Radical Bourgeoisie The Ligue De L'enseignement And The Origins Of The Third Republic 1866 1885:

The Radical Bourgeoisie Katherine Auspitz, Kate Auspitz, 2002-07-04 A reassessment of the role of French Radicals as thinkers and politicians

Revolutionary Thought after the Paris Commune, 1871-1885 Julia Nicholls, 2019-07-18 The first comprehensive account of revolutionary and socialist thought after the 1871 Paris Commune France's last nineteenth century revolution

, **Origins of Liberal Dominance** Andrew Gould, 1999-09-22 Explores the rise of liberalism and the development of modern political institutions in Europe

Citizenship and Wars Dr Bertrand Taithe, Bertrand Taithe, 2003-09-02 Putting the latest theoretical thinking into empirical use the author assesses how the function of the state and its citizens changed during the Paris Commune and Franco Prussian War

The Rise of Christian Democracy in Europe Stathis N. Kalyvas, 2018-09-05 Although dominant in West European politics for more than a century Christian Democratic parties remain largely unexplored and little understood An investigation of how political identities and parties form this book considers the origins of Christian Democratic confessional parties within the political context of Western Europe Examining five countries where a successful confessional party emerged Belgium the Netherlands Austria Germany and Italy and one where it did not France Stathis N Kalyvas addresses perplexing questions raised by the Christian Democratic phenomenon How can we reconcile the religious roots of these parties with their tremendous success and resilience in secular and democratic Western Europe Why have these parties discarded their initial principles and objectives to become secular forces governing secular societies The author's answers reveal the way in which social and political actors make decisions based on self interest under conditions that constrain their choices and the information they rely on often with unintended but irrevocable consequences Kalyvas also lays a foundation for a theory of the Christian Democratic phenomenon which would specify the conditions under which confessional parties succeed and would determine the impact of such parties and the way they are formed on politics and society Drawing from political science sociology and history his analysis goes beyond Christian Democracy to address issues related to the methodology of political science the theory of party formation the political development of Europe the relationship between religion and politics the construction of collective political identities and the role of agency and contingency in politics

Under the Shadow of Defeat K. Varley, 2008-09-24 Based on extensive archival research this book is the first wide ranging analysis of how memories of the Franco Prussian War shaped French political culture and

identities Examining war remembrance as an emerging mass phenomenon in Europe it sheds new light on the relationship between memories and the emergence of new concepts of the nation **School, State, and Society** Raymond Grew, Patrick J. Harrigan, 1991 A study of elementary education in France in the 1800s **A Stranger in Paris** Allan Mitchell, 2006-01-01 In this compact and tightly argued essay the author maintains that the French Third Republic and European history during this period in general can only be understood if particular attention is paid to the special relationship that existed between France and Germany The experience of the French people was so intimately related to that of its closest neighbor that a bilateral perspective becomes unavoidable Without the unifying theme of Germany's crucial role in acting upon and within the French Republic this story would become a much more random tale of events After 1870 an autonomous national history of France is no longer possible Moral Education for a Secular Society Phyllis Stock-Morton, 1988-07-08 The current controversy over the teaching of values and the role of religion in our public schools is an important and much discussed topic Stock Morton's work represents not only a valuable historical investigation but a useful resource for the review and consideration of our present day dilemma France is the only country which has attempted to teach an official secular morality and Stock Morton's is the first study to describe and trace the development of that effort During the nineteenth century the impetus for a practical secular moral teaching arose primarily through the concern of those who sought the liberalization of French society and politics The educational dilemma faced at that time arose from the opposition of the Catholic Church to liberal government Gradually liberals and radicals reached a consensus on the necessity of teaching ethics in the schools while eliminating the presence of the clergy Their solution and its philosophical basis were anchored in the Enlightenment and the Revolution but developed in the context of nineteenth century political and philosophical change In the 1880s when the republicans were able to inaugurate universal free and secular education secular ethics became a required course for all The history of morale laïque is significant at a time when our own country is rife with controversy over the role of religion and the teaching of values in the schools Stock Morton's thoughtful study represents an important contribution to the literature for those concerned with these significant issues **The Gamin de Paris in Nineteenth-Century Visual Culture** Marilyn R. Brown, 2017-05-08 The revolutionary boy at the barricades was memorably envisioned in Eugène Delacroix's painting *Liberty Leading the People* 1830 and Victor Hugo's novel *Les Misérables* 1862 Over the course of the nineteenth century images of the Paris urchin entered the collective social imaginary as cultural and psychic sites of memory whether in avant garde or more conventional visual culture Visual and literary paradigms of the mythical gamin de Paris were born of recurring political revolutions 1830 1832 1848 1871 and of masculine bourgeois identity constructions that responded to continuing struggles over visions and fantasies of nationhood With the destabilization of traditional patriarchal family models the diminishing of the father's symbolic role and the intensification of the brotherly urchin's psychosexual relationship with the allegorical motherland what had initially been socially marginal eventually became symbolically central

