Stevens, 2012 In the Mexican states of Puebla and Veracruz old masked dances have survived in isolated mountain regions These dances include wonderful masks of humans and animals masks with beautiful comic or wicked faces Created by Indigenous master carvers mascareros these masks and puppets appear during religious fiestas Over 700 vivid color photos reveal these masks and puppets in all their glory The thoroughly researched text answers the questions about who made these beautiful works of art who these dance characters are and the nature of the religion they represent The Spanish conquerors strove to convert the Indian inhabitants of Mexico to Christianity However these converts secretly retained important deities from earlier times to accompany Christian elements creating a poetic blend of beliefs Given that these indigenous peoples have suffered many injustices the masks puppets and dance dramas reflect many unresolved societal tensions along with veiled wishes for divine justice **Masks of the Spirit** Peter T. Crafting Identity Pavel Shlossberg, 2015-06-11 Crafting Identity goes far beyond folklore in its ethnographic exploration
of mask making in central Mexico In addition to examining larger theoretical issues about indigenous and mestizo identity
and cultural citizenship as represented through masks and festivals the book also examines how dominant institutions of
cultural production art media and tourism mediate Mexican arte popular which makes Mexican indigeneity digestible from
the standpoint of elite and popular Mexican nationalism and American and global markets for folklore The first ethnographic
study of its kind the book examines how indigenous and mestizo mask makers both popular and elite view and contest
relations of power and inequality through their craft Using data from his interviews with mask makers collectors museum
curators editors and others Pavel Shlossberg places the artisans within the larger context of their relationships with the
nation state and Mexican elites as well as with the production cultures that inform international arts and crafts markets In
exploring the connection of mask making to capitalism the book examines the symbolic and material pressures brought to
bear on Mexican artisans to embody and enact self racializing stereotypes and the performance of stigmatized indigenous
identities Shlossberg's weaving of ethnographic data and cultural theory demystifies the way mask makers ascribe meaning
to their practices and illuminates how these practices are influenced by state and cultural institutions Demonstrating how the
practice of mask making negotiates ethnoracial identity with regard to the Mexican state and the United States Shlossberg
shows how it derives meaning value and economic worth in the eyes of the state and cultural institutions that mediate
between the mask maker and the market *Mexican Masks* Renwick Gallery, Smithsonian Institution. National Collection of
