**The End of Empires and a World Remade** Martin Thomas, 2024-03-19 A capacious history of decolonization from the decline of empires to the era of globalization Empires until recently were everywhere They shaped borders stirred conflicts and set the terms of international politics With the collapse of empire came a fundamental reorganization of our world Decolonization unfolded across territories as well as within them Its struggles became internationalized and transnational as much global campaigns of moral disarmament against colonial injustice as local contests of arms In this expansive history Martin Thomas tells the story of decolonization and its intrinsic link to globalization He traces the connections between these two transformative processes the end of formal empire and the acceleration of global integration market reorganization cultural exchange and migration The End of Empires and a World Remade shows how profoundly decolonization shaped the process of globalization in the wake of empire collapse In the second half of the twentieth century decolonization catalyzed new international coalitions it triggered partitions and wars and it reshaped North South dynamics Globalization promised the decolonized greater access to essential resources to wider networks of influence and to worldwide audiences but its neoliberal variant has reinforced economic inequalities and imperial forms of political and cultural influences In surveying these two codependent histories across the world from Latin America to Asia Thomas explains why the deck was so heavily stacked against newly independent nations Decolonization stands alongside the great world wars as the most transformative event of twentieth century history In The End of Empires and a World Remade

Josephson uses the concept of sexual citizenship, a criticism of the assumption that all families have a heterosexual at their center, to show how government policies are made to punish or reward particular groups of people This analysis applies sexual citizenship not only to policies that impact LGBTQ families but also to other groups including young people affected by abstinence-only public policies and single-parent families affected by welfare policy The book also addresses the idea that the normal family in the United States is white It concludes with a discussion of how scholars and activists can help create a more inclusive democracy by challenging this narrow view of public life      Crossdressing in Context, Vol. 4: Transgender & Religion Ph. *My Country Is the World* Luke Stewart, 2023-03-07 Staughton Lynd was one of the principal intellectuals and activists making the radical argument that the U S intervention in Vietnam was illegal under domestic and international law Lynd was uncompromising in his courageous stance that the U S should immediately withdraw from Vietnam and that soldiers and draftees should refuse to participate in the war based on their individual conscience and the Nuremberg Principles of 1950 Lynd did not just write about opposing the war he was one of the chief proponents of direct action and civil disobedience to confront the war machine at the university in the halls of power and in everyday life through refusing to pay income taxes As Staughton Lynd s speeches writings statements and interviews demonstrate there were coherent and persuasive arguments against the war in Vietnam based on U S and international law precedents from American history and moral and ethical considerations based on conscientious objection to war and an internationalism embraced by American radicals which said My country is the world my countrymen are all mankind

*Working Class Culture* Centre for Contemporary Cultural Studies, 2013-10-28 First published in 2013 How can we define working class culture Since the late 1950s the term has become more complex because of both social changes and intense debates about the meaning of culture Through this collection of original case studies and theoretical essays the authors explore some central problems in the field The first part of the book provides a unique critical review of existing literature focusing on two main traditions of writing about the working class Examining the empirical sociology tradition the authors analyse a group of books from the post war debate about affluence and its immediate aftermath In looking at the related tradition of working class historiography they examine the origins of social and labour history from the 1880s up to the 1960s and conclude by discussing some of the dilemmas of history writing in the 1970s Part two is a series of case studies which span the whole period that a working class has existed with emphasis on the late nineteenth and twentieth centuries and which examine the most important spheres of working class life politics education youth recreation waged and domestic labour Part three returns to some of the problems raised in part one considering three main ways in which working class culture can be understood through the problematics of consciousness culture or ideology and examining the strengths and weaknesses of each approach The authors argue for a more fruitful and developed way of thinking about working class culture and suggest some guidelines for a history of the post

war working class      **Passion for History** Natalie Zemon Davis, Denis Crouzet, 2010-02-01 The pathbreaking work of renowned historian Natalie Zemon Davis has added profoundly to our understanding of early modern society and culture. She rescues men and women from oblivion using her unique combination of rich imagination, keen intelligence, and archival sleuthing to uncover the past. Davis brings to life a dazzling cast of extraordinary people, revealing their thoughts, emotions, and choices in the world in which they lived. Thanks to Davis, we can meet the impostor Arnaud du Tilh in her classic *The Return of Martin Guerre*, follow three remarkable lives in *Women on the Margins*, and journey alongside a traveler and scholar in *Trickster Travels* as he moves between the Muslim and Christian worlds. In these conversations with Denis Crouzet, professor of history at the Sorbonne and well-known specialist on the French Wars of Religion, Natalie Zemon Davis examines the practices of history and controversies in historical method. Their discussion reveals how Davis has always pursued the thrill and joy of discovery through historical research. Her quest is influenced by growing up Jewish in the Midwest as a descendant of emigrants from Eastern Europe. She recounts how her own life as a citizen, a woman, and a scholar compels her to ceaselessly examine and transcend received opinions and certitudes. Davis reminds the reader of the broad possibilities to be found by studying the lives of those who came before us and teaches us how to give voice to what was once silent.

**Australasian Journal of American Studies**, 1997      **A Revolt Against Liberalism** A.A.M. van der Linden, 2023-04-12 This is the first study to provide a comprehensive picture of the revolt brought about by American radical historians in the 1960s and 1970s. With the turbulent sixties as a backdrop, the work of radical luminaries like Eugene Genovese, Herbert Gutman, Staughton Lynd, William Appleman Williams, and Howard Zinn is discussed. These historians made a significant contribution to present-day notions about slavery, working class history, the New Deal, the Cold War, and a wealth of other subjects. Their main target was American liberalism. Radical criticism centered on the liberal concepts of the division of power and of the nature of man. The acrimonious debate which ensued tore the historical profession apart. Therefore, most historians have stressed the disagreements between liberals and radicals. Yet in this study, it will be argued that in some respects the radicals were part and parcel of mainstream historiography, though they presented a radical version of it.
