excellent source of reference for graduate students instructors and scholars studying religious life in Classical Greece

*Paul, the Worldly Ascetic* Vincent L. Wimbush, 2012-03-01 In writing to the Corinthians Paul was grappling with fundamental issues concerning the lifestyle of Christians and specifically with questions about marriage interracial marriage and remarriage The so called hos me passage in I Corinthians 7 has been identified as a key passage for understanding Paul's expressed understanding of an appropriate model of Christian existence in the world This one pastoral counseling passage has had significant influence on the development of Western social orientation not limited to the issues of marriage and of Christian piety Paul the Worldly Ascetic is a fundamental reevaluation of a benchmark passage I Corinthians 7 and is itself a model of historical critical exegesis This insightful work will be welcomed by students of Paul early Christianity and history of religion by classicists and by those who seek an understanding of how we may rightly engage the world in which we live

**The Developing World and the Environment** Rajendra Ramlogan, 2004-09-28 The seeds of the demise of many early civilizations Mesopotamian Greek Roman and Mayan found fertile ground in environmental conflicts The roots of environmental crises are also embedded in the industrial revolution the advent of the age of science and technology urbanization changes in agriculture the population explosion and the rise in consumerism It is no surprise that even today the global village is highly concerned with the issue of environmentalism In this study author Rajendra Ramlogan calls for a re examination of the legal and institutional framework for protection of the global environment within the context of the special needs of the developing world This unique third world perspective on international environmental law is suitable for college level courses

**Herodotus and Religion in the Persian Wars** Jon D. Mikalson, 2004-07-21 The two great Persian invasions of Greece in 490 and 480 79 B C both repulsed by the Greeks provide our best opportunity for understanding the interplay of religion and history in ancient Greece Using the Histories of Herodotus as well as other historical and archaeological sources Jon Mikalson shows how the Greeks practiced their religion at this pivotal moment in their history In the period of the invasions and the years immediately after the Greeks internationally state by state and sometimes individually turned to their deities using religious practices to influence understand and commemorate events that were threatening their very existence Greeks prayed and sacrificed made and fulfilled vows to the gods consulted oracles interpreted omens and dreams created cults sanctuaries and festivals and offered dozens of dedications to their gods and heroes all in relation to known historical events By portraying the human situations and historical circumstances in which Greeks practiced their religion Mikalson advances our knowledge of the role of religion in fifth century Greece and reveals a religious dimension of the Persian Wars that has been previously overlooked

Beauty and the Gods Hugo Shakeshaft, 2025-03-25 A history of the origins of the classical ideal of beauty in archaic Greece To look like a Greek god is proverbial for beauty today just as it was for Homer nearly three thousand years ago In this book Hugo Shakeshaft tells the untold story of beauty's inextricable link with the divine in this formative era of ancient Greek history c 750 480 BCE

Through in depth analysis of a wide array of ancient sources the book offers a panoramic view of the Archaic Greek world in arguing that ideas of beauty were fundamental to how Greeks thought about and worshipped their gods Surveying everything from Homeric epic lyric poetry and votive inscriptions to vase paintings sculpture and the architecture of Greek temples Shakeshaft reveals how ideas and experiences of beauty structured human relations with the divine in Archaic Greece Comparisons are made throughout the book with the literature art and architecture of the diverse cultures of the ancient Near East to clarify its insights into Archaic Greece These comparisons highlight that the association of beauty and the divine has been at the heart of many societies throughout human history despite its oversight in the lively debate about beauty in academia and the art world in the twenty first century With a novel contribution to this debate and the history of aesthetics the book uncovers an aspect of ancient Greek history with an enduring legacy showing how we still live with the cultural dialogue which originated in this period

**Religion of the Gods** Kimberley Christine Patton, 2009 In many of the world's religions both polytheistic and monotheistic a seemingly enigmatic and paradoxical image is found that of the god who worships Various interpretations of this seeming paradox have been advanced Some suggest that it represents sacrifice to a higher deity Proponents of anthropomorphic projection say that the gods are just big people and that images of human religious action are simply projected onto the deities However such explanations do not do justice to the complexity and diversity of this phenomenon In Religion of the Gods Kimberley C Patton uses a comparative approach to take up anew a longstanding challenge in ancient Greek religious iconography why are the Olympian gods depicted on classical pottery making libations The sacrificing gods in ancient Greece are compared to gods who perform rituals in six other religious traditions the Vedic gods the heterodox god Zurvan of early Zoroastrianism the Old Norse god Odin the Christian God and Christ the God of Judaism and Islam's Allah Patton examines the comparative evidence from a cultural and historical perspective uncovering deep structural resonances while also revealing crucial differences Instead of looking for invisible recipients or lost myths Patton proposes the new category of divine reflexivity Divinely performed ritual is a self reflexive self expressive action that signals the origin of ritual in the divine and not the human realm Above all divine ritual is generative both instigating and inspiring human religious activity The religion practiced by the gods is both like and unlike human religious action Seen from within the religious tradition gods are not big people but other than human Human ritual is directed outward to a divine being but the gods practice ritual on their own behalf Cultic time the symbiotic performance of ritual both in heaven and on earth collapses the distinction between cult and theology each time ritual is performed Offering the first comprehensive study and a new theory of this fascinating phenomenon Religion of the Gods is a significant contribution to the fields of classics and comparative religion Patton shows that the god who performs religious action is not an anomaly but holds a meaningful place in the category of ritual and points to a phenomenologically universal structure within religion itself

