Architecture and Science-Fiction Film David T. Fortin, 2016-12-05 The home is one of our most enduring human paradoxes and is brought to light tellingly in science fiction SF writing and film However while similarities and crossovers between architecture and SF have proliferated throughout the past century the home is often overshadowed by the spectacle of otherness The study of the familiar home within the alien SF creates a unique cultural lens through which to reflect on our current architectural condition SF has always been linked with alienation however the conditions of such alienation and hence notions of home have evidently changed There is often a perceived comprehension of the familiar that atrophies the inquisitive and interpretive processes commonly activated when confronting the unfamiliar Thus by utilizing the estranging

qualities of SF to look at a concept inherently linked to its perceived opposite the home a unique critical analysis with particular relevance for contemporary architecture is made possible Case Di Campagna N.114 , Latin American Literature at the Millennium Cecily Raynor,2021-04-16 Latin American Literature at the Millennium studies canonical and peripheral literary texts that complicate links between locality and geographical place revealing new configurations of the local It explores the region s transition into the twenty first century and evaluates Latin American authors reconciliation of conflicting forces in their construction of everyday places and modes of belonging Architecture INTL Nancy Solomon,2008-05-27 On the occasion of its 150th anniversary the American Institute of Architects asked more than 70 contributors to examine the complex and evolving of the America s architects in shaping our cities and communities Through essays vignettes and profiles illustrated with more than 560 photographs Architecture provides a look at the breath and depth of the architecture profession and points to the significant contributions architects have made in all aspects of society Most important the book demonstrates the value of applying architectural thinking to the many serious issues from global warming and homeland security to accessibility and diversity facing our world today BOOK JACKET A Pictorial History of Arkansas's Old State House Mary L.
