Divine Action and Natural Selection Joseph Seckbach, Richard Gordon, 2009 The debate between divine action or faith and natural selection or science is garnering tremendous interest This book ventures well beyond the usual contrasting American Protestant and atheistic points of view and also includes the perspectives of Jews Muslims and Roman Catholics It contains arguments from the various proponents of intelligent design creationism and Darwinism and also covers the sensitive issue of how to incorporate evolution into the secondary school biology curriculum Comprising contributions from prominent award winning authors the book also contains dialogs following each chapter to provide extra stimulus to the readers and a full picture of this hot topic which delves into the fundamentals of science and religion **Hunt-Cortes Digest**, 1904 *Return to Aztlan* Danna A. Levin Rojo, 2014-03-10 Long before the Spanish colonizers established it in 1598 the Kingdom of Nuevo M xico had existed as an imaginary world and not the one based on European medieval legend so often said to have driven the Spaniards ambitions in the New World What the conquistadors sought in the 1500s it seems was what the native Mesoamerican Indians who took part in north going conquest expeditions also sought a return to the Aztecs mythic land of origin Aztlan Employing long overlooked historical and anthropological evidence Danna A Levin Rojo reveals how ideas these natives held about their own past helped determine where Spanish explorers would go and what they would conquer in the northwest frontier of New Spain present day New Mexico and Arizona Return to Aztlan thus remaps an extraordinary century during which for the first time Western minds were seduced by Native American historical memories Levin Rojo recounts a transformation of an abstract geographic space the imaginary world of Aztlan into a concrete sociopolitical place Drawing on a wide variety of early maps colonial chronicles soldier reports letters and native codices she

charts the gradual redefinition of native and Spanish cultural identity and shows that the Spanish saw in Nahua or Aztec civilization an equivalence to their own. A deviation in European colonial naming practices provides the first clue that a transformation of Aztlan from imaginary to concrete world was taking place. Nuevo Mexico is the only place name from the early colonial period in which Europeans combined the adjective new with an American Indian name. With this toponym Spaniards referenced both Mexico Tenochtitlan the indigenous metropolis whose destruction made possible the birth of New Spain itself and Aztlan the ancient Mexicans place of origin. Levin Rojo collects additional clues as she systematically documents why and how Spaniards would take up native origin stories and make a return to Aztlan their own goal and in doing so overturns the traditional understanding of Nuevo Mexico as a concept and as a territory. Social Anthropology is the sixth volume in the Handbook of Middle American Indians published in cooperation with the Middle American Research Institute of Tulane University under the general editorship of Robert Wauchope. 1909 1979 The volume editor is Manning Nash. 1924 2001 Professor of Anthropology at the Center for Study of Economic Development and Cultural Change University of Chicago. This volume provides a synthetic and comparative summary of native ethnography and ethnology of Mexico and Central America written by authorities in a number of broad fields: the native population and its identification; agricultural systems and food patterns; economies; crafts; fine arts; kinship and family; compadrazgo; local and territorial units; political and religious organizations; levels of communal relations; annual and fiesta cycles; sickness; folklore; religion; mythology; psychological orientations; ethnic relationships; and topics of especial modern significance such as acculturation; nationalization; directed change; urbanization and industrialization. The articles rely on the accumulated ethnography of the region but instead of being essentially historical in treatment they aim toward generalizations about the uniformities and varieties of culture, society and personality found in Middle America. The collection is an invaluable reference work on Middle America and a provocative guide to scholars engaged in furthering understanding of humans and society. The Handbook of Middle American Indians was assembled and edited at the Middle American

Research Institute of Tulane University with the assistance of grants from the National Science Foundation and under the sponsorship of the National Research Council Committee on Latin American Anthropology Cultural Dynamics and Production Activities in Ancient Western Mexico Eduardo Williams, Blanca Maldonado, 2016-04-30 This book presents a collection of papers from the Symposium on Cultural Dynamics and Production Activities in Ancient Western Mexico held at the Center for Archaeological Research of the Colegio de Michoacán on September 18-19, 2014 **Breaking Through Mexico's Past** David Carrasco, Leonardo López Luján, Eduardo Matos Moctezuma, 2007 The life of celebrated Mexican archaeologist Moctezuma tells of a man rising to the challenges of life and a man who has eloquently spoken to the importance of understanding the roots of civilization **Handbook of Middle American Indians, Volume 16** Robert Wauchop, 2014-01-07 The publication of Volume 16 of this distinguished series brings to a close one of the largest research and documentation projects ever undertaken on the Middle American Indians. Since the publication of Volume 1 in 1964, the Handbook of Middle American Indians has provided the most complete information on every aspect of indigenous culture, including natural environment, archaeology, linguistics, social anthropology, physical anthropology, ethnology, and ethnohistory. Culminating this massive project is Volume 16, divided into two parts. Part I, Sources Cited, by Margaret A. L. Harrison, is a listing in alphabetical order of all the bibliographical entries cited in Volumes 1-11. Volumes 12-15, comprising the Guide to Ethnohistorical Sources, have not been included because they stand apart in subject matter and contain or constitute independent bibliographical material. Part II, Location of Artifacts, Illustrated by Marjorie S. Zengel, details the location at the time of original publication of the owner of each pre-Columbian American artifact illustrated in Volumes 1-11 of the Handbook, as well as the size and the catalog accession and/or inventory number that the owner assigns to the object. The two parts of Volume 16 provide a convenient and useful reference to material found in the earlier volumes. The Handbook of Middle American Indians was assembled and edited at the Middle American Research Institute of Tulane University with the assistance of grants from the National Science Foundation and under the sponsorship of the National Research Council Committee on Latin American Anthropology.
