Transactions of the Geological Society of London: S.2: Vol. 1-5 ,1837 *International Conference on European Towns : Strategies and Programmes* Council of Europe, Standing Conference of Local and Regional Authorities of Europe, 1991

Culture and Regions of Europe Michel Bassand, 1993 On cover Cultural policy series **Essays on Population and Space in India** Christophe Guilmoto, Alain Vaguet, 2000 **ITPI Journal** ,1988 **Urban Development in the Muslim World** Hooshang Amirahmadi, 2017-09-08 War and revolution have focused the world's attention on the Middle East. Despite the headlines, the editors of this book state the economic, political, and cultural aspects of urban life in the Muslim world are hardly known to us. Contributors to this volume explore urban problems, urban development, and the practice of urban planning in the Muslim world. In both comprehensive analyses and detailed case studies, the contributors address the basic dilemma of development planning: how to integrate the force of tradition with the demands of modernity. Specifically, some of the topics covered include the examination of the idea of a uniquely Islamic city, the influence of Islam on the medinas of Tunisia and Morocco, and on the development of Mecca and Delhi, and reconciling tradition and modernism in Tehran. Also covered are the comparative development of Sana'a and Cairo, the influence of oil on urbanization in the Persian Gulf, urban growth in Syria, and an overview of urban planning in the Arab world. This compendium is essential for specialists and students of the region, for international planning and development practitioners, and for those seeking insight into the complexities of this important but arguably least understood region of the world. **Strange Dislocations** Carolyn Steedman, 1995 Using the perspectives of social and cultural history and the history of psychology and physiology, *Strange Dislocations* traces a search for the self for a past that is lost and gone, and the ways in which, over the last hundred years, the lost vision has come to assume the form of a child. La société des voisins Bernard Haumont, Alain Morel, 2005-01-01 R unis bien souvent sans l'avoir souhaité, les habitants des ensembles résidentiels urbains doivent partager des lieux intermédiaires entre l'espace privé du logement et l'espace public de la rue. Si ce partage se réduisait des rencontres épisodiques, la cohabitation entre voisins serait sans histoires. Mais tel n'est justement pas le cas. Attentives à ce qui se passe dans ces espaces entre-deux, la fois lieux de passage et théâtre où se mettent en scène et se confrontent les différentes cultures de l'habiter, les études d'ethnologues et de sociologues rassemblées ici ont mis en évidence des mécanismes aux effets récurrents. Les codes sociaux et les normes culturelles que les habitants mettent en œuvre pour produire les règles communes possibles, sinon nécessaires, s'inscrivent dans des contextes aussi divers qu'imbriqués : individuel et familial, collectif et social. England and the English in the eighteenth century William Connor Sydney, 1892 *The Era Magazine* ,1894 **Bibliography of Art and Architecture in the Islamic World (2 Vol. Set)** Susan Sinclair, C. H. Bleaney, Pablo García Suárez, 2012 Following the tradition and style of the acclaimed *Index Islamicus*, the editors have created this new *Bibliography of Art and Architecture in the Islamic World*. The editors have surveyed and annotated a wide range of books and articles from collected volumes and

journals published in all European languages except Turkish between 1906 and 2011 This comprehensive bibliography is an indispensable tool for everyone involved in the study of material culture in Muslim societies Childhood Chris Jenks, 2005 Childhood is an extremely complex and highly contested concept It refers to a life phase as well as to the age group defined as children but is also a cultural construction part of the social and economic structure of communities The key scholarship collected introduced and reprinted in these volumes reflects this complexity and introduces the reader to the wide variety of interpretations that have been and continue to be placed on it It might be suggested that the push or initiative in theorizing childhood has derived from advances within sociology and anthropology However the future provides potential for interdisciplinary study which this collection also reflects The contemporary study of childhood must comprise a conjoining of disciplines sociology anthropology psychology social geography history philosophy and socio legal theory all have something to add to the field and are represented within the collection Métropoles en déséquilibre?, 1993 Contient Jean Philippe Leresche Michel Bassand M tropole l manique une nouvelle dynamique urbaine p 137 172 **Afrique** René Otayek, 1999
