La Radio diffusion, puissance mondiale.... Préface de Marconi... Arno Huth, Marconi, 1937 Radio and the Politics of Sound in Interwar France, 1921-1939 Rebecca P. Scales, 2016-02-24 In December 1921 France broadcast its first public radio program from a transmitter on the Eiffel Tower In the decade that followed radio evolved into a mass media capable of reaching millions Crowds flocked to loudspeakers on city streets to listen to propaganda children clustered around classroom radios and families tuned in from their living rooms Radio and the Politics of Sound in Interwar France 1921 1939 examines the impact of this auditory culture on French society and politics revealing how broadcasting became a new platform for political engagement transforming the act of listening into an important if highly contested practice of citizenship Rejecting models of broadcasting as the weapon of totalitarian regimes or a tool for forging democracy from above the book offers a more nuanced picture of the politics of radio by uncovering competing interpretations of listening and diverse uses of broadcast sound that flourished between the world wars *Radio Bibliography* United States. the International Broadcasting Union as institutions that played an important role in national identities and establishing standards for broadcasting The radio also offered new opportunities to politicians who seized upon a vibrant and more direct way to communicate with their constituents Essential reading for scholars of technology and European history Europe On Air reveals broadcast radio to be a technology that revolutionized international relations during the brief respite between the chaos of war in Europe *Catalog of Copyright Entries.
