Rollins, 2004-03-24 American history has always been an irresistible source of inspiration for filmmakers and today for good or ill most Americans sense of the past likely comes more from Hollywood than from the works of historians In important films such as *The Birth of a Nation* 1915 *Roots* 1977 *Apocalypse Now* 1979 and *Saving Private Ryan* 1998 how much is entertainment and how much is rooted in historical fact In *The Columbia Companion to American History on Film* more than seventy scholars consider the gap between history and Hollywood They examine how filmmakers have presented and interpreted the most important events topics eras and figures in the American past often comparing the film versions of events with the interpretations of the best historians who have explored the topic Divided into eight broad categories Eras Wars and Other Major Events Notable People Groups Institutions and Movements Places Themes and Topics and Myths and Heroes the volume features extensive cross references a filmography of discussed and relevant films notes and a

History and Film Maarten Pereboom, 2016-09-13 The ability to view recorded moving pictures has had a major impact on human culture since the development of the necessary technologies over a century ago For most of this time people have gone to the movies to be entertained and perhaps edified but in the meantime television the videocassette recorder VCR the digital versatile disk DVD player the personal computer desktop and laptop the internet and other technologies have made watching moving pictures possible at home in the classroom and just about anywhere else Today moving images are everywhere in our culture Every day moving picture cameras record millions of hours of activity human and otherwise all over the world your cell phone makes a little video of your friends at a party the surveillance camera at the bank keeps an eye on customers journalists shoulder carried cameras record the latest from the war zone and across the world film artists work on all kinds of movies from low budget independent projects to the next big budget Hollywood blockbuster Moving pictures have had a great influence on human culture and this book focuses on using moving images as historical evidence Studying history means examining evidence from the past to understand interpret and present what has happened in different times and places We talk and write about what we have learned hoping to establish credibility both for what we have determined to be the facts and for whatever meaning or significance we may attach to our reconstruction of the past Studying history is a scientific process involving a fairly set methodology We tend to favor written sources and we have tended to favor writing as a means of presenting our views of the past But historians also use all kinds of other documents and artifacts in their work of interpreting the past including moving pictures **Film Genre 2000** Wheeler W.

Dixon, 2000-02-24 New essays by prominent film scholars address recent developments in American genre filmmaking

The "Inscrutably Chinese" Church Nathan Faries, 2010-09-23 The first half of the twenty first century promises to be a time of great change for the Christian church in the People's Republic of China The situation is complex and fluid and the information gap between those on the inside and those outside of China is still significant though shrinking The Inscrutably Chinese Church moves readers nearer to the Chinese Christian experience as Nathan Faries helps foreign readers to see with greater clarity just how Chinese Christians view their government and themselves in relation to those ruling powers There still exists a measure of inscrutability about China and its complex relationship with religion that must be explained to

the outsider It is this gap in understanding between insider points of view within China and those outsiders seeking knowledge about the Christian faith in China that Faries seeks to close
