Divided Spirits Sarah Bowen, 2015-10 Divided Spirits tells the stories of tequila and mezcal two of Mexico's most iconic products In recent years as consumers increasingly demand to connect with the people and places that produce their food the concept of terroir the taste of place has become more and more prominent Tequila and mezcal are both protected by denominations of origin DOs legal designations that aim to guarantee a product's authenticity based on its link to terroir Advocates argue that the DOs expand market opportunities protect cultural heritage and ensure the reputation of Mexico's national spirits Yet this book shows how the institutions that are supposed to guard the legacy of all Mexicans often fail those who are most in need of protection the small producers agave farmers and other workers who have been making tequila and mezcal for generations Divided Spirits suggests that we must move beyond market based models if we want to safeguard local products and the people who make them Instead we need systems of production consumption and oversight that are more democratic more inclusive and more participatory Page 4 of cover
