**Mexico at the World's Fairs** Mauricio Tenorio-Trillo, 2024-06-12 This intriguing study of Mexico's participation in world's fairs from 1889 to 1929 explores Mexico's self-presentation at these fairs as a reflection of the country's drive toward nationalization and a modernized image. Mauricio Tenorio Trillo contrasts Mexico's presence at the 1889 Paris fair where its display was the largest and most expensive Mexico has ever mounted with Mexico's presence after the 1910 Mexican Revolution at fairs in Rio de Janeiro in 1922 and Seville in 1929. Rather than seeing the revolution as a sharp break, Tenorio Trillo points to important continuities between the pre and post-revolution periods. He also discusses how internationally the character of world's fairs was radically transformed during this time from the Eiffel Tower prototype encapsulating a wondrous symbolic universe to the Disneyland model of commodified entertainment. Drawing on cultural, intellectual, urban, literary, social, and art histories, Tenorio Trillo's thorough and imaginative study presents a broad cultural history of Mexico from 1880 to 1930 set within the context of the origins of Western nationalism, cosmopolitanism, and modernism. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1997.

*World Literature in Spanish* Maureen Ihrie, Salvador Oropesa, 2011-10-20 Containing roughly 850 entries about Spanish language literature throughout the world, this expansive work provides coverage of the varied countries, ethnicities, time periods, literary movements, and genres of these writings. Providing a thorough introduction to Spanish language literature worldwide and across time, it is a tall order. However, *World Literature in Spanish: An Encyclopedia* contains roughly 850 entries on both major and minor authors, themes, genres, and topics of Spanish literature from the Middle Ages to the present day, affording an amazingly comprehensive reference collection in a single work. This encyclopedia describes the growing diversity within national borders, the increasing interdependence among nations, and the myriad impacts of Spanish literature across the globe. All countries that produce literature in Spanish in Europe, Africa, the Americas, and Asia are represented, covering both canonical authors and emerging contemporary writers and trends. Underrepresented writings such as texts by women, writers, queer, and Afro-Hispanic texts, children's literature, and works on relevant but less studied topics such as sports and nationalism also appear. While writings throughout the centuries are covered, those of the 20th and 21st centuries receive special consideration.

*The Interwar World* collects an international group of over 50 contributors to discuss, analyze, and interpret this crucial period in twentieth-century history. A comprehensive understanding of the interwar era has been limited by Euro-American approaches and strict adherence to the temporal limits of the world wars. The volume's contributors challenge the era's

accepted temporal and geographic framings by privileging global processes and interactions Each contribution takes a global thematic approach integrating world regions into a shared narrative Three central questions frame the chapters First when was the interwar Viewed globally the years 1918 and 1939 are arbitrary limits and the volume explicitly engages with the artificiality of the temporal framework while closely examining the specific dynamics of the 1920s and 1930s Second where was the interwar Contributors use global history methodologies and training in varied world regions to decenter Euro American frameworks engaging directly with the usefulness of the interwar as both an era and an analytical category Third how global was the interwar Authors trace accelerating connections in areas such as public health and mass culture counterbalanced by processes of economic protectionism exclusive nationalism and limits to migration By approaching the era thematically the volume disaggregates and interrogates the meaning of the global in this era As a comprehensive guide this volume offers overviews of key themes of the interwar period for undergraduates while offering up to date

In Mexico as elsewhere the national space that network of places where the people interact with state institutions is constantly changing. How it does so, how it develops is a historical process, a process that Claudio Lomnitz exposes and investigates in this book which develops a distinct view of the cultural politics of nation building in Mexico. Lomnitz highlights the varied, evolving and often conflicting efforts that have been made by Mexicans over the past two centuries to imagine, organize, represent and know their country, its relations with the wider world and its internal differences and inequalities. Firmly based on particulars and committed to the specificity of such thinking, this book also has broad implications for how a theoretically informed history can and should be done. An exploration of Mexican national space by way of an analysis of nationalism, the public sphere and knowledge production. *Deep Mexico, Silent Mexico* brings an original perspective to the dynamics of national cultural production on the periphery. Its blending of theoretical innovation, historical inquiry and critical engagement provides a new model for the writing of history and anthropology in contemporary Mexico and beyond. *Public Worlds* Series volume 9. **The World Factbook** United States. A geographical encyclopedia of world place names contains alphabetized entries with detailed statistics on location, name, pronunciation, topography, history and economic and cultural points of interest. World Fairs and the Global Moulding of National Identities, 2021-11-01. This volume examines the role of the broad variety of international exhibitions between 1851 and 1958 in two programmatic essays and twelve case studies covering not just France and the United States but also among others Sweden, Romania, Colombia, Japan and the nascent European Community. World fairs were global platforms for the construction of national identities. The mix of national self-profiling and commercial exoticism turned the nation into a brand while reframing the nation-state from its nineteenth-century positioning amidst neighbouring enemies towards being a competitor in a global consumer-oriented trade and entertainment economy. By presenting national identities in banal form as feel-good factors, world fairs helped the nation to maintain its grassroots appeal across the century of totalitarianism and internationalism.
