Radical Equations Math Literacy And Civil Rights:

Radical Equations Robert Moses, Charles E. Cobb, 2002-06-10 The remarkable story of the Algebra Project a community based effort to develop math science literacy in disadvantaged schools as told by the program's founder Bob Moses was a hero of mine His quiet confidence helped shape the civil rights movement and he inspired generations of young people looking to make a difference Barack Obama At a time when popular solutions to the educational plight of poor children of color are imposed from the outside national standards high stakes tests charismatic individual saviors the acclaimed Algebra Project and its founder Robert Moses offer a vision of school reform based in the power of communities Begun in 1982 the Algebra Project is transforming math education in twenty five cities Founded on the belief that math science literacy is a prerequisite for full citizenship in society the Project works with entire communities parents teachers and especially students to create a culture of literacy around algebra a crucial stepping stone to college math and opportunity Telling the story of this remarkable program Robert Moses draws on lessons from the 1960s Southern voter registration he famously helped organize Everyone said sharecroppers didn't want to vote It wasn't until we got them demanding to vote that we got attention Today when kids are falling wholesale through the cracks people say they don't want to learn We have to get the kids themselves to demand what everyone says they don't want We see the Algebra Project organizing community by community Older kids serve as coaches for younger students and build a self sustained tradition of leadership Teachers use innovative techniques And we see the remarkable success stories of schools like the predominately poor Hart School in Bessemer Alabama which outscored the city's middle class flagship school in just three years Radical Equations provides a model for anyone looking for a community based solution to the problems of our disadvantaged schools

Student Activism and Civil Rights in Mississippi James P. Marshall, 2013-03-11 In the 1890s Mississippi society still drew a sharp line between its African American and white communities by creating a repressive racial system that ensured white supremacy by legally segregating black residents and removing their basic citizenship and voting rights Over the ensuing decades white residents suppressed African Americans who dared defy that system with an array of violence terror and murder In 1960 students supporting civil rights moved into Mississippi and challenged this repressive racial order by encouraging African Americans to reassert the rights guaranteed under the Fourteenth and Fifteenth Amendments to the United States Constitution The ensuing social upheaval changed the state forever In **Student Activism and Civil Rights in Mississippi** James P Marshall a former civil rights activist tells the complete story of the quest for civil rights in Mississippi Using a voluminous array of sources as well as his own memories Marshall weaves together an astonishing account of student protestors and local activists who risked their lives for equality standing between southern resistance and federal inaction Their efforts and the horrific violence inflicted on them helped push many non southerners and the federal government into action culminating in the passage of the 1964 Civil Rights Act and the 1965 Voting Rights Act measures that destroyed legalized segregation and disfranchisement Ultimately Marshall contends student activism in Mississippi helped forge a consensus by reminding the American public of its forgotten promises and by educating the nation to the fact that African Americans in the South deserved to live as free and equal citizens
