## **Mexican American In School A History Of Educational Neglect:**

**Mexican Americans in School** Thomas P. Carter, 1970      **Chicana/o Struggles for Education** Guadalupe San Miguel, 2013-06-03 Much of the history of Mexican American educational reform efforts has focused on campaigns to eliminate discrimination in public schools However as historian Guadalupe San Miguel demonstrates in *Chicana o Struggles for Education* Activism in the Community the story is much broader and more varied than that While activists certainly challenged discrimination they also worked for specific public school reforms and sought private schooling opportunities utilizing new patterns of contestation and advocacy In documenting and reviewing these additional strategies San Miguel s nuanced overview and analysis offers enhanced insight into the quest for equal educational opportunity to new generations of students San Miguel addresses questions such as what factors led to change in the 1960s and in later years who the individuals and organizations were that led the movements in this period and what motivated them to get involved and what strategies were pursued how they were chosen and how successful they were He argues that while Chicana o activists continued to challenge school segregation in the 1960s as earlier generations had they broadened their efforts to address new concerns such as school funding testing English only curricula the exclusion of undocumented immigrants and school closings They also advocated cultural pride and memory inclusion of the Mexican American community in school governance and opportunities to seek educational excellence in private religious nationalist and secular schools The profusion of strategies has not erased patterns of de facto segregation and unequal academic achievement San Miguel concludes but it has played a key role in expanding educational opportunities The actions he describes have expanded extended and diversified the historic struggle for Mexican American education      [Mexican American Education Study](#) United States Commission on Civil Rights, 1971      [Racial Desegregation in Public Education in the United States Theme Study](#) , 2002

[Five Generations of a Mexican American Family in Los Angeles](#) Christina Chavez, 2007-04-09 Despite their citizenship and English monolingualism Mexican Americans have long been known to remain largely working class which academically has meant that they tend to be mostly high school graduates with low rates of college attendance and completion Attempting to understand this phenomenon *Five Generations of a Mexican American Family in Los Angeles* chronicles the home work and school lives of the author s multigenerational family throughout the twentieth century Using oral histories of 33 members across five generations the Fuentes story illuminates the interaction between race ethnicity and class at home in the labor market and in schools which circumscribe the opportunity and resources or lack thereof for academic success Generally findings show that these factors work together to reproduce the family s social standing over generations Equally important the analysis reveals how the persistence and strength of the Fuentes heritage cultural values buena educaci n and familism have insulated them from the continued threat of racial discrimination and economic hardship in American life The Fuentes story provides the reader with a keen view of the process by which Fuentes moved from immigrants to ethnic

Americans and shows how they have gracefully survived the harsh and unpredictable nature of being of a racial minority and the working class

*Civil Rights Digest* ,1970 *Latino Access to Higher Education* Martin Guevara Urbina,Claudia Rodriguez Wright,2015-10-01 While the black and white racial experience has been delineated over the years the ethnic realities of Latinos have received minimal attention Therefore with Latinos projected as the upcoming U S population majority the central goal of this book is to document the Latino experience in the world of academia focusing primarily but not exclusively on first generation Latino students in higher education delineating the dynamics of the educational journey while situating their experiences within the ethnic community the overall American society and the international community The text focuses on 1 ethnic realities including Latino student access to higher education retention graduation rates and career success 2 analysis of historic trends 3 extensive review of prior empirical studies 4 a holistic portrayal of education in the U S 5 a qualitative study conducted in an institution of higher education in Texas placing the stories of participating Latino students in theoretical context 6 vivid documentation of historically entrenched racial ideologies in American education 7 exploration of potential solutions to historical and contemporary barriers confronting Latino students 8 development of a model of empowerment for Latino students 9 information for the establishment of a balanced educational system 10 accountability of higher education institutions 11 review of revolutionizing education in the midst of current globalization and 12 venturing into the future of Latino education in the overall American experience Finally the book seeks to examine not only America s racism that is evident but also the structural cultural and ideological forces that have influenced and continue to perpetuate the current educational situation for Latinos

Eliminating Racism Phyllis A. Katz,Dalmas A. Taylor,2013-06-29 The chapters presented here provide the reader with an awareness of the divergent views of what constitutes racism and frameworks for reducing it This book points out that the dialogue and research on this subject since the mid 1970s have

yielded increased controversy over the theories foundation and continued existence of racism Ironically what we viewed in the 1954 Brown decision and the Civil Rights Act of 1964 as the beginning of the end of racism turned out to be the beginning of confusion over the course of action to ensure societal acceptance of political mandates Hence the title of this book captures the essence of the emotional core of any forum for examining racism past and present One of the most controversial forums has been that of education beginning with the U S Supreme Court's 1954 ruling in Brown v Board of Education Behind every event that has spawned controversy is a profile in courage It was not a simple decision for the players in the scenario of the Brown v Board of Education case to step forward and present themselves as evidence of discrimination Black parents supported by black organizations viewed this legal action as a chance for equal opportunity Yet the 1950s were a time when black communities were pained by the thought that bigotry and institutional racism would forever stand in the way of their achieving equality
