital stability. Drawing on Louis Primavera's twenty five years in private practice as a marriage counselor each chapter is peppered with anecdotes that every married person can relate to and that help bring issues to life. The authors also propose frank and honest solutions that can help couples have more satisfying relationships. Anyone looking to improve their marriage will find suggestions for sussing out the underlying problems they may be experiencing and guidance for addressing those problems.

*The Cockroach that Saved My Marriage* Sonal Lobo,2023-12-11 Someone once shared with me their fantasy the idea of living a life akin to the movies filled with love mystery romance and occasional moments of horror They lamented that everyday life seemed mundane devoid of novelty It was the same old house the same old job weekend outings and a constant sense of monotony For a brief period I found myself nodding in agreement I allowed their perspective to seep into my thoughts and accepted it as my own That was until I embarked on the journey of marriage To me marriage became a thrilling adventure transforming the way I perceived the world I encountered diverse individuals and navigated through a myriad of situations that made me both laugh and cry Above all I learned valuable lessons and discovered answers to the whys and buts that had puzzled me for so long This book serves as a narrative of the incidents that unfolded in my life post marriage It is a beautiful memoir of the lessons life imparted to me before I tied the knot and the truths I unearthed as I expanded my horizons It would not be an overstatement to declare that life is a tapestry of adventures happiness and fun all contingent on how we choose to embrace it A rainy day might prove to be an arduous commute for one trapped in traffic yet it could be a blessing for a farmer in need of irrigation A bone in your meal can sometimes be an annoyance but to a stray dog it could be a delectable feast Here I am eager to share with you the seemingly insignificant moments in my life that imparted invaluable lessons and shaped me into a better version of myself Join me as I guide you down memory lane where you will encounter moments that are humorous heartwarming poignant and undoubtedly

*Examining Stereotypes and Parenting Behaviours of South Asian Heritage Parents: Discourse and Case Studies* Bhandari, Renu,2024-06-17 In the field of academic scholarship the study of parenting has been extensive yet it has often been unable to capture the full essence of this complex endeavor The existing literature has often confined itself to the boundaries of individual disciplines This limitation has hindered our understanding of the intricate interplay between these aspects and the

values and beliefs that guide parenting Furthermore in the context of South Asian parents in the UK the existing research has typically focused on parents from East and Southeast Asia often leaving the unique experiences of South Asian parents overlooked Examining Stereotypes and Parenting Behaviors of Asian Heritage Parents Discourse and Case Studies offers a pioneering solution to this problem It represents a groundbreaking initiative to break free from the constraints of traditional research methodologies and provide an unfiltered in depth look at the real narratives of South Asian parents in the UK By weaving together the psychological emotional social and cultural dimensions of parenting this book uncovers a holistic view of this complex journey one that transcends the limitations of sociology psychology or cultural studies It does not aim to solve problems but rather seeks to capture authentic family stories and parenting experiences directly from the voices of the parents themselves
