Michaelmas Rudolf Steiner, 2013-04-17 Rudolf Steiner the often undervalued multifaceted genius of modern times contributed much to the regeneration of culture. In addition to his philosophical teachings he provided ideas for the development of many practical activities including education both general and special agriculture medicine economics architecture science religion and the arts. Steiner's original contribution to human knowledge was based on his ability to conduct spiritual research the investigation of metaphysical dimensions of existence. With his scientific and philosophical training he brought a new systematic discipline to the field allowing for conscious methods and comprehensive results. A natural seer from childhood he cultivated his spiritual vision to a high degree enabling him to speak with authority on previously veiled mysteries of life. Samples of Steiner's work are to be found in this introductory reader in which Matthew Barton brings together excerpts from Steiner's many talks and writings on Michaelmas. The volume also features an editorial

introduction afterword commentary and notes Chapters Sinking Earth Rising Spirit Michael and the Dragon Michael Spirit of Our Age Towards a Michael Festival *Edgar Cayce on Angels, Archangels and the Unseen Forces* Robert J. Grant, 2005-06

The next step for those who want to discover angels in their lives this book goes beyond angelic appearances to a keen new awareness of how angels influence world evolution and one's own personal psyche You will explore new research on angels roles in personal and planetary karma the angelic hierarchy the origin and destiny of Christ archangels and fallen angels and the meaning of angels in the Revelation **St John's** Rudolf Steiner, 2013-05-09 Rudolf Steiner the often undervalued multifaceted genius of modern times contributed much to the regeneration of culture In addition to his philosophical teachings he provided ideas for the development of many practical activities including education both general and special agriculture medicine economics architecture science religion and the arts Steiner's original contribution to human knowledge was based on his ability to conduct spiritual research the investigation of metaphysical dimensions of existence With his scientific and philosophical training he brought a new systematic discipline to the field allowing for conscious methods and comprehensive results A natural seer from childhood he cultivated his spiritual vision to a high degree enabling him to speak with authority on previously veiled mysteries of life Samples of Steiner's work are to be found in this introductory reader in which Matthew Barton brings together excerpts from Steiner's many talks and writings on the festival of St John's The volume also features an editorial introduction afterword commentary and notes Chapters Midsummer Dream the Earth Breathes Out Finding the Greater Self He Must Increase I Must Decrease Creating Vision **Relating to Rudolf Steiner** Sergei O. Prokofieff, 2008 Even within the Anthroposophical Society and the anthroposophic movement people's relationship to Rudolf Steiner is weakening and dissipating This is problematic says Prokofieff as the future of both the Society and movement depends on a sufficient number of people aspiring to and realizing a true spiritual connection with the founder of Anthroposophy Prokofieff deals in detail with this issue and asks Can one be an anthroposophist without being Rudolf Steiner's pupil In the second part of this book Prokofieff elaborates on the mysteries surrounding the laying of the spiritual Foundation Stone at the Society's Christmas Meeting that began 1923 That event he asserts ensured that a personal relationship with Rudolf Steiner would not remain within the realm of the generally abstract or intellectual but would become a real inner deed Thus Steiner gave each anthroposophist the possibility of connecting with him through free inner work on the Foundation Stone Both parts of this book are linked in the sense that once a relationship with Steiner is established an inner longing to work with the new mysteries will follow In Prokofieff's words The will to take the foundation of the new mysteries seriously leads to a real inner connection with Rudolf Steiner Relating to Rudolf Steiner includes an essay on the problem of digitally publishing Steiner's most important esoteric texts and the esoteric background of the internet and electronic media in general In response to readers questions about how to counteract the harmful consequences of these developments Prokofieff has expanded and developed his original essay on this subject **The Encounter with Evil and**

Its Overcoming Through Spiritual Science Sergei O. Prokofieff, 1999 In our everyday lives we are constantly challenged by the phenomenon of evil in all its many manifestations But how can we cope with this seemingly eternal hindrance In the first of these three essays Prokofieff suggests that we start by developing a knowledge of the forces of evil in order to learn how they work in human evolution Such knowledge is in itself the beginning of the process of overcoming evil In order that members of the Anthroposophical Society might go further along this path Rudolf Steiner gave them the spiritual Foundation Stone of the Good This Foundation Stone which consists of light imaginative form and the substance of love can live in our hearts and souls as a firm foundation for esoteric work and a creative contribution towards the overcoming of evil Ultimately it can lead us to a conscious experience of Christ in the etheric realm of the earth In the second and third essays Prokofieff examines further themes relating to the etheric advent of Christ and its connection with the Foundation Stone of the Good

