Methuselah's Gift Mary Elizabeth Edgren, 1994-08-01 **The Methuselah Conspiracy** P.E. Hendrickson, 2021-11-27 Since humanity s first steps in the Stone Age Methuselah has harbored an ancient secret Cursed by the shaman to witness the end of days he searches in vain for a home place to place clan to clan yearning to belong First in prehistoric Africa and lately disillusioned with love for a hundred years in the New World he learns all too well to guard his heart and hide his story That changes when a car crash lands him in the hospital with a fractured skull Doctors discover strange stem cells in his blood promising cures and a fountain of youth Methuselah faces choices of life and death Forced on the run again he comforts himself by reliving a happier time when he and Arrow his first love raft across the paleo lake Makgadikgadi which rested in those days on the vast Kalahari In their age old journey the cavemen lovers find a place to call home and learn what it means to belong While Arrow s enlightened sensibilities get the two of them in trouble and challenge Methuselah s judgment their adventures in an untamed world bring them together When Methuselah s enduring youth reveals itself through the passing seasons he and Arrow bravely face a dire reality From the distant past that lives inside Methuselah Arrow s spirit reaches out providing guidance for our threatened times He gives

Methuselah the strength to do the right thing and the courage to live his true self in the modern world Arrow's memory opens Methuselah's heart and renews for him a hope of redemption in the arms of a caring man today If only Methuselah permits himself to love once more

Methuselah's Daughter John Eddy, Dean Esmay, 2006 Zsallia Marieko is a solitary immortal very much the pagan barbarian at heart but tempered by her centuries amongst a growing Christian influence in Western Europe Her tale is by turns pathetic endearing unnerving and horrifying as the reader witnesses her climb from nameless slave to terrifying goddess then her plunge into murderous insanity until she emerges humbled and remade all this in just her first 1500 years Concomitant with that tale is the modern narrative where Zsallia is forced to confront what it means to cease living outside society and join the world around her to take up the benefits and responsibilities of living openly and asking people to simply accept who and what she is

Chasing Methuselah Todd T. W. Daly, 2021-02-04 The quest to live much longer has moved from legend to the laboratory Recent breakthroughs in genetics and pharmacology have put humanity on the precipice of slowing down human aging to extend the healthy life span The promise of longer healthier life is enormously attractive and poses several challenging questions for Christians Who wouldn't want to live 120 years or more before dying quickly How do we make sense of human aging in light of Jesus' invitation to daily take up our crosses with the promise of the resurrection to come Is there anything wrong with manipulating our bodies technologically to live longer If so how long is too long Should aging itself be treated as a disease In Chasing Methuselah Todd Daly examines the modern biomedical anti aging project from a Christian perspective drawing on the ancient wisdom of the Desert Fathers who believed that the incarnation opened a way for human life to regain the longevity of Adam and the biblical patriarchs through prayer and fasting Daly balances these insights with the christological anthropology of Karl Barth discussing the implications for human finitude fear of death and the use of anti aging technology weaving a path between outright condemnation and uncritical enthusiasm

The Methuselah Project Rick Barry, 2015-09-24 Nazi scientists started many experiments One never ended Roger Greene is a war hero Raised in an orphanage the only birthright he knows is the feeling that he was born to fly Flying against the Axis Powers in World War II is everything he always dreamed until the day he's shot down and lands in the hands of the enemy When Allied bombs destroy both his prison and the mad genius experimenting on POWs Roger survives Within hours his wounds miraculously heal thanks to those experiments The Methuselah Project is a success but this ace is still not free Seventy years later Roger hasn't aged a day but he has nearly gone insane This isn't Captain America just a lousy existence only made passable by a newfound faith The Bible provides the only reliable anchor for Roger's sanity and his soul When he finally escapes there's no angelic promise or personal prophecy of deliverance just confusion It's 2015 and the world has become an unrecognizable place Katherine Mueller crack shot genius and real Southern Belle offers to help him find his way home Can he convince her of the truth of his crazy story Can he continue to trust her when he finds out she works for the very organization he's trying to flee Thrown right into pulse pounding action from the first page readers will

find themselves transported back in time to a believable full colored past and then catapulted into the present once more The historical back and forth adds a constantly moving element of suspense to keep readers on the edge of their seats

