*Meurtre à Cambridge* J. B. Livingstone, 1987 Analyse Roman policier nigme *Meurtre à Cambridge* J. B. Livingstone, 2003-04-09 Etre belle intelligente et milliardaire c'est la heureuse destinée réservée Cecilia Ambroswell dans un cadre ancien et prestigieux où les vieilles pierres des collages transmettent le savoir et la dignité Tout serait parfait si une main criminelle n'était venue interrompre le cours de cette brillante destinée Un meurtre inexplicable qui en raison de la personnalité de la victime risque de provoquer un scandale qui pourrait même atteindre la Couronne *The Scene of the Mass Crime* Christian Delage, Peter Goodrich, 2013-05-07 *The Scene of the Mass Crime* takes up the unwritten history of the peculiar yet highly visible form of war crimes trials These trials are the first and continuing site of the interface of law history and film From Nuremberg to the contemporary trials in Cambodia film in particular has been crucial both as evidence of atrocity and as the means of publicizing the proceedings But what does film bring to justice Can law successfully address war crimes atrocities genocide What do the trials actually show What form of justice is done and how does it relate to ordinary courts and proceedings What lessons can be drawn from this history for the very topical political issue of filming civil and criminal trials This book takes up the diversity and complexity of these idiosyncratic and in strict terms generally extra legal medial situations Drawing on a fascinating diversity of public trials and filmic responses from the Trial of the Gang of Four to the Gacaca local courts of Rwanda to the filmic symbolism of 9 11 from Soviet era show trials to Nazi People's Courts leading international scholars address the theatrical political filmic and symbolic importance of show trials in making history legitimating regimes and most surprising of all in attempting to heal trauma through law and through film These essays will be of considerable interest to those working on international criminal law transitional justice genocide studies and the relationship between law and film *Parricide and Violence against Parents* Marianna Muravyeva, Phillip Shon, Raisa Maria Toivo, 2020-12-30 *Parricide and Violence Against Parents* takes a historical and criminological approach to the research on parricide and violence against parents placing the research in the context of social development from the 1500s to contemporary society and giving a global overview and comparison The book examines parricide and violence against parents as historically and culturally sensitive phenomena It offers evidence on a seemingly rare subject from different eras areas and cultures and then uses the cross disciplinary data to produce a new systematic insight for the reader Case studies shift the discussion from the contemporary focus on adolescent to parent abuse to examining the sources of conflict during life cycles of parents and their offspring A historical approach illuminates the variations in conflicts between parents and their offspring that are shaped by the life stages of the victims and offenders themselves across time The book argues that parental authority has been marked by property ownership and tax paying responsibilities throughout history The continued possession of property resulted in power the reluctance to part with it becoming a notable source of conflict across generations within families Parental authority was protected by means of heavy penalties and punishments and didactic