The Cycle of the Seasons and the Seven Liberal Arts Sergei O. Prokofieff, 1995 The arts have always been characterized by a strong element of community building We can deepen and strengthen this impulse significantly today by establishing a connection between the various arts the cycle of the seasons and its festivals The great ideal of the synthesis of science art and religion

Humanity's Last Stand Nicanor Perlas, 2018 The twenty first century is the age of science and technology It will also be the age when humanity confronts for the first time a challenge that may overwhelm and destroy the human species itself in as little as 12 to 20 years from now This is the challenge of artificial intelligence AI Deployed properly AI will confer tremendous benefits to society It is already doing this Deployed inappropriately or mistakenly AI will undermine human civilization as it is also starting to do and could then lead to the extinction of humanity Scientists philosophers and engineers call this latter possibility the existential risk of AI The fate of our future is literally in our hands Nicanor Perlas from the preface Although still in its earliest stages artificial intelligence is radically transforming all aspects of society With the immanent emergence of Artificial Super Intelligence ASI and the illusory temptations of transhumanism humankind stands at a crossroads Nicanor Perlas makes an urgent plea in this book It is imperative he says that we take immediate steps to ensure that digitized technology is aligned to human values and priorities Otherwise ASI will kill the essence of our humanity Furthermore if we do not master it now ASI will transform humanity into its own image ultimately it will destroy the human race AI experts have not offered a single cogent solution to this existential threat Rudolf Steiner however not only foresaw these developments but also provided clear alternatives Steiner who developed a contemporary scientific approach to spirituality provided philosophical ontological and social innovations to save humanity from this technological abyss It is the task of the global anthroposophic movement to pioneer this civilization saving work to establish spiritual scientific ideas in mainstream culture that would allow AI to emerge in a healthier societal context Perlas offers an overview of the AI phenomenon together with its related transhuman concepts of perfecting humanity outlining the critical internal and external responses needed to meet them consciously In particular the author addresses the movement connected to the work of

Rudolf Steiner indicating its all important tasks to cooperate with progressive individuals and movements including scientists and civil society activists to mobilize its daughter movements for action and ultimately to cooperate with the spiritual powers that have guided and served humanity since the dawn of time This says Perlas is humanity s last stand Failure is not an option *Spirit and Art* Van James,2002 Stumbling through life gazing at the stars we can miss the greatest treasure beneath our feet For the ordinary faculties of our soul how we think how we feel how we act are the rough and fallen forms of our highest spiritual capacities This book shows how six of these common abilities thinking feeling doing loving opening thanking can be intensified infinitely We already think we can learn to think more deeply more livingly We already feel we can learn to train our feeling life away from ourselves so that we feel the world in its richness We already thank we can learn a depth of gratitude that makes life and love intensely real These exercises are simple but demanding By strengthening our capacity to pay attention they allow us to say the right word and have the fresh thought just when we need to They gradually lead us out of the mire of distraction and confusion and allow us to practice what we need most continual presence of mind

An Unknown Destiny Michael Gruber,2008-11 5 lectures Berlin January 25 February 8 1916 CW 166 The age old question of free will is still a mystery to most people today Even religious and philosophical circles have difficulty reconciling the concepts of morality destiny karma and necessity with true freedom Steiner illuminates questions of freedom and necessity and guilt and innocence by discussing various aspects of evolution history and culture and showing that human beings carry the responsibility for these developments He shows that the past represents necessity whereas true freedom belongs to the future Steiner states that whereas the human I is revealed in acts of volition on the physical plane ultimately we will find our true I being only through the Christ impulse and the completely free act of the Mystery of Golgotha German source edition Notwendigkeit und Freiheit im Weltengeschehen und im menschlichen Handeln GA 166 **Time of Decision with Rudolf Steiner** Friedrich Hiebel,1989-12 This fascinating recollection of the early days of the Anthroposophical Society offers a unique perspective on Rudolf Steiner s work and his relationship to his students Of particular interest to our readers will be the chapters on the Christmas Conference of 1923 for the foundation of the Anthroposophical Society Hiebel attended the meeting and his lively descriptions and warm style let those solemn events rise up again in our souls He recreates the solemn sacred mood of the laying of the Foundation Stone and provides insights into the structure and meaning of the Foundation Stone verses *From the History of the Dornach Hill...* Locher Angela,2024-11-25 Focusing on Marie Steiner von Sivers distinctive collaboration with Rudolf Steiner *From the History of the Dornach Hill* offers an engaging lively narrative of the early decades of the anthroposophical movement Utilizing eye witness accounts and primary sources Angela Locher creates vivid images of the developing arts at the Goetheanum in particular eurythmy speech formation and the dramatic arts but also describes many fascinating aspects of general anthroposophical history The latter include the period of cooperation with the Theosophical Society the design and building of the first and second Goetheanums travels tours and visits overseas with

