Region In Turmoil South Asian Conflicts Since 1947:

A Region in Turmoil Robert Johnson, 2006 Since 2001 there has been considerable interest in the individual conflicts that have engulfed the states of South Asia from the long insurgency of Myanmar through the struggle of the Tamil Tigers in Sri Lanka the Maoist insurgency in Nepal the unrest in the Punjab and Assam the Bangladeshi war of independence the gruelling conflict in Kashmir to the intractable conflicts of Afghanistan and the current War on Terror In A Region in Turmoil South Asian Conflicts since 1947 Rob Johnson explains and evaluates the historic and political roots of conflicts in South Asia in a systematic and thematic way South Asian region as a whole and they are rarely examined in the regional or global context The failure to take a regional perspective in the past has meant that important connections have not always been understood in the West and the view from South Asia has perhaps not been fully explored The author addresses this gap illustrating the causes developments context and conclusions or absence of them of conflicts in the South Asian region India and Pakistan are both nuclear powers who have resorted to war with each other on a number of occasions since independence In addition the insurgencies of the last fifty years continue to destabilize the states of the region and now the rest of the world The global context of these campaigns are analyzed from the end of empire through the Cold War to the global effort against terrorism today Highly topical this book will be of interest not only to students and scholars but to a wide general audience as well

A Region in Turmoil Rob Johnson, 2005-09-15 South Asia has been the setting for some of the century's most violent invasions the Western world's bloodiest defeats and a volatile geopolitical brew of religions ethnicities and nationalism that sends unsettling ripples through the global balance of power even today Rob Johnson writes here the engrossing history of the individual conflicts that have engulfed the states of South Asia during the last half century A Region in Turmoil offers a new perspective on the area drawing together the conflicts of South Asia and examining them in local and global contexts from the end of the Western colonial empires through today's global efforts to combat terrorism Johnson's incisive analysis breaks down the historical and political roots of the conflicts and departs from traditional Western-centric paradigms to reveal heretofore overlooked South Asian viewpoints on the conflicts and connections among the wars He probes the causes contexts and conclusions of the conflicts ranging from the enduring insurgency in Myanmar to the struggle of the Tamil Tigers in Sri Lanka the unrest in the Punjab and Assam states the Bangladeshi war of independence and the intractable struggles in Kashmir and Afghanistan The twenty-first century opened with South Asia front and center on a turbulent political stage the region is not only the designated frontline for the war on terror but also home to the newest nuclear powers India and Pakistan A Region in Turmoil addresses this critical contemporary crisis with an invaluable analysis of the region and its complex history making it essential reading for historians policymakers and anyone who reads the front page of the daily newspaper *Global security* Great Britain: Parliament: House of Commons: Foreign Affairs Committee, 2009-08-02 This report into the global security concerns related to Afghanistan and Pakistan recommends that

the UK Government should re focus its wide ranging objectives in Afghanistan and concentrate its limited resources on one priority security The UK has experienced mission creep from its initial goal of countering international terrorism into the realms of counter insurgency counter narcotics protection of human rights and state building The Committee recommends that the lead international role on counter narcotics should be transferred away from the UK The Committee recognises that the security situation in Afghanistan will remain precarious for some time to come but there can be no question of the international community abandoning Afghanistan The issue at stake must be how best the UK and its allies can allocate responsibilities and share burdens so as to ensure that the country does not once again fall into the hands of those who seek to threaten the security of the UK and the West The Committee says that a negotiated Afghan led political settlement with broad popular support represents the only realistic option for long term security and stability in Afghanistan There can be no serious prospect of meaningful discussions until Coalition Forces and the Afghan national security forces gain and retain the upper hand on security across the country including in Helmand and are then able to negotiate from a position of strength The international effort by the UN EU and individual countries in Afghanistan since 2001 has delivered much less than it promised and its impact has been significantly diluted by the absence of a unified vision and strategy grounded in the realities of Afghanistan s history culture and politics

Oil, Islam, and Conflict Robert Johnson,2007-10-15 The author looks at the policies of the Central Asian governments that includes their attitudes to democratic reform human rights energy and economic development and how these are related to civil violence

Regionalism and Regional Security in South Asia Zahid Shahab Ahmed,2016-04-08 Zahid Shahab Ahmed evaluates the progress of the South Asian Association for Regional Cooperation SAARC This study goes beyond economic integration to present a detailed appraisal of cooperation under the overarching themes of economic cooperation environmental security human welfare and cooperation in security matters According to the author SAARC is making progress in addressing the myriad of issues on its agenda The transition from agreements to actions and frequent interactions among the member states has boosted confidence The progress of SAARC is more evident in the less controversial areas of human security such as poverty alleviation health and safety human resources development and higher education Notwithstanding enthusiastic commitments reflected in agreements and action plans there is a gulf between rhetoric and implementation most notably in sensitive areas relating to traditional security In the light of the findings of this study the author proposes that greater cooperation in common human security areas has a potential to pave the way for a cooperation on issues of a contentious nature particularly terrorism

The Afghan Way of War Robert Johnson,2011-12-29 Through the reconstruction of episodes of Afghanistan s military history this book seeks to reevaluate the Afghan Way of War showing that despite the stereotypes of guerrilla warriors imbued with religious fanaticism Afghans have constantly adapted to new threats Indeed the Afghan way of war has been one of constant change

Museums, Heritage and International Development Paul Basu,Wayne Modest,2014-10-03 While many claims are

made regarding the power of cultural heritage as a driver and enabler of sustainable development the relationship between museums heritage and development has received little academic scrutiny This book stages a critical conversation between the interdisciplinary fields of museum studies heritage studies and development studies to explore this under researched sphere of development intervention In an agenda setting introduction the editors explore the seemingly oppositional temporalities and values represented by these past making and future making projects arguing that these provide a framework for mutual critique Contributors to the volume bring insights from a wide range of academic and practitioner perspectives on a series of international case studies which each raise challenging questions that reach beyond merely cultural concerns and fully engage with both the legacies of colonial power inequalities and the shifting geopolitical dynamics of contemporary international relations Cultural heritage embodies different values and can be instrumentalized to serve different economic social and political objectives within development contexts but the past is also intrinsic to the present and is foundational to people s aspirations for the future Museums Heritage and International Development explores the problematics as well as potentials the politics as well as possibilities in this fascinating nexus

Blouet, 2007-04-16 When Americans seek an escape from the worries and dilemmas of everyday life the crystal blue waters and white sands of the Caribbean islands seem like the answer to a prayer Yet this image of a tourist s paradise hides a tumultuous history marked by strife and division over race political power and economic inequality Olwyn Blouet explores the story of the Caribbean over the last 50 years revealing it to be a region positioned at the heart of some of the most prominent geopolitical issues of modern times Navigating a rich m lange of cultures and histories Blouet unearths a complex narrative that is frequently overlooked in histories of the Americas In stark contrast to widely read guidebooks this chronicle unflinchingly probes two strikingly different worlds in the Caribbean islands those of the haves and the have nots created by the volatile mixture of colonial politics racial segregation and economic upheaval The strategic political relations between Caribbean nations Cuba in particular and the world powers during the Cold War the economic transformations instigated by tourism and the modernizing efforts of Caribbean nations in order to meet the demands of a globalizing twenty first century market are among the numerous issues explored by Blouet in her efforts to redress the historical record s imbalance The Contemporary Caribbean also explores the proud histories of the region s many nations in sports such as cricket and baseball as well as their famed cuisines and the uneasy balance today between local traditions and the vestiges of colonial influence
