What's new in this collection is 15 long finished stories to accompany 15 of the story prompts. Use these as inspiration or have students read them as literature in their own right. Help students explore interesting topics and relevant social issues through the lens of fiction. Example stories include: A genie offers three wishes but there are rules. A smartphone with an amazing new feature. What is it? A sleep demon that punishes students who fall asleep in class. A woman discovers her pets can talk and they have something to tell her. A world where everyone interacts through virtual reality, never actually leaving home. Bio-engineered babies have become the norm and this couple just won a free psychic baby. A story about a haunted apartment. But the rent is so cheap. What did they really find in Pandora's Box. *Bushwhackers 05: Mexican Standoff* B. J. Lanagan, 1998-04-01 During the Civil War they sought justice outside of the law, paying back every Yankee raid with one of their own. No man could stop them. No woman could resist them. And no Yankee stood a chance when Win and Joe Coulter rode into town. Normally the Coulter brothers wouldn't pay any mind to some varmint's love life. But Win and Joe are down to their last dollars so they agree to find the guy's long lost lover, a little filly named Cat Clay. It seems like their easier job yet. Except that Cat is living smack dab in the middle of a Mexican ranch war with bullets flying thicker than blazes. Now they have to find a ruthless killer, settle a ranch dispute, and rescue a very lovely lady in distress without ending up six feet under. All in a day's work for these two men from Missouri.

Mexican Standoff William Everson, 1989 **The China-India Rivalry in the Globalization Era** T.V. Paul, 2018-09-03 As the aspirations of the two rising Asian powers collide, the China-India rivalry is likely to shape twenty-first century international politics in the region and far beyond. This volume by T.V. Paul and an international group of leading scholars examines whether the rivalry between the two countries that began in the 1950s will intensify or dissipate in the twenty-first century. The China-India relationship is important to analyze because past experience has shown that when two rising great powers share a border, the relationship is volatile and potentially dangerous. India and China's relationship faces a number of challenges, including multiple border disputes that periodically flare up, division over the status of Tibet and the Dalai Lama, the strategic challenge to India posed by China's close relationship with Pakistan, the Chinese navy's greater presence in the Indian Ocean, and the two states' competition for natural resources. Despite these irritants, however, both countries agree on issues such as global financial reforms and climate change and have much to gain from increasing trade and investment, so

there are reasons for optimism as well as pessimism The contributors to this volume answer the following questions What explains the peculiar contours of this rivalry What influence does accelerated globalization especially increased trade and investment have on this rivalry What impact do US China competition and China s expanding navy have on this rivalry Under what conditions will it escalate or end The China India Rivalry in the Globalization Era will be of great interest to students scholars and policymakers concerned with Indian and Chinese foreign policy and Asian security *The Sino-Indian Rivalry* Šumit Ganguly,Manjeet S. Pardesi,William R. Thompson,2023-06-29 Drawing on a wide body of literature on international rivalries this comprehensive and theoretically grounded work explains the origins and evolution of the Sino Indian rivalry Contrary to popular belief the authors argue that the Sino Indian rivalry started almost immediately after the emergence of the two countries in the global arena They demonstrate how the rivalry has systemic implications for both Asia and the global order intertwining the positional and spatial dimensions that lie at the heart of the Sino Indian relationship Showing how this rivalry has evolved from the late 1940s to the present day the essays in this collection underscore its significance for global politics and highlight how the asymmetries between India and China have the potential to escalate conflict in the future

Violence, Coercion, and State-Making in Twentieth-Century Mexico Wil G. Pansters, 2012-05-30 Mexico is currently undergoing a crisis of violence and insecurity that poses serious threats to democratic transition and rule of law This is the first book to put these developments in the context of post revolutionary state making in Mexico and to show that violence in Mexico is not the result of state failure but of state making While most accounts of politics and the state in recent decades have emphasized processes of transition institutional conflict resolution and neo liberal reform this volume lays out the increasingly important role of violence and coercion by a range of state and non state armed actors Moreover by going beyond the immediate concerns of contemporary Mexico this volume pushes us to rethink longterm processes of state making and recast influential interpretations of the so called golden years of PRI rule Violence Coercion and State Making in Twentieth Century Mexico demonstrates that received wisdom has long prevented the concerted and systematic study of violence and coercion in state making not only during the last decades but throughout the post revolutionary period The Mexican state was built much more on violence and coercion than has been acknowledged until now
