Metropolitan Wichita Past Present And Future:

Metropolitan Wichita Glenn Wasson Miller, Jimmy M. Skaggs, 1978 This volume presents a thorough analytical examination of the city of Wichita Eight contributors specialists in political science urban affairs sociology economics and business discuss the city's development current problems and future potential They dispel the nineteenth century cattle town stereotype and reveal a vibrant progressive city This informative study provides a wealth of material on Wichita's history population composition educational opportunities labor force financial structure industry commerce and politics It will help residents of Wichita gain a deeper understanding of their city and will give outsiders an in depth look at Wichita as a place in which to live and work In addition as a study of one city's evolution from cow town to regional center it will be of interest to students of urban development across the nation This is a notable document a contribution to all who are concerned with understanding the metropolitan phenomenon in the modern world Anyone who examines this thoughtful and restrained presentation will be especially impressed by the scope and depth of treatment of economic and educational forces and by the interrelations of the local scene with the wider region and the nation What a challenge this report presents to the citizens and the responsible men and women of power who are fortunate enough to live in Wichita Luther Gulick Chairman Board of Trustees Institute of Public Administration

America's Historic Stockyards J'Nell L. Pate, 2005 Livestock markets for the sale and distribution of meat developed as early as the days of colonial America In the mid nineteenth century as westward expansion increased and railroads developed stockyard companies formed in order to meet the demand of a growing nation Contrary to markets these companies were centrally organized and managed by a select few principal partners America's Historic Stockyards Livestock Hotels is an examination of such stockyards from their early beginnings to their eventual decline Stockyards helped to establish some of America's greatest cities Early on the scene were stockyards in cities such as Cincinnati otherwise known as Porkopolis and meat stockyards and packing powerhouse Chicago which was considered the number one livestock market in the nation Markets soon opened in the Midwest and eventually expanded further westward to California and Oregon Other smaller markets made large contributions to the industry The cow towns of Fort Worth and Wichita never reached the status of Chicago but did have large livestock receipts Fort Worth for instance became the largest horse and mule market in 1915 as World War I produced an increased demand for these animals Meatpacking moguls known as the Big Four Phillip Armour Gustavus Swift Nelson Morris and Edward Cudahy usually financed these growing markets controlled the meatpacking business and in turn the stockyards companies Although the members changed this oligopoly remained intact for much of the duration of the stockyards industry However as railways gave way to highways the markets declined and so too did these moguls By the end of the twentieth century almost every major market closed bringing an end to the stockyard era J Nell Pate's examination of this era the people and the markets themselves recounts a significant part of the history of America's meat industry