Religion Rudolf Steiner, 2013-05-01 Mysticism and beyond the importance of prayer The meaning of sin and grace Rediscovering the Bible What is true communion Rediscovering the festivals and the life of the earth Finding one's destiny walking with Christ The significance of religion in life and death Christ's second coming the truth for our time Universal religion the meaning of love **From the History of the Dornach Hill...** Angela Locher, 2024-11-25 Focusing on Marie Steiner von Sivers distinctive collaboration with Rudolf Steiner From the History of the Dornach Hill offers an engaging lively narrative of the early decades of the anthroposophical movement Utilizing eye witness accounts and primary sources Angela Locher creates vivid images of the developing arts at the Goetheanum in particular eurythmy speech formation and the dramatic arts but also describes many fascinating aspects of general anthroposophical history The latter include the period of cooperation with the Theosophical Society the design and building of the first and second Goetheanums travels tours and visits overseas with Rudolf Steiner the pivotal Christmas Conference of 1923 4 stage performances including the Mystery Dramas and Rudolf Steiner's unexpected death and its aftermath Locher structures her absorbing study around the life of Marie Steiner from her birth in 1867 and childhood in Russia to her eventual passing in Switzerland in 1948 I have written this book especially for subsequent generations of eurythmists actors and speakers who could not experience what had been achieved in the previous century the vital processes of the development of eurythmy and the dramatic arts These created the foundation on which we stand today and from which we can carry on into the future Angela Locher This work by Angela Locher can be greeted with enthusiasm In view of the difficult challenges of our time more people than ever are beginning to experience that the arts are not merely a beautiful addition to life but are profoundly connected to our humanity Virginia Sease Spiritual Ecology Rudolf Steiner, 2013-05-09 Today we face an increasing number of challenges connected to our environment from climate change and extreme weather patterns to deforestation threats to animal species and ongoing crises in farming Hardly a day goes by without further alarming reports How are we to respond particularly if we wish to take a broader spiritual view of these events Today we face an increasing number of challenges connected to our environment from climate change and extreme weather patterns to deforestation threats to animal species and ongoing

crises in farming Hardly a day goes by without further alarming reports How are we to respond particularly if we wish to take a broader spiritual view of these events In the extracts compiled in this volume presented here with commentary and notes by Matthew Barton Steiner speaks about human perception the earth water plants animals insects agriculture and natural catastrophes Spiritual Ecology offers a wealth of original thought and spiritual insight for anyone who cares about the future of the earth and humanity The Burning Bush Edward Reaugh Smith,1997-07 Even more significant for Christianity in the long run than the twentieth century Dead Sea and Nag Hammadi discoveries is the growing North American awareness of Rudolf Steiner's works Virtually unavailable until the end of the twentieth century English translations from the German archives are gradually coming into print Both Steiner and his works have thus far been virtually unknown in traditional theological circles No Bible commentary has yet reflected the remarkable spiritual insights of Anthroposophy Now ten years after first encountering a written comment about Rudolf Steiner Ed Smith combines his own extensive traditional biblical knowledge with his years of concentrated study and reflection on hundreds of assembled works by Steiner The result is the first Bible commentary in the light of anthroposophic insight This is the first volume of a series of Bible commentary by the author It is based on the anthroposophic understanding given to humanity by Rudolf Steiner during the first quarter of the twentieth century Bible commentaries have always reflected the general line of thinking of their authors However the dramatic newness of anthroposophic thought means that perhaps the usual method of using a Bible commentary is not appropriate here A large part of *The Burning Bush* is necessarily devoted to laying an anthroposophic or spiritual scientific groundwork A major assumption indulged in most Bible commentaries that one can go directly to portions dealing with given passages of scripture and understand what is being said about them does not fit *What is Anthroposophy?* Rudolf Steiner,2002 3 selected lectures by Rudolf Steiner This is one of those books that can change your life Radical thought provoking and indeed mind boggling it leads to a completely new way of looking at what it means to be human a spiritual being in a universe that itself is not just physical but psychic and spiritual as well These three previously untranslated lectures are a masterly introduction to what Rudolf Steiner means by Anthroposophy They explain why Steiner describes this path which means literally the wisdom of the human being as one that unites what is spiritual in the human being with what is spiritual in the universe Steiner begins by describing what happens when we die He shows the relationship between our physical life on Earth and the etheric astral and spiritual life of the cosmos He also explains how physical lives are completely interwoven with cosmic existence and how the missing links in evolution are spiritual in nature Steiner then demonstrates what he calls the dilettantism and soullessness of mainstream psychology He points out that since the second half of the nineteenth century the idea of the soul has been lost and that consequently understanding of our inner lives is without a sure foundation A very different view emerges however from a truly spiritual perspective In the third lecture Steiner takes as his guide our three states of being waking dreaming and sleeping He describes in detail what happens