Methuselah's Zoo Steven N. Austad,2022-08-16 Stories of long lived animal species from thousand year old tubeworms to 400 year old sharks and what they might teach us about human health and longevity Opossums in the wild don t make it to the age of three our pet cats can live for a decade and a half cicadas live for seventeen years spending most of them underground Whales however can live for two centuries and tubeworms for several millennia Meanwhile human life expectancy tops out around the mid eighties with some outliers living past 100 or even 110 Is there anything humans can learn from the exceptional longevity of some animals in the wild In Methusaleh s Zoo Steven Austad tells the stories of some extraordinary animals considering why for example animal species that fly live longer than earthbound species and why animals found in the ocean live longest of all Austad the leading authority on longevity in animals argues that the best way we will learn from these long lived animals is by studying them in the wild Accordingly he proceeds habitat by habitat examining animals that spend most of their lives in the air comparing insects birds and bats animals that live on and under the ground from mole rats to elephants and animals that live in the sea including quahogs carp and dolphins Humans have dramatically increased their lifespan with only a limited increase in healthspan we re more and more prone to diseases as we grow older By contrast these species have successfully avoided both environmental hazards and the depredations of aging Can we be more like them *The Methuselah Solution* William O. Harris III,2000-11-06 As the prison population grows exponentially in the U S today writer Bill Harris has captured the politics of the prison system and found a revolutionary answer in his futuristic novel *The Methuselah Solution* One of the storys two protagonists Dr Cynthia Turner is a rising star at the Institute where she supervises the administration of a new form of alternative sentencing an aging serum developed to replace multiple years of costly confinement with the injection of a drug that rapidly ages convicted felons to their prescribed sentence The serum is a favorite with politicians but the bane of powerful companies long profiting from the spiraling expansion of prison construction The serum is in its sixth year of use when the problems start A time when prisons have become a place where aged felons can readjust to life with weaker bones slower pulses and mottled minds Except for the antagonist Joshua Howard A career criminal Joshua is clever attractive self righteous and has been sentenced to be aged twenty years for embezzlement Dr Turner watches with a mixture of awe and horror as Joshua is over aged thirty years leaving his body far weaker than his spared mind Dr Turner and her boss Dr Kenneth Lambert attempt to deal with Joshua and another prisoner Patricia Bennett a former Olympic Gymnast who killed her husband while responding to the encouragement of her dead father The Institute is now faced with the epic task of confronting Patricias Olympic strength and the determination of Joshuas contempt and rage What happens inside the underground prison throughout the story would remain as silent and deadly to the population of Texas as the Ebola virus was to Reston Virginia except for the disorganized

attempts of the second protagonist Alexis Troutman Alex is a local reporter who has begun to oppose the use of the aging serum and attempts to enlist Dr Turners help to rectify the prisons problems The Institute is racing to develop an antidote to counteract over aging reactions the only problem is that Joshua gets to the antidote first The apocalyptic conclusion explodes when Alex enters the Institute as Joshua and Patricia embark on a reign of terror and vengeance after securing the antidote

According to Methuselah Reva Spiro Luxenberg, 2018-08-02 Methuselah the oldest person who has ever lived goes on a quest for truth expanding the Bible with humor He writes My best marriage was to Sheilabenautumn a living doll I called her She She called me Meth Honey But I suffered from the neighbors evil gossip I was 603 and She was a mere 133 The neighbors said I had robbed the cradle The author with tongue in cheek traces the world of Adam and Eve Noah and the patriarchs through Methuselah's eyes and ears in a style that is a mock modernization of the terminology in the Bible For example God named the first man Adam and said Live long and prosper When Eve became overweight Adam couldn't understand why She explained I think there's a person inside of me because I feel kicking in my stomach I don't know from which orifice he will come out This is a new version of the Bible that will cause readers to laugh aloud *Exodus According to Methuselah* Reva Spiro Luxenberg, 2019-05-21 Methuselah the recording angel of history is correcting the mistakes in Exodus that the dyslexic and nearsighted scribe who copied the Bible first made For instance Moses's mother takes an entire month to make the basket for the baby since Macy's has not yet come into existence The infant's sister Miriam places the basket in the bulrushes of Nile to save the Hebrew baby from being killed Pharaoh's daughter who has severe psoriasis rescues the infant and raises him in the palace When Moses is ten he is taught how to box At the age of sixteen he learns how to drive a chariot That gives him the inspiration to initiate chariot races when he's seventeen long before the Roman ones as depicted in Ben Hur Moses is placed in an anger management class that he hates He becomes an unquestionably great leader but never fully controls his temper for the rest of his eventful life
