Boyer, 2012-08-16 This volume in Oxford's A Very Short Introduction series offers a concise readable narrative of the vast span of American history from the earliest human migrations to the early twenty first century when the United States loomed as a global power and comprised a complex multi cultural society of more than 300 million people The narrative is organized around major interpretive themes with facts and dates introduced as needed to illustrate these themes The emphasis throughout is on clarity and accessibility to the interested non specialist **Rotary International and the Selling of American Capitalism** Brendan Goff, 2021-07-06 A new history of Rotary International shows how the organization reinforced capitalist values and cultural practices at home and tried to remake the world in the idealized image of Main Street America Rotary International was born in Chicago in 1905 By the time World War II was over the organization had made good on its promise to girdle the globe Rotary International and the Selling of American Capitalism explores the meteoric rise of a local service club that brought missionary zeal to the spread of American style economics and civic ideals Brendan Goff traces Rotary's ideological roots to the business progressivism and cultural internationalism of the United States in the early twentieth century The key idea was that community service was intrinsic to a capitalist way of life The tone of service above self was often religious but as Rotary looked abroad it embraced Woodrow Wilson's secular message of collective security and international cooperation civic internationalism was the businessman's version of the Christian imperial civilizing mission performed outside the state apparatus The target of this mission was both domestic and global The Rotarian the organization's publication encouraged Americans to see the world as friendly to Main Street values and Rotary worked with US corporations to export those values Case studies of Rotary activities in Tokyo and Havana show the group paving the way for encroachments of US power economic political and cultural during the interwar years Rotary's evangelism on behalf of market friendly philanthropy and volunteerism reflected a genuine belief in peacemaking through the world's parliament of businessmen But as Goff makes clear Rotary also reinforced American power and interests demonstrating the tension at the core of US led internationalism *Reader's Guide to American History* Peter J. Parish, 2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political social and economic history describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors all scholars of American history Memory, Trauma, Asia

Rahul K. Gairola, Sharanya Jayawickrama, 2021-01-28 The contributors to this volume rethink established insights of memory and trauma theory and enrich those studies with diverse Asian texts critically analyzing literary and cultural representations of Asia and its global diasporas. They broaden the scope of memory and trauma studies by examining how the East-West binary delimits horizons of trauma by excluding Asian texts. Are memory and trauma always reliable registers of the past that translate across cultures and nations? Are supposedly pan-human experiences of suffering disproportionately coloured by eurocentric structures of region, reason, race or religion? How are Asian texts and cultural producers yet viewed through biased lenses? How might recent approaches and perspectives generated by Asian literary and cultural texts hold purchase in the 21st century? Critically meditating on such questions and whether existing concepts of memory and trauma accurately address the histories, present states and futures of the non-Occidental world, this volume unites perspectives on both dominant and marginalized sites of the broader Asian continent. Contributors explore the complex intersections of literature, history, ethics, affect and social justice across East, South and Southeast Asia and on Asian diasporas in Australia and the USA. They draw on yet diverge from Orientalism and Area Studies given today's need for nuanced analytical methodologies in an era defined by the COVID-19 global pandemic. This book will be of great interest to students and scholars invested in memory and trauma studies, comparative Asian studies, diaspora and postcolonial studies, global studies and social justice around contemporary identities and 20th and 21st century Asia.