in these three states and how each is bound up with our lives as physical psychic and spiritual beings With the profound insights in this book the world becomes a much larger richer and more exciting place to live The Archangel Michael Rudolf Steiner,1994 The Michael age has dawned Hearts begin to have thoughts Enthusiasm no longer flows from mystical obscurity but from the inner clarity that thought conveys To grasp this is to receive Michael into one's soul Thoughts that today seek to grasp the spirit must spring from hearts that beat for Michael as the fiery cosmic prince of thought Rudolf Steiner For centuries the tradition of the mystical chronology of the world's seven archangelic regents has been part of Western esoteric teaching According to this tradition 1879 marked the return of the solar spirit Michael the archangel of the Sun to oversee earthly evolution Steiner always placed his life and work in the service of Michael's evolutionary task And he recognized that at the beginning of the twentieth century humanity emerged from the Kali Yuga the Dark Age and entered the Age of Light Against this background Steiner described the ascent of Michael as cosmic ruler his battle with the dragon of the spirits of darkness and his roles as the countenance of Christ and the guardian of cosmic intelligence He also gave many profound indications of how Michael's evolutionary task depends on the free and independent collaboration of human coworkers Speaking on behalf of Michael Steiner laid out the essentials for a new Michaelic path to full humanity Among the elements of this path are the development of selfless individuality cosmopolitanism the practice of the presence of Christ fearlessness the transformation of thinking and perception in a new synthesis of science art and religion the spiritualization of space and the separation of thought from language The Archangel Michael gathers most of Steiner's statements on this subject making it an important source for coming to terms with today's political social psychological and spiritual crises

The Twelve Holy Nights and the Spiritual Hierarchies Sergei O. Prokofieff,2004-11-05 Prokofieff draws on the whole extent of Rudolf Steiner's work and combines it with his own original spiritual research to form an intricate picture of the cosmic forces at play between Christmas and Epiphany We are led on a tour through the circle of the zodiac and spiritual hierarchies and shown how they form a path from Jesus to Christ The author further explains that the Starry Script is a key to anthroposophical Christology and shows how it relates to the conception of the First Goetheanum Prokofieff guides us imaginatively through the interior of Steiner's architectural masterpiece destroyed by fire at the end of 1922 whose structure and decorations are seen to constitute a coherent esoteric map Our task now he suggests is to rebuild the First Goetheanum within ourselves and through a new form of self development work toward a truly modern path of initiation Supplementary essays focus on the cosmic aspects of Sophia as well as the being of Michael Prokofieff's seminal study offers a rich source of inspiration for those wishing to penetrate the mysteries of the Twelve Holy Nights and their relation to spiritual beings

The Mystery of the Resurrection in the Light of Anthroposophy Sergei O. Prokofieff,2010 We live today at a time when the full mystery of the Resurrection body can become manifest to human beings out of the inspirations of Michael This was accomplished by Rudolf Steiner not just in a theoretical sense but also practically and came about through the establishing of

a path accessible to all human beings which leads to a union with the forces of the Resurrection body Sergei Prokofieff approaches the deepest mysteries of the Turning Point of Time the Christ event through Rudolf Steiner's spiritual research At its heart stands the question of the restoration of the phantom of the physical body and its transformation into the resurrected body of Christ through the Mystery of Golgotha The author draws a broad and differentiated picture of the tasks and possibilities that the Easter event as well as Ascension and Pentecost present both for the individual and humanity The final chapter considers the mystery of Easter Saturday through which the two polar aspects of the Mystery of Golgotha death and resurrection interconnect also explaining the relationship between the Earth Spirit and the interior of the Earth An appendix tackles the phenomenon of stigmatization from a spiritual scientific perspective
