Hughes,2001-01-29 Henry James was fascinated by clothing and dress This book examines for the first time the role of dress in reinforcing thematic and symbolic patterns in James s fictional world Hughes traces a development from the significance of dress in discussion of the American Girl in the early works through dress as an indicator of social position to the emergence of the more unstable and threatening aspects of dress which culminate in the strange case of the coat of changing colours in *The Sense of the Past*      **Artists & Prints** Deborah Wye,Starr Figura,Museum of Modern Art (New York, N.Y.),2004 Volume covers the Collection of Prints and Illustrated Books not the collection of artists books      Making Art With Generative AI Tools Hai-Jew, Shalin,2024-04-01 In the dynamic realm of generative artificial Intelligence AI the fusion of human creativity and machine intelligence has created a vibrant ecosystem of collaborative artmaking However this transformative process brings forth a myriad of concerns ranging from ethical considerations and the need for originality to navigating the legal complexities surrounding intellectual property As more and more online communities appear around the use of AI to aid in the creation of images there arises a pressing need for a comprehensive guide that not only dissects the intricacies of artmaking with generative AI tools but also offers practical solutions to the evolving dilemmas faced by artists researchers and technologists *Making Art With Generative AI Tools* emerges as an exploration of the challenges posed by this intersection of human expression and artificial intelligence Artists engaging with generative AI find themselves grappling with issues of authenticity social toxicity and the commercial viability of their creations From avoiding stereotypical visuals to ensuring proper crediting the realm of generative AI is rife with these complexities Furthermore the blurred lines between human and machine authorship necessitate a deeper exploration of how these innovative tools impact creativity representation and the very fabric of the art world      **The Social Fabric of Fifteenth-Century Florence** Alessia Meneghin,2019-10-02 The *Arte dei rigattieri* merchants of second hand goods in Florence has never been the subject of a systematic study even in scholarship devoted to the history of trades Underpinned by a large collection of archival material this book analyzes the social life and economic activity of *rigattieri* in fifteenth century Florence It offers invaluable information on issues such as the relationship between socio political affiliations and economic interest as well as the structures of consumption and the spending power of different social groups Furthermore through the lens of the *Arte dei Rigattieri* this work examines the connection between the development of the political bureaucracy the establishment of Medicean power and contemporaneous processes of identity construction and social mobility      Performing Memory in Art

and Popular Culture Liedeke Plate, Anneke Smelik, 2013 This volume pursues a new line of research in cultural memory studies by understanding memory as a performative act in art and popular culture The authors take their cue from the observation that art and popular culture enact memory and generate processes of memory They do memory and in this doing of memory new questions about the cultural dimensions of memory arise How do art objects and artistic practices perform the past in the present What is their relationship to the archive Does the past speak in the performed past or do we speak to it To what purpose do objects recall And for whom do they recollect Here authors combine a methodological focus on memory as performance with a theoretical focus on art and popular culture as practices of remembrance The essays in the book thus analyze what is at stake in the complex processes of remembering and forgetting of recollecting and disremembering of amnesia and anamnesis that make up cultural memory

Literature, Science, and Art Robert Walsh,John Jay Smith,1840 The Legends of the Modern Didier Maleuvre,2019-11-28 What made art modern What is modern art The Legends of the Modern demystifies the ideas and legends that have shaped our appreciation of modern art and literature Beginning with an examination of the early modern artists Shakespeare Michelangelo and Cervantes Didier Maleuvre demonstrates how many of the foundational works of modern culture were born not from the legendry of expressive freedom originality creativity subversion or spiritual profundity but out of unease with these ideas This ambivalence toward the modern has lain at the heart of artistic modernity from the late Renaissance onward and the arts have since then shown both exhilaration and disappointment with their own creative power The Legends of the Modern lays bare the many contradictions that pull at the fabric of modernity and demonstrates that modern art s dissatisfaction with modernity is in fact a vital facet of this cultural period Industrial Art Text-books Bonnie E.
