Encounters and Practices of Petty Trade in Northern Europe, 1820-1960 Jutta Ahlbeck, Ann-Catrin Östman, Eija Stark, 2022-06-15 This open access book uncovers one important yet forgotten form of itinerant livelihoods namely petty trade more specifically how it was practiced in Northern Europe during the period 1820-1960 It investigates how traders and customers interacted in different spaces and approaches ambulatory trade as an arena of encounters by looking at everyday social practices Petty traders often belonged to subjugated social groups like ethnic minorities and migrants whereas their customers belonged to the resident population How were these mobile traders perceived and described What goods did they peddle How did these commodities enable and shape trading encounters What kind of narratives can be found and whose These questions pertaining to daily practices on a grass root level have not been addressed in previous research Encounters and Practices embarks on hidden histories of survival vulnerability and conflict but also discloses reciprocal relations even friendships *Rag Trade* Lewis Orde, 1978 **British TV Comedies** Juergen Kamm, Birgit Neumann, 2016-01-26 This collection offers an overview of British TV comedies ranging from the beginnings of sitcoms in the 1950s to the current boom of Britcoms It provides in depth analyses of major comedies systematically addressing their generic properties filmic history humour politics and cultural impact **A Dictionary of the German and English Languages ...** George J. Productivity and Performance in the Paper Industry Gary Bryan Magee, 1997-03-27 This pioneering 1997 study examines the economic development of the British paper industry between 1860 and 1914 an era in which it is often claimed that the origins of Britain's relative economic decline are first witnessed For paper making this was also a period in which an array of important new forces including inter alia the development of new raw materials and the move to ever larger scales of production came on the scene Gary Bryan Magee looks at the effect of these changes and assesses how effectively the industry coped with the new pressures drawing upon an extensive range of quantitative and archival sources from Britain America and other countries Along the way Dr Magee addresses issues central to the understanding of industrial competitiveness such as technological change entrepreneurship productivity trade policy and industrial relations

Globaloney 2.0 Michael Veseth, 2010-01-16 Globalization is in retreat but history tells us that this is but a temporary reversal Globalization will return but in what form More cycles of boom and bust Or can globalization be rebuilt on a more feasible and sustainable platform These are the compelling questions that Michael Veseth tackles in this thoroughly revised and updated edition of his award winning book Veseth shows how pre crash visions of globalization were based on three powerful myths that global finance was a stable foundation for a global economy that global markets homogenized and

Americanized the world and that globalization itself was irresistible impossible to shape or oppose at any level from the grassroots on up The world economic crisis has revealed globalization s Achilles heel the fundamental instability of global financial markets and the unsettled foundation of economic globalization generally This realization is a necessary first step but it alone is not enough We must rethink the rest of globalization s myths Veseth persuasively argues if we want to move beyond boom and bust to a sustainable global future

Some Sort of a Life Miriam Karlin,2014-03-19 I have never ever wanted to write an autobiography The number of times I have been approached and every time I said no no it s a wank Miriam Karlin is that rare creature a pillar of the British acting establishment who is at the same time a thoroughgoing maverick During sixty distinguished workaholic years of acting she has been a West End regular and RSC company actor a pioneering performer on live television half of a radio double act with Peter Sellers a stand up comic a scene stealing character actor in such films as *The Entertainer* and *A Clockwork Orange* and of course the truculent whistle blowing shop steward Paddy in the long running TV sitcom *The Rag Trade* with her catchphrase *Everybody Out* Parallel to her career as an actor are her lifelong socialist beliefs her unerring sense of justice and her political activism Miriam s life also has been a long battle against addiction to alcohol prescription drugs gambling cigarettes and dieting she recently revealed herself in the *Observer* as the world s oldest bulimic challenges she describes in *Some Sort of a Life* with great humour and irreverence Dictated to Jan Sargent as Miriam was recovering from mouth cancer an experience she describes in a chapter typically entitled *Sans teeth sans f ckin everything* she is compellingly candid about the people in her life her family part of which perished in the holocaust her friends and the eminent figures she has worked with such as Laurence Olivier Peter Sellers Stanley Kubrick Tony Hancock and Barry Humphries Above all though she is utterly honest about herself her love affairs and abortions her battles with eating disorders and illness her gradual disillusionment with the Labour Party and the state of Israel and her own compulsive nature which accounts for many of the highs and lows of her fascinating life *Some Sort of a Life* is an autobiography refreshingly free of self justification and recrimination and full of the passion and earthy humour of one of our finest character actors

Deviant Design Craig Martin,2022-07-14 Craig Martin addresses the transgressive or deviant aspects of design design that straddles the divide between the licit and illicit the legal and illegal in a variety of ways Martin argues that design is not necessarily for the social good but that it is immersed in the social realm in all its contradictions and confusions Through a series of case studies he explores a wide range of social practices that employ illicit forms of design thinking including early computer hacking and present day hacker culture in which everyday objects are repurposed and deliberately misused the cultures of reproduction counterfeit and pirated versions of classic and luxury designs and the use of material practices by smugglers to conceal drugs within consumer goods and luggage *Deviant Design* contends that these amateur and illicit practices challenge the normative idea of the professional designer or maker Rather than being reliant on the services of institutionalized design professionals the adhocist practitioner displays forms of

innovative design knowledge in understanding how artefacts have an inherent potential to be misused or repurposed
