*Michael Heizer* Michael Heizer,1991      **Michael Heizer: The Once and Future Monuments** William L. Fox,2019-09-24 The most comprehensive account available of Michael Heizer's art by a writer and curator who has critical experience with the artist and his work Michael Heizer is among the greatest and often least accessible American artists As one of the last living figures who launched the Land Art movement his legacy of works that are literally and metaphorically monumental has an incalculable influence on the world of sculpture and environmental art But his seclusion in the remote Nevada desert as well as his notorious obduracy have resulted in significant gaps in our critical understanding Michael Heizer *The Once and Future Monuments* spans the breadth of Heizer's career uniquely combining fieldwork personal narrative and biographical research to create the first major assessment in years of this titan of American art Author William L. Fox founding director of the Center for Art Environment at the Nevada Museum of Art has alternately been a sponsor advocate and critic of Heizer's work for decades Fox's understanding of the artist's history and connection to landscape his time spent with Heizer at the remote ranch where Heizer is finishing his magnum opus the mile long sculpture *City* and his access to some of Heizer's key associates give him a unique position from which to discuss the artist's work Fox has also made numerous site visits to Heizer's work including early pieces in the Nevada desert now largely lost to the elements to correct the often inconsistent accounts of their locations Last Fox imparts a crucial new understanding of Heizer's work by elaborating on the artist's bond with his father the famed archaeologist and cultural ecologist Robert Heizer who enlisted his son on important digs in Mexico and Peru providing the young man with an appreciation of site landscape and geology that would thoroughly inform his work Michael Heizer *The Once and Future Monuments* is a long overdue addition to the critical and biographical literature of this major figure in American art      **The Grove Encyclopedia of American Art** Joan M. Marter,2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries      Michael Heizer Michael Heizer,Mark C. Taylor,1991 Created with bulldozer and dynamite in 1969 in the vast expanse of the Nevada desert Michael Heizer's *Double Negative* was one of the first and remains among the most influential of the monumental earthworks sculptures in and of the land a 1 500 foot incision on the edge of a mesa 80 miles from Las Vegas its site is now officially part of the collection of The Museum of Contemporary Art in Los Angeles captured in this book with 25 oversized plates that document the sculpture's creation and impart a sense of its scale Cover      The Void, The Grid & The Sign William L. Fox,2016-10-01 This is a story that few know but those who do are its disciples The story of the highest and driest of all American deserts the Great Basin has no finer voice than that of William Fox Fox's book is divided into the three sections of the title In *The Void* he leads us through the Great Basin landscape investigating our visual response to it a pattern of mountains and valleys on a scale of such magnitude and emptiness and undifferentiated by shape form and color that the visual and cognitive expectations of the human mind are confounded and impaired *The Grid* leads us

on a journey through the evolution of cartography in the nineteenth century and the explorations of John Charles Fremont to the net of maps section markers railroads telegraph lines and highways that humans have thrown across the void throughout history The Sign wends us through the metaphors and language we continue to place around and over the void revealing the Great Basin as a palimpsest where for example the neon boulevards of Las Vegas interplay with ancient petroglyphs In this one of a kind travel book that allows us to travel within our own neurophysiological processes as well as out into the arresting void of the Great Basin Fox has created a dazzling new standard at the frontier of writing about the American West His stunning and broad insight draws from the fields of natural history cognitive psychology art history western history archaeology and anthropology and will be of value to scholars and readers in all these subjects *Negative Space* Peter Weibel, 2021-12-28 A bold new spatial perspective on modern sculpture with 800 color images of work by artists including Henry Moore Lygia Clark Anish Kapoor and Ana Mendieta This monumental richly illustrated volume from ZKM Karlsruhe approaches modern sculpture from a spatial perspective interpreting it through contour emptiness and levitation rather than the conventional categories of unbroken volume mass and gravity It examines works by dozens of twentieth and twenty first century artists including Hans Arp Marcel Duchamp Henry Moore Barbara Hepworth Lygia Clark Anish Kapoor Olafur Eliasson Ana Mendieta Fujiko Nakaya Tomàs Saraceno and Alicja Kwade The large scale book contains over 800 color images Negative Space comes out of an epic exhibition at ZKM and volume editor Peter Weibel Chairman and CEO of ZKM takes a curatorial approach to the topic The last exhibition to deal comprehensively with the question What is modern sculpture was at the Centre Georges Pompidou in 1986 Weibel and ZKM pick up where the Pompidou left off examining sculptures not as figurative solid and self contained monoliths but in terms of open and hollow spaces reflection light shadow innovative materials data and the moving image Weibel puts advances in science architecture and mathematics in the context of avant garde sensibilities to show how modern sculpture significantly deviates from the work of the past Texts in the volume include an introduction and twelve chapters written by Weibel with contributions by cocurators as well as facsimiles and reproductions of artist authored manifestos *Seeing Silence* Mark C. Taylor, 2020-08-13 This wide ranging study explores the many meanings of silence through the work of visual artists philosophers theologians writers and composers Mark C Taylor's prolific output has delved into topics ranging from media to metaphysics and from postmodern theology to posthuman bodies His latest explores the significance of silence amid the buzzing networks of our modern age Have we forgotten how to listen to each other to recognize the virtues of modesty and reticence and to appreciate the resonance of silence Are we less prepared than ever for the ultimate silence that awaits us all In Taylor's account our way to hearing silence is paradoxically to see it He explores the many variations of silence by considering the work of leading modern and postmodern visual artists including Barnett Newman Ad Reinhardt James Turrell and Anish Kapoor Developing the insights of philosophers theologians writers and composers Taylor weaves a rich narrative modeled on the Stations of the Cross

Recasting Hegel's phenomenology of spirit and Kierkegaard's stages on life's way Taylor translates the traditional Via Dolorosa into a Nietzschean Via Jubilosa that affirms light in the midst of darkness Seeing Silence is a thoughtful meditation that invites readers to linger long enough to see silence and in this way perhaps to hear once again the wordless Word that once was named God
