*New Philosophies of Social Science: Realism, Hermeneutics and Critical Theory* William Outhwaite, 1987-12-08 The demise of empiricist philosophies of science has contributed to the current disarray of philosophy in the social sciences This book argues that a realist analysis of the structures and processes which make up the social world can provide a way out of its present impasse These processes ranging from the interpersonal negotiation of meaning to the constraining influence of administrative or market structures cannot be understood as mere constructs either in the minds of the theorist or of the social factors themselves since they actually generate the social world as we know it The author develops some implications of this approach and presents a realist view of some of the principal theoretical traditions and controversies within sociology and other social sciences

**Michel Foucault, the State and the Social Sciences** Arnault Skornicki, 2025-09-01 This book proposes an original reading of Foucault's theory of the state in relation to the social sciences In this text Skornicki deconstructs the pseudo obviousness in Foucauldian thought namely that Michel Foucault's new approach in political philosophy rejects the importance of the State institution for an analysis of power relations to focus instead on the micro relationships coming from below and forming a multiform and heterogeneous political field He argues that the State is not the institutional framework from which to think about power but is a reality with multiple political effects whose genetic history and genealogical importance must be accounted for in any critical analysis of contemporary forms of power The author thus traces through a history of the modern State that passes through Foucault but is not reduced to him paths of reflection that are crucial for our current political situation He suggests that a fundamental contribution of Foucault's genealogical philosophy to the social sciences is the possibility of an anti substantialist yet positive and productive thinking of power and the State The State is the product of a complex interweaving of phenomena processes theories and practices whose history must always be re thought and towards which many different forms of struggles are always possible and urgent to be initiated

about the individual in society      The Critique of Power Axel Honneth,1993-10-04 In this rich interpretation of the history of critical theory Axel Honneth clarifies critical theory's central problems and emphasizes the social factors that should provide it with a normative and practical orientation Axel Honneth's Critique of Power is a rich interpretation of the history of critical theory which clarifies its central problems and emphasizes the social factors that should provide that theory with a normative and practical orientation Honneth focuses on the dialog between French and German social theory that was beginning at the time of Michel Foucault's death It traces the common roots of the work of Foucault and Jürgen Habermas to a basic text of the last generation of critical theorists Max Horkheimer and Theodor Adorno's Dialectic of Enlightenment and draws from this connection the outline of a program that might unite and surpass their seemingly irreconcilable methods of critiquing power structures In doing so Honneth provides a constructive and nonpolemical framework for comparisons between the two theorists And he presents a novel interpretation of Foucault's analysis of social systems Honneth traces the internal contradictions in critical theory through an analysis of Horkheimer's early programmatic writings the Dialectic of Enlightenment and Adorno's later social theoretical writings He shows how Habermas and Foucault in their distinctive ways reinserted the social world into critical theory but argues that neither operation has been wholly successful His cogent analysis redirects critical social theory in ways that can draw on the strengths and avoid the weaknesses of the two approaches      *Corporeality, Medical Technologies and Contemporary Culture* Francisco Ortega,2013-12-17 Corporeality Medical Technologies and Contemporary Culture engages the confusions and contradictions in current attitudes to and practices of the body      **Logics of Critical Explanation in Social and Political Theory** Jason Glynos,David Howarth,2007-09-12 This book develops a novel approach to critical explanation as a function of logics taking a distinctive approach to social science explanation and political studies more specifically which avoids the problem of scientism      **The Theory of Political Culture** Stephen Welch,2013-06-13 Developing a theory of political culture as consisting of two dimensions discourse and practice the book explains how political culture can both inhibit political change and be a source of it It explores the nature and dynamics of political culture systematically and comprehensively and suggests numerous new lines of empirical research      **Mapping the Social Landscape** Susan J. this relationship is central to contemporary issues in composition pedagogy and curriculum In this era of digital writing and publishing composition and legal scholars have identified various problems with writers processes and the law s construction of textual ownership such as issues of appropriation infringement and fair use within academic and online contexts Invention Copyright and Digital Writing unpacks digital writers complex perceptions of copyright revealing how it influences what they choose to write and how it complicates their work Rife uses quantitative and qualitative approaches and focuses on writing as a tool and a technology mediated activity arguing the copyright problem is about not law but invention and the attendant issues of authorship Looking at copyright and writing through a rhetorical lens Rife leverages the tools and history of rhetoric to offer insights into how some of our most ancient concepts inform our understanding of the problems copyright law creates for writers In this innovative study that will be of interest to professional and technical writers scholars and students of writing and rhetoric and legal professionals Rife offers possibilities for future research teaching curriculum design and public advocacy in regard to composition and changing copyright laws

*Gramsci and the Southern Question* Juan José Gómez Gutiérrez, Carlo Verri, Tommaso Baris, 2025-02-24 This book looks at the Southern question in Antonio Gramsci It takes this as an opportunity to reflect on the special nature of his thought linked to the concepts of hegemony subalternity and the critique of the particular cultural identitarian and ideological forms of the South and its historical development Although the category was originally applied to the politics and history of Italy the debates on the Southern question have in recent times gained wider relevance combining with today's more general analyses relating for example to European geopolitics globalisation and the various global Souths to media and mass culture etc In other areas the Southern question in Gramsci has taken the form of a materialist epistemology connected to the historical phenomenon of the splitting of consciousness as opposed to its unity on a

theoretical level Elsewhere it has become a programme for the application of a strategy of the international left based on the building of alliances between different groups of subalterns Over time Gramsci s thought has come into contact with other partly converging perspectives such as critical urban theory and cultural and subaltern studies This has given rise to numerous fruitful lines of research in which the Southern question has been extended from Italy s own North South divide to other contexts What aspect of Gramsci s thought could justify this issue taking on such importance Gramsci and the Southern Question Global Readings Interpretations and Uses aims to answer this question by combining general theoretical approaches with studies on the reception of Gramscian concepts in the world s Souths      The International Encyclopedia of Communication Theory and Philosophy, 4 Volume Set Klaus Bruhn Jensen,Robert T.
