## **Meyerhold At Work:**

**Meyerhold at Work** Paul Schmidt, 2014-12-15 Not a mirror but a magnifying glass such in the poet Mayakovsky's words was the theater of Vsevolod Meyerhold. The first to insist on the primacy of the director's role indeed the first to conceive of it as a role this passionately dedicated Russian director tore down the fourth wall and forced the actors and audience together into one inescapable community of experience. Yet Meyerhold recorded few of his theories in writing and the intensity and brilliance of his work must be recaptured through the actors and artists who helped create the performances. Focusing on Meyerhold's postrevolutionary career Paul Schmidt has assembled in this book journals, letters, reminiscences and of special interest actual rehearsal notes that build a fascinating intimate picture of Meyerhold as a theorist and as a man. Included are Meyerhold's frantic notes to his teacher friend and belle noire Stanislavsky, detailed descriptions of how he trained his actors in biomechanics and memories by such students as Eisenstein and such friends as Pasternak and Ehrenburg. One chapter deals with Meyerhold's never realized conception of Boris Godunov while another describes his direction of *Camille* which starred Zinaida Raikh his wife and which played its 725th and last performance on the day Stalin's government liquidated Meyerhold's theater. Paul Schmidt's introduction and headnotes enhance our understanding of Meyerhold as a pioneer of modern theater.

**Musicality in Theatre** David Roesner, 2016-04-29 As the complicated relationship between music and theatre has evolved and changed in the modern and postmodern periods music has continued to be immensely influential in key developments of theatrical practices. In this study of musicality in the theatre David Roesner offers a revised view of the nature of the relationship. The new perspective results from two shifts in focus: on the one hand Roesner concentrates in particular on theatre making that is the creation processes of theatre and on the other he traces a notion of musicality in the historical and contemporary discourses as driver of theatrical innovation and aesthetic disposition, focusing on musical qualities, metaphors and principles derived from a wide range of genres. Roesner looks in particular at the ways in which those who attempted to experiment with advance or even revolutionize theatre often sought to use and integrate a sense of musicality in training and directing processes and in performances. His study reveals both the continuous changes in the understanding of music as model, method and metaphor for the theatre and how different notions of music had a vital impact on theatrical innovation in the past 150 years. Musicality thus becomes a complementary concept to theatricality helping to highlight what is germane to an art form as well as to explain its traction in other art forms and areas of life. The theoretical scope of the book is developed from a wide range of case studies, some of which are re-readings of the classics of theatre history: Appia, Meyerhold, Artaud, Beckett while others introduce or rediscover less discussed practitioners such as Joe Chaikin, Thomas Bernhard, Elfriede Jelinek, Michael Thalheimer and Karin Beier.