in classed and gendered inventions and repeated re inventions of fraternity people and nation Within a fundamentally split conception of the people the bohemian boy insurrectionary an embodiment of freedom was transformed by ongoing discourses of power and reform of victimization and agency into a capitalist entrepreneur schoolboy colonizer and budding military defender of the fatherland A contested figure of the city became a contradictory emblem of the nation **Emile Durkheim** W. S. F. Pickering,2001 A five volume collection of scholarly journal articles and chapters from books covering the subject of Emile Durkheim s work The five volumes are thematically organized in the following sections Volume I 1 Durkheim The man himself 2 General sociology Volume II 3 Religion 4 Epistemology and the philosophy of science Volume III 5 Morality and ethics 6 Political sociology Volume IV 7 Suicide and anomie 8 Division of labour and economics 9 EducationP

Reigniting the Labor Movement Gerald Friedman,2007-10-04 Labor s democratic dilemmas Has the forward march of labor halted Labor s liberty is a social product How unions grew and why they stopped Explaining the inexplicable accounting for the madness of moments When workers win dilemmas of success The limits of social democracy did success kill the labor movement Reigniting the labor movement restoring means to ends **Knowledge is Power!** Tom Steele,2007 This study is the first extensive attempt to chart the rise and fall of popular educational movements across Europe following the 1848 revolutions to their demise at the outbreak of World War Two It examines in detail the relationships between the educational political and social aspirations of the emergent nationalist workers and women s movements and the challenge to traditional intellectuals and academic knowledge Following the emergence of the bourgeois public sphere in the early modern period popular educational movements were central to the pursuit of democratic civil societies and also fertile ground for innovatory subjects of knowledge and interdisciplinary study which have frequently reshaped the academic curriculum Radical forms flourished ranging from civic educational leagues to folk high schools workers study circles rationalist schools Volksheims and university settlements that fed the demand for high quality socially relevant and politically charged education for adults These stimulated radical social change challenging the old empires and clerical domination The study plots the cross cultural influences at work and shows why some models were more palatable than others drawing special attention to the rise of sociological positivism and anti clericalism It concludes by considering the contemporary global currents of renewal **Challenges of Equality** Jeffrey Haus,2009 Explores the relationship between Judaism state and education in France from the establishment of the Jewish Consistory in 1808 until the separation of church and state in 1905 Historians have typically characterized nineteenth century French Jewry as largely eager to assimilate or at the very least passively accommodating to assimilation with only the most traditional Jews rejecting the trappings of French culture Through the lens of Jewish primary and rabbinical education author Jeffrey Haus shows that even integrated French Jews sought to set limits on assimilation and struggled to preserve a sense of Jewish distinctiveness in France Challenges of Equality argues that Jewish leaders couched their views in terms that the government could understand and accept

portraying a Judaism consistent with the goal of cultural and political unification of the French nation At the same time their educational activities asserted the existence of distinctively Jewish cultural space Haus shows how French government officials repeatedly used political and financial pressure to advance their own vision of an integrated French Judaism In response Jewish leaders focused on the concepts of utility and equality to erect and manage the boundaries between their institutions and the state as these were key elements of governmental policy toward religious and educational establishments Haus examines these issues by comparing the financial and curricular histories of Jewish primary schools run by the Consistory and the central French rabbinical school Utilizing a variety of sources including school curricula rabbinical ordination examinations government documents and correspondence state jurisprudential decisions and the French Jewish press Challenges of Equality paints a picture of a resilient and persistent French Judaism that adapted integrated but nevertheless survived Scholars of Jewish history French history European history and the history of education will appreciate the detailed look at Jewish integration in France that Haus provides