teachings in almost every society at every stage of historical development It was also challenged constantly by children as a part of their coming into adulthood The abuse of parents has often been connected to situations where adult children were prevented from gaining the amount of independence appropriate to their position in life This led to disputes over authority and the legitimate grounds for that authority Offering an insight into complicated and interconnected histories of generational conflicts and how they affect modern families in different parts of the world this book will be of great interest to students and scholars of criminology history of crime history of the family family violence homicide studies gender studies history of emotions political violence and social work Crime, Histoire et Sociétés, 2000/1 Association internationale d'histoire du crime et de la justice criminelle, Contemporary Authors Terrie M. Rooney, 2002-07 Your students and users will find biographical information on approximately 300 modern writers in this volume of Contemporary Authors R **The Foetal Condition** Luc Boltanski, 2013-10-29 Abortion is a contentious issue in social life but it has rarely been subjected to careful scrutiny in the social sciences While the legalization of abortion has brought it into the public domain it still remains a sensitive topic in many cultures often hidden from view and rarely spoken about consigned to a shadowy existence Drawing on reports gathered from hospital settings and in depth interviews with women who have had abortions Luc Boltanski sets out to explain the ambiguous status of this social practice Abortion he argues has to remain in the shadows for it reveals a contradiction at the heart of the social contract the principle of the uniqueness of beings conflicts with the postulate of their replaceable nature a postulate without which no society would achieve demographic renewal This leads Boltanski to explore the way human beings are engendered and to analyze the symbolic constraints that preside over their entry into society What makes a human being is not the foetus as such ensconced within the body but rather the process by which it is taken up symbolically in speech that is its symbolic adoption But this symbolic adoption presupposes the possibility of discriminating among embryos that are indistinguishable For society and sometimes for individuals the arbitrary character of this discrimination is hard to tolerate The contradiction is made bearable Boltanski shows by a grammatical categorization the project foetus adopted by its parents who use speech to welcome the new being and give it a name is juxtaposed to the tumoral foetus an accidental embryo that will not be the object of a life forming project Bringing together grammar narrations of life experience and an historical perspective this highly original book sheds fresh light on a social phenomenon that is widely practised but poorly understood *La salle des meurtres* Phyllis Dorothy James, 2016-10-28 Cette nouvelle intrigue concoctée par P D James se déroule dans le huis clos d'un petit musée londonien le Dupayne d'ici aux années de l'entre-deux guerres véritable enclave de verdure et de calme située la lisière du parc de Hampstead Heath Administrée par les trois enfants de son fondateur Max Dupayne cette institution rencontre des difficultés financières et l'un des fils Neville psychiatre de son tuteur donner une nouvelle fois son aval la reconduction du bail Or sans son accord le musée fermera Aussi quand on retrouve son corps carbonisé dans l'enceinte de l'établissement est-ce tout naturellement sur les responsables et le

personnel du musée que se portent les soupçons du commandant Adam Dalgliesh d'après les lieux. Qui a pu souhaiter la mort du médecin Son frère Marcus et sa sœur Caroline qui eux tiennent absolument ce que le Dupayne reste ouvert Le conservateur James Calder Hale dont on apprend qu'il a des liens avec les services secrets du MI5 Les deux employés modèles Tally Clutton et Muriel Godby qui se débattent corps et âme cette institution L'affaire se complique lorsqu'un deuxième corps est retrouvé cette fois dans l'une des salles du musée précisément celle consacrée aux meurtres célèbres des années trente

Crime in Medieval Europe Trevor Dean, 2014-06-17 What is the difference between a stabbing in a tavern in London and one in a hostelry in the South of France What happens when a spinster living in Paris finds knight in her bedroom wanting to marry her Why was there a crime wave following the Black Death From Aberdeen to Cracow and from Stockholm to Sardinia Trevor Dean ranges widely throughout medieval Europe in this exiting and innovative history of lawlessness and criminal justice Drawing on the real life stories of ordinary men and women who often found themselves at the sharp end of the law he shows how it was often one rule for the rich and another for the poor in a tangled web of judicial corruption Crime Scenes, 2021-11-01 The essays in this collection are based on papers given at a conference on detective fiction in European culture held at the University of Exeter in September 1997 The range of topics covered is designed to show not only the presence and variety of narratives of detection across different European countries and their different media although there is a predictable emphasis on the novel It also illustrates the fertility of the genre its openness to a spectrum of readings with different emphases formal as well as thematic Approaches to detective fiction have often tended to confine them selves to symptomatic interpretation where details of the fictional world represented are used to diagnose a specific set of social preoccupations and priorities operative at the time of writing Such approaches can yield valuable insights Nonetheless there is a risk of limiting the value of the genre as a whole solely to its role as a mirror held up to society In this perspective issues of structure and style are sidelined or if addressed are praised to the extent that they approach invisibility concision spareness realism are the qualities singled out for praise The genre also gives much scope for formal innovation and indeed has often attracted already established mainstream writers and filmmakers for just this reason The eclectic diversity of the detective narratives considered in this volume reveal the malleability of the traditional constraints of the genre The essays bear rich testimony to the value of considering the interplay of thematic and structural issues even in the most apparently unselfconscious and popular or populist forms of narrative The patterns of reassurance the triumph of intellect and the ordered rational world of old are now challenged by the need to foreground the problems ambiguities and uncertainties of the self and of society The plurality of meanings and the antithetical imperatives explored in these detective narratives confirm that the most recent forms of the genre are not mere palimpsests of their golden age precursors The subversion of traditional expectations and the implementation of diverse stylistic devices take the genre beyond mere homage and pastiche The role of the reader spectator and critic in conferring meaning is a crucial one **Contemporary French and**

