Radiant Past Ideology And Reality In Hungary's Road To Capitalism:

The Radiant Past Michael Burawoy, János Lukács, 1992-03-15 Communism once heralded as the radiant future of all humanity has now become part of Eastern Europe's past. What does the record say about the legacy of communism as an organizational system? Michael Burawoy and János Lukács consider this question from the standpoint of the Hungarian working class. Between 1983 and 1990 the authors carried out intensive studies in two core Hungarian industries: machine building and steel production to produce the first extended participant observation study of work and politics in state socialism. A fascinating and engagingly written eyewitness report on proletarian life in the waning years of goulash communism. A richly rewarding book, one that should interest political scientists in a variety of subfields from area specialists and comparativists to political economists as well as those interested in Marxist and post-Marxist theory. Elizabeth Kiss, *American Political Science Review*. A very rich book. It does not merely offer another theory of transition but also presents a clear interpretive scheme combined with sociological theory and vivid ethnographic description. Ireneusz Bialecki, *Contemporary Sociology*. Its informed skepticism of post-Communist liberal euphoria, its concern for workers and its fine ethnographic details make this work valuable. Ronald T. Taksony, *American Journal of Sociology*. *The Statesman's Yearbook* 2003 Barry Turner, 2016-12-30 For nearly one hundred and forty years *The Statesman's Yearbook* has been relied upon to provide accurate and comprehensive information on the current political, economic and social status of every country in the world. The appointment of the new editor, only the seventh in the book's history, brought enhancements to the 1998-99 edition and these have been continued since then. The 2003 edition is fully updated and contains more information than ever before, including for the first time websites for national governments and international organizations. A foldout colour section provides a political world map and flags for the one hundred and ninety-two countries of the world. In an endlessly changing world, the annual publication of *The Statesman's Yearbook* gives all the information you need in one easily digestible single volume. It will save hours of research and cross-referencing between different sources and it is an essential annual purchase.

The Statesman's Yearbook 2008 B. Turner, 2017-01-12 The 2008 edition of *The Statesman's Yearbook* contains information and analysis on every country in the world, including biographical profiles of current leaders, government histories, economic overviews and maps. Every copy comes with a single user licence giving access to the full text online, updated regularly and fully searchable. **Everyday Post-Socialism** Jeremy Morris, 2016-09-01 This book offers a rich ethnographic account of blue-collar workers' everyday life in a central Russian industrial town coping with simultaneous decline and the arrival of transnational corporations. *Everyday Post-Socialism* demonstrates how people manage to remain satisfied despite the crisis and relative poverty they faced after the fall of socialist projects and the social trends associated with neoliberal transformation. Morris shows the other life in today's Russia, which is not present in mainstream academic discourse or even in the media in Russia itself. This book offers co-presence and a direct understanding of how the local

community lives a life which is not only bearable but also preferable and attractive when framed in the categories of habitability commitment and engagement and seen in the light of alternative ideas of worth and specific values Topics covered include working class identity informal economy gender relations and transnational corporations **Reflections on 1989 in Eastern Europe** Terry Cox,2013-09-13 This book presents a selection of recent research on the events and developments of 1989 in Eastern Europe It offers a mix of detailed examinations of the events of 1989 in Eastern Europe thoughtful and considered appraisals of developments and middle range theoretical discussions of patterns of cause and effect The authors range in their approaches from detailed examinations of government and ruling party papers from the archives some of it originally labelled top secret to personal observations and oral history based on interviews with participants to analysis of survey data and official statistics In their chosen focus the essays range from explorations of the emerging crisis in the communist regimes that led to the events of 1989 reflections and insights into the events and changing mood during 1989 itself and examinations of some of the consequences and legacies of 1989 This book was published as a special issue of Europe Asia Studies **Privatizing Poland** Elizabeth Cullen Dunn,2015-09-25 The transition from socialism in Eastern Europe is not an isolated event but part of a larger shift in world capitalism the transition from Fordism to flexible or neoliberal capitalism Using a blend of ethnography and economic geography Elizabeth C Dunn shows how management technologies like niche marketing accounting audit and standardization make up flexible capitalism s unique form of labor discipline This new form of management constitutes some workers as self auditing self regulating actors who are disembedded from a social context while defining others as too entwined in social relations and unable to self manage Privatizing Poland examines the effects privatization has on workers self concepts how changes in personhood relate to economic and political transitions and how globalization and foreign capital investment affect Eastern Europe s integration into the world economy Dunn investigates these topics through a study of workers and changing management techniques at the Alima Gerber factory in Rzesz w Poland formerly a state owned enterprise which was privatized by the Gerber Products Company of Fremont Michigan Alima Gerber instituted rigid quality control job evaluation and training methods and developed sophisticated distribution techniques The core principle underlying these goals and strategies the author finds is the belief that in order to produce goods for a capitalist market workers for a capitalist enterprise must also be produced Working side by side with Alima Gerber employees Dunn saw firsthand how the new techniques attempted to change not only the organization of production but also the workers identities Her seamless engaging narrative shows how the employees resisted redefined and negotiated work processes for themselves Critical Study Of Work Rick Baldoz,2009 Essays that challenge the benefits of globalization and new technologies *Theorizing Transition* John Pickles,Adrian Smith,2005-08-31 Examining transformations using a variety of perspectives Theorizing Transition provides both a rich empirical map of the dimensions of post Communism and raises important theoretical issues about how we interpret these changes The

From Self-fulfilment to Survival of the Fittest Ewa Mazierska, 2015-01-01 Contrary to the assumption that Western and Eastern European economies and cinemas were very different from each other they actually had much in common After the Second World War both the East and the West adopted a mixed system containing elements of both socialism and capitalism and from the 1980s on the whole of Europe albeit at an uneven speed followed the neoliberal agenda This book examines how the economic systems of the East and West impacted labor by focusing on the representation of work in European cinema Using a Marxist perspective it compares the situation of workers in Western and Eastern Europe as represented in both auteurist and popular films including those of Tony Richardson Lindsay Anderson Jean Luc Godard Andrzej Wajda Dušan Makavejev Jerzy Skolimowski the Dardenne Brothers Ulrich Seidl and many others
