**Literary Journalism in the United States of America and Slovenia** Sonja Merljak Zdovc, 2008

Slovenia is acquiring some volume of literary journalism written by Slovene journalists and writers Author Sonja Merljak Zdovc suggests that more Slovene writers should prefer literary journalism because nonfiction is based on truth facts and data and appeals more to readers interested in real world stories The honest precise profound and sophisticated voice of literary journalism is becoming increasingly good for newspaper circulation as it reaches not just the mind but also the heart of the reader Thus the world of Slovene journalism should also take a rapid turn towards the stylized literary journalism seen in the United States There journalists and writers realize that through literary journalism they could perhaps end a general decline of traditional print media by restoring to readers stories that uncover the universal struggle of the human condition

**Mathematics and the Aesthetic** Nathalie Sinclair, William Higginson, 2007-12-28 A majority of the chapters in this book first saw the light of day as talks at a conference organised and held at Queen's University in Kingston Ontario Canada in April 2001 This small invitational meeting tellingly entitled Beauty and the Mathematical Beast brought together a range of academics interested in and committed to exploring connections between mathematics and aesthetics The enthusiastic response of participants at this gathering encouraged the presenters to expand upon their initial contributions

and persuaded the organisers to recruit further chapters in order to bring a greater balance to the whole The timing of this event was not arbitrary The preceding decade had seen a resurgence in serious writing dealing with deeper relations between mathematics and science and the beautiful In many ways we the editors of this volume found these contributions to the literature were revisiting and drawing on themes that had been prominent over two thousand five hundred years ago in certain writings of the Pythagoreans While not intending to offer a historical reappraisal of these ancient thinkers here we have none the less chosen to invoke this profound interweaving of the mathematical and the aesthetic to which this reputedly secretive philosophical sect was extensively attuned This book is divided into three sections comprising three chapters each each with its own short introduction discussing the particular chapters within *Makers of Modern Culture* Justin Wintle, 2002 This volume provides lively and clearly written expositions of those figures who have done most to shape our views in the period since 1914 Music cinema drama art fiction poetry and philosophy are just some of the fields covered
