Making News Of Police Violence:

Making News of Police Violence Jeffrey Ian Ross Ph.D.,2000-08-30 Although many people consider excessive police violence disconcerting if when and how they voice their opinion or respond by taking some sort of action has generally remained empirically unknown In the hope of understanding this process Ross has developed a four stage model based on a review of the literature and on interviews with the relevant actors He then uses this tool to analyze police violence that occurred in Toronto Canada and New York City over a fifteen year period To better focus the study he uses in depth case studies of three well publicized cases of police violence from each city matched on important criteria This study addresses a difficult timely and important topic for victims for police personnel and for society Ross concludes that in general most individuals do not respond to police use of excessive force further if and when they do usually depends on the context of the violence Using both quantitative and qualitative methods Ross s model integrates a variety of approaches to improve our understanding of how communities come to define and control the use of force by police including literature on the role of media efforts and their impact upon police violence The work concludes with an analysis of the reasons why people react so infrequently to incidents of excessive force

Examples include the beating of Rodney King by Los Angeles police in 1991, the surveillance of Ralph Nader in 1965 and the invasion of Iraq in 2003. Attackers often inhibit adverse reactions by covering up the attack, devaluing the target and using other methods. Through numerous detailed case studies, *Justice Ignited* reveals the most promising tactics that can make unfair attacks backfire.

Making Human Rights News John Pollock, Morton Winston, 2018-10-18. *Making Human Rights News: Balancing Participation and Professionalism* explores the impact of new digital technology and activism on the production of human rights messages. It is the first collection of studies to combine multidisciplinary approaches, citizen witness challenges to journalism ethics and expert assessments of the liberating role of the Internet, addressing the following questions:

1. What can scholars from a wide range of disciplines including communication studies, journalism sociology, political science and international relations studies add to traditional legal and political human rights discussions exploring the impact of innovative digital information technologies on the gathering and dissemination of human rights news?
2. What questions about journalism ethics and professionalism arise as growing numbers of untrained citizen witnesses use modern mobile technology to document claims of human rights abuses?
3. What are the limits of the liberating role of the Internet in challenging traditional sources of authority and credibility such as professional journalists and human rights professionals?
4. How do greater Internet access and human rights activism interact with variations in press freedom and government censorship worldwide to promote respect for different categories of human rights such as women's rights and rights to health?

This book was originally published as a special issue of the *Journal of Human Rights*.

America on Fire: The Untold History of Police Violence and Black Rebellion Since the 1960s Elizabeth Hinton, 2021-05-18 Not since Angela Davis s

2003 book *Are Prisons Obsolete* has a scholar so persuasively challenged our conventional understanding of the criminal legal system Ronald S Sullivan Jr Washington Post From one of our top historians a groundbreaking story of policing and riots that shatters our understanding of the post civil rights era What began in spring 2020 as local protests in response to the killing of George Floyd by Minneapolis police quickly exploded into a massive nationwide movement Millions of mostly young people defiantly flooded into the nation s streets demanding an end to police brutality and to the broader systemic repression of Black people and other people of color To many observers the protests appeared to be without precedent in their scale and persistence Yet as the acclaimed historian Elizabeth Hinton demonstrates in *America on Fire* the events of 2020 had clear precursors and any attempt to understand our current crisis requires a reckoning with the recent past Even in the aftermath of Donald Trump many Americans consider the decades since the civil rights movement in the mid 1960s as a story of progress toward greater inclusiveness and equality Hinton s sweeping narrative uncovers an altogether different history taking us on a troubling journey from Detroit in 1967 and Miami in 1980 to Los Angeles in 1992 and beyond to chart the persistence of structural racism and one of its primary consequences the so called urban riot Hinton offers a critical corrective the word riot was nothing less than a racist trope applied to events that can only be properly understood as rebellions explosions of collective resistance to an unequal and violent order As she suggests if rebellion and the conditions that precipitated it never disappeared the optimistic story of a post Jim Crow United States no longer holds Black rebellion *America on Fire* powerfully illustrates was born in response to poverty and exclusion but most immediately in reaction to police violence In 1968 President Lyndon Johnson launched the War on Crime sending militarized police forces into impoverished Black neighborhoods Facing increasing surveillance and brutality residents threw rocks and Molotov cocktails at officers plundered local businesses and vandalized exploitative institutions Hinton draws on exclusive sources to uncover a previously hidden geography of violence in smaller American cities from York Pennsylvania to Cairo Illinois to Stockton California The central lesson from these eruptions that police violence invariably leads to community violence continues to escape policymakers who respond by further criminalizing entire groups instead of addressing underlying socioeconomic causes The results are the hugely expanded policing and prison regimes that shape the lives of so many Americans today Presenting a new framework for understanding our nation s enduring strife *America on Fire* is also a warning rebellions will surely continue unless police are no longer called on to manage the consequences of dismal conditions beyond their control and until an oppressive system is finally remade on the principles of justice and equality *Creating Justice in a Multiracial Democracy* Alan Curtis, 2024-10-25 American democracy is at an inflection point Will we stride toward the 22nd century with evidence and will Or will we lurch fearfully backwards reinscribing the white supremacist domination of the 19th century After hundreds of urban protests in the 1960s the presidential Kerner Commission composed mainly of privileged white men concluded It is time to make good the promise of American democracy to all citizens urban and rural white and Black