**Impurity and Sin in Ancient Judaism** Jonathan Klawans, 2004 Jonathan Klawans shows how the

link between moral impurity and physical defilement as understood by the ancient Hebrews can be followed through to St Paul and the Christian era when the need for ritual purity was finally rejected      *Transformations of the Inner Self in Ancient Religions* Jan Assmann, Guy Stroumsa, 2018-11-13 This collection of papers from two workshops held in Heidelberg Germany in July 1996 and Jerusalem Israel in October 1997 is concerned with anthropological rather than theological aspects of the Near Eastern and Mediterranean religions ranging from the primary religions of the archaic period and their complex developments in Egypt and Mesopotamia to the soteriological movements and secondary religions that emerged in Late Antiquity The first part of the book focuses on Confession and Conversion while the second part is devoted to the topic of Guilt Sin and Rituals of Purification The primary purpose of this volume is to convey a sense of the dynamics and dialectical relationships between the various Near Eastern and Mediterranean religions from the archaic period to Late Antiquity

**The Dark Side: Philosophical Reflections on the “Negative Emotions”** Paola Giacomoni, Nicolò Valentini, Sara Dellantonio, 2021-04-02 This book takes the reader on a philosophical quest to understand the dark side of emotions The chapters are devoted to the analysis of negative emotions and are organized in a historical manner spanning the period from ancient Greece to the present time Each chapter addresses analytical questions about specific emotions generally considered to be unfavorable and classified as negative The general aim of the volume is to describe the polymorphous and context sensitive nature of negative emotions as well as changes in the ways people have interpreted these emotions across different epochs The editors speak of the dark side of the emotions because their goal is to capture the ambivalent unstable and shadowy aspects of emotions A number of studies have taken the categorial distinction between positive and negative emotions for granted suggesting that negative emotions are especially significant for our psychological experience because they signal difficult situations For this reason the editors stress the importance of raising analytical questions about the valence of particular emotions and focussing on the features that make these emotions ambivalent how despite their negativity such emotions may turn out to be positive This opens up a perspective in which each emotion can be understood as a complex interlacing of negative and positive properties The collection presents a thoughtful dialogue between philosophy and contemporary scientific research It offers the reader insight by illuminating the dark side of the emotions

**Encyclopedia of Ancient Greece** Nigel Wilson, 2013-10-31 Examining every aspect of the culture from antiquity to the founding of Constantinople in the early Byzantine era this thoroughly cross referenced and fully indexed work is written by an international group of scholars This Encyclopedia is derived from the more broadly focused Encyclopedia of Greece and the Hellenic Tradition the highly praised two volume work Newly edited by Nigel Wilson this single volume reference provides a comprehensive and authoritative guide to the political cultural and social life of the people and to the places ideas periods and events that defined ancient Greece      *A Companion to the Classical Greek World* Konrad H. Kinzl, 2010-01-11 This Companion provides scholarly yet accessible new interpretations of Greek history of the Classical period from the

aftermath of the Persian Wars in 478 B C to the death of Alexander the Great in 323 B C Topics covered range from the political and institutional structures of Greek society to literature art economics society warfare geography and the environment Discusses the problems of interpreting the various sources for the period Guides the reader towards a broadly based understanding of the history of the Classical Age *Indigenous Transnationalism* Lynda Ng,2018-11-01 After Aboriginal author Alexis Wright s novel *Carpentaria* won the Miles Franklin Award in 2007 it rapidly achieved the status of a classic The novel is widely read and studied in Australia and overseas and valued for its imaginative power its epic reach and its remarkable use of language *Indigenous Transnationalism* brings together eight essays by critics from seven different countries each analysing Alexis Wright s novel *Carpentaria* from a distinct national perspective Taken together these diverse voices highlight themes from the novel that resonate across cultures and continents the primacy of the land the battles that indigenous peoples fight for their language culture and sovereignty a concern with the environment and the effects of pollution At the same time by comparing the Aboriginal experience to that of other indigenous peoples they demonstrate the means by which a transnational approach can highlight resistance to or subversion of national prejudices Military Departures, Homecomings and Death in Classical Athens Owen Rees,2022-01-13 This volume sheds new light on the experience of ancient Greek warfare by identifying and examining three fundamental transitions undergone by the classical Athenian hoplite as a result of his military service his departure to war his homecoming from war having survived and his homecoming from war having died As a conscript a man regularly called upon by his city state to serve in the battle lines and perform his citizen duty the most common military experience of the hoplite was one of transition he was departing to or returning from war on a regular basis especially during extended periods of conflict Scholarship has focused primarily on the experience of the hoplite after his return with a special emphasis on his susceptibility to Post Traumatic Stress Disorder PTSD but the moments of transition themselves have yet to be explored in detail Taking each in turn Owen Rees examines the transitions from two sides from within the domestic environment as a member of an oikos and from within the military environment as a member of the army This analysis presents a new template for each and effectively maps the experience of the hoplite as he moves between his domestic and military duties This allows us to reconstruct the effects of war more fully and to identify moments with the potential for a traumatic impact on the individual Pagan Portals - Hellenic Paganism Samantha Leaver,2021-02-26 Hellenic Paganism has been growing in interest for a number of years and steadily becoming a strong presence in neo Paganism As with most paths there are many differing practices in the Hellenic world all underpinned by the values and ethics of what is understood to be the Hellenic way of life This includes practitioners who simply believe and work with the Theoi and those that attempt the daunting task of reconstructing this beautifully rich and consuming religion Hellenic Paganism explores the revitalisation and modernisation of ancient Greek life