**Scandinavian Crime Fiction** Anne Grydehøj, 2021-07-05 This book offers a study of Danish Norwegian Swedish and French crime fictions covering a fifty year period From 1965 to the present both Scandinavian and French societies have undergone significant transformations Twelve literary case studies examine how crime fictions in the respective contexts have responded to shifting social realities which have in turn played a part in transforming the generic codes and conventions of the crime novel At the centre of the book's analysis is crime fiction's negotiation of the French model of Republican universalism and the Scandinavian welfare state both of which were routinely characterised as being in a state of crisis at the end of the twentieth century Adopting a comparative and interdisciplinary approach the book investigates the interplay between contemporary Scandinavian and French crime narratives considering their engagement with the relationship of the state and the citizen and notably with identity issues class gender sexuality and ethnicity in particular

**A Weak Woman in a Strong Battle** Jennifer Lillian Lodine-Chaffey, 2022-08-30 The reception of women's speeches Jennifer Lodine Chaffey argues depended on their performances of accepted female behaviors and words as well as physical signs of interior regeneration Indeed when women presented themselves or were represented as behaving in stereotypically feminine and virtuous ways they were able to offer limited critiques of their fraught positions in society The first part of this study investigates the early modern execution including the behavioral expectations for condemned individuals the medieval tradition that shaped the ritual and the gender specific ways English authorities legislated and carried out women's executions Depictions of the female body are the focus of the second part of the book The executed woman's body Lodine Chaffey contends functioned as a text scrutinized by witnesses and readers for markers of innocence or guilt

**Crime, Jews and News** Daniel Mark Vyleta, 2007-01-01 Crimes committed by Jews especially ritual murders have long been favorite targets in the antisemitic press This book investigates popular and scientific conceptualizations of criminals current in Austria and Germany at the turn of the last century and compares these to those in the contemporary antisemitic discourse It challenges received historiographic assumptions about the centrality of criminal bodies and psyches in late nineteenth and early twentieth century criminology and argues that contemporary antisemitic narratives constructed Jewish criminality not as a biológico racial defect but rather as a coolly manipulative force that aimed at the deliberate destruction of the basis of society itself Through the lens of criminality this book provides new insight into the spread and nature of antisemitism in Austria Hungary around 1900 The book also provides a re evaluation of the phenomenon of modern Ritual Murder Trials by placing them into the context of wider narratives of Jewish crime

**The Roots of Violent Crime in America** Barry Latzer, 2021-03-17 The Roots of Violent Crime in America is criminologist Barry Latzer's

comprehensive analysis of crimes of violence including murder assault and rape in the United States from the 1880s through the 1930s Combining the theoretical perspectives and methodological rigor of criminology with a synthesis of historical scholarship as well as original research and analysis Latzer challenges conventional thinking about violent crime of this era While scholars have traditionally cast American cities in the late nineteenth and early twentieth centuries as dreadful places Latzer suggests that despite overcrowding and poverty U S cities enjoyed low rates of violent crime especially when compared to rural areas The rural South and the thinly populated West both suffered much higher levels of brutal crime than the metropolises of the East and Midwest Latzer deemphasizes racism and bigotry as causes of violence during this period noting that while many social groups confronted significant levels of discrimination and abuse only some engaged in high levels of violent crime Cultural predispositions and subcultures of violence he posits led some groups to participate more frequently in violent activity than others He also argues that the prohibition on alcohol in the 1920s did not drive up rates of violent crime Though the bootlegger wars contributed considerably to the murder rate in some of America s largest municipalities Prohibition also eliminated saloons which served as hubs of vice corruption and lawlessness The Roots of Violent Crime in America stands as a sweeping reevaluation of the causes of crimes of violence in the United States between the Gilded Age and World War II compelling readers to rethink enduring assumptions on this contentious topic **Meurtres**
