Hope for Justice and Power Kathleen Staudt, 2020-03-15. Texas-based affiliates in the Industrial Areas Foundation (IAF) built on ideas, principles, and actions from the late Saul Alinsky offer a strong, mature organizing model compared with other community organizations in the state and the United States as a whole. IAF affiliates' members consist of institutions; most of them faith-based congregations and synagogues. Local volunteer leaders in those institutions work together in relationships of trust that draw strength, unity, and purpose from IAF principles and the social justice precepts of their different faiths. In *Hope for Justice and Power*, Kathleen Staudt examines the twenty-first century activities of the Texas IAF in multiple cities and towns around the state, drawing on forty years of academic teaching and on twenty years of active leadership experiences in the IAF. She identifies major contradictions, tensions, and their resolutions in IAF organizing related to centralism versus local control, reformist versus radical goals, stable revenue generation, greater gender balance in leadership, and evolving IAF principles. The political context in modern Texas is a challenging one compared to the Texas IAF founding period in the last quarter of the twentieth century, yet local IAF volunteer leaders achieve their goals with a strong political base in divergent urban regions around the state. With declining religious affiliation in U.S. society, the Texas IAF has begun to recruit members from broad-based institutions such as schools and health clinics. The hope and winnable goals that sustain IAF organizing show the importance of organized power, trained volunteer leaders, and relationships with public officials in between elections. With cross-class alliances, IAF affiliates work to foster equitable change toward a more just society. To analyze the Texas IAF, Staudt draws on participant observation in El Paso statewide meetings and training, on interviews, and on archival documents and media coverage. This book will appeal to those interested in community-based organizing and leadership, Mexican American and women's politics, civic capacity building in education, political socialization, and both Texas and urban politics.

*Records and Briefs of the United States Supreme Court*, 1832. The Chicano Experience Alfredo Mirandé, 2022-08-15. This revised second edition of *The Chicano Experience* offers a new interpretation of the social, cultural, and economic forces that shape the situation of Chicanos today. For more than thirty years and now in its ninth printing, Alfredo Miranda's *The Chicano Experience* has captivated readers with its groundbreaking analysis of Chicanos in the United States. Although its original context differs markedly from the current demographic landscape, it remains no less relevant today. Latinos have emerged as the largest minority population in the United States. With updated chapters revised in light of contemporary scholarship, this second edition speaks to the Chicano of today in addition to Puerto Ricans, Central Americans, and other groups who share

common experiences of colonization racialization and especially in the last decade demonization In this foundational text Mirand develops a comprehensive framework for Chicano sociology that in attending closely to Chicano experience aims to correct the biases and misconceptions that have prevailed in the field He demonstrates how the conventional immigrant group model of society with its focus on assimilation into mainstream American culture does not apply to Chicanos Supporting this constructive proposal are analyses of Chicano social history and culture with chapters focusing on the economy the border law education family gender and machismo and religion The book concludes with a case study of community attitudes toward the police in an urban barrio In many ways the first edition of *The Chicano Experience* anticipated the sensitivity to the experiences of the underrepresented in American culture This second edition reaffirms the prescience of Mirand s work and makes it available to a new generation of students and scholars of Chicano and Latino studies ethnic and race studies sociology and cultural studies *Protean Literacy* Concha Delgado-Gaitan,2017-11-22 Originally published in 1996 During the author s decade of critical ethnography in Carpinteria California she has illuminated the intricate relationships between Latino families as together they build a sociopolitical community to bridge family and school alliances How they extend their learning from the social networks to the family arena and to the personal and in reverse represents their protean responses to the diversity and adversity in their lives This life story captures the collective and individual texts of the Latino children their parents and educators used to empower themselves to transform discontinuity in an age where continuity is increasingly foreign ***The Evolution of Deficit Thinking*** Richard R. Valencia,2012-11-12 Deficit thinking refers to the notion that students particularly low income minority students fail in school because they and their families experience deficiencies that obstruct the learning process e g limited intelligence lack of motivation inadequate home socialization Tracing the evolution of deficit thinking the authors debunk the pseudo science and offer more plausible explanations of why students fail *The Identity and Mission of the Korean American Church* Enoch Jinsik Kim,Sebastian Kim,2024 In this book scholars of Korean American Protestant churches address key challenges concerning sociocultural and theological formation of identity and mission The discussions are arranged in three areas identity formation missional and spiritual formation and inter cultural formation ***Transnational Spaces*** Philip Crang,Claire Dwyer,Peter Jackson,2004-07-31 Social relations in our globalising world are increasingly stretched out across the borders of two or more nation states Yet despite the growing academic interest in transnational economic networks political movements and cultural forms too little attention has been paid to the transformations of space that these processes both reflect and reproduce *Transnational Spaces* takes a innovative perspective looking at transnationalism as a social space that can be occupied by a wide range of actors not all of whom are themselves directly connected to transnational migrant communities
