Governance of Europe's City Regions Tassilo Herrschel, Peter Newman, 2003-08-27 Governance of Europe's City Regions considers the changing role of the European Union in regional issues explores how national governments have become increasingly involved at the regional scale and examines the constitutional and political contexts in which regional and local governments operate Detailed case studies of regionals in Germany and England illustrate contrasts in European approaches to the scale of government and the complex interactions of international national regional and local scales of policy intervention The book offers a unique perspective which links together an analysis of both regional Europe and the local economic and political factors that shape successful regions

The Regional and Urban Policy of the European Union Philip McCann, 2015-01-30 The regional and urban development policy of the European Union or more precisely EU Cohesion Policy is undergoing change This development is driven by the enormous transformations in European regions and by shifts in thinking and analysis The iss

Cohesion Policy in the European Union Dan Marek, Michael Baun, 2014-11-20 This new text introduces the history evolution and contemporary state of one of the European Union's most important expensive and controversial policies It examines the role that cohesion policy plays in European integration as well as in economic development across regions and analyzes the key debates and issues at stake

The Europeanization of Turkish Public Policies Aylin Güney, Ali Tekin, 2015-09-16 Turkey's candidacy for membership of the European Union has had mixed effects on its public policies The initial degree of cohesion between EU and Turkish national policies practices and institutions has varied by the policy field in question leading to a complex amalgam of fit and misfit between the two actors Their interaction in different policy areas has had direct influence both on Turkey's accession to the EU and its own national reform process With accession negotiations stalled and Turkey's relationship with the EU increasingly tenuous it is vital to take stock of the extent to which Turkey and the EU are aligned in key policy areas The Europeanization of Turkish Public Policies A Scorecard is the first comprehensive work focusing on the impact of the EU accession process upon Turkey's public policies between 1999 and 2014 Complementing the authors earlier volume Europeanization of Turkey Polity and Politics it brings together leading specialists to provide key analyses of the impact of Europeanization on specific areas of Turkey's public policy Each chapter applies a core analytical framework to examine a separate policy field resulting in a

consistent and comprehensive volume on Turkey EU relations With its focused structure and extensive coverage concluding with a scorecard enabling informed assessment of the impact of Europeanization on Turkey s public policy areas this book provides a one stop resource for scholars and students alike A timely and informed assessment of the dynamics and outcome of the Europeanization of an EU candidate country s major public policy areas this book represents an essential resource for those interested in EU Turkey relations the effects of Europeanization on Turkey and Turkish politics *Transport Projects, Programmes and Policies* John Nellthorp, Peter Mackie, 2017-11-30 This title was first published in 2003 The European Union is constantly struggling to find effective ways to plan major transport infrastructure developments at a European level This is a critical factor in the emerging debates surrounding the absorption of the accession states into the EU but it is essential for these states that their economic competitiveness is supported by appropriate and effective transport infrastructure It is therefore crucial to find innovative approaches to the infrastructure itself how it is financed and the ways in which proper evaluation procedures are implemented to select which policies programmes and projects should be supported This informative volume brings together leading international specialists in economic evaluation applied within the transport sector Their contributions encompass all the main levels at which transport planning is typically conceptualized strategic regional policy programme and project planning It therefore examines how coherent economic evaluation practice can be developed and applied not only across different physical scales but also across national borders Reviewing European Union Accession Tom Hashimoto, Michael Rhimes, 2017-09-25 The year 2017 has been an uneasy one for the EU with so called Brexit on the horizon and the rise of populist euroskepticism in a number of Member States This year with the tenth anniversary of the Romanian and Bulgarian accession to the Union is a good year to pause and reflect over the life and future of the Union In this work we envision the next decade with Europe 2020 strategy and review the fruits of the 2004 accession in Central and Eastern Europe What has the Union achieved Which policy areas are likely to change and how How successful and by what measure has the accession of the 10 Member States in 2004 been *Reviewing European Union Accession* addresses a wide range of issues deliberately without any thematic constraints in order to explore EU enlargement from a variety of perspectives both scientific and geographical internal and external In contrast to the major works in this field we highlight the interrelated and often unexpected nature of the integration process hence the subtitle unexpected results spillover effects and externalities Fiscal Federalism and European Economic Integration Mark Baimbridge, Philip Whyman, 2005-06-28 The pace of economic integration amongst European Union EU member states has accelerated considerably during the past decade highlighted by the process of Economic and Monetary Union EMU Many aspects of the EU s apparatus however have failed to evolve in order to meet these new challenges This book explores the issue of fiscal federalism within the context of EU integration from theoretical historical policy and global perspectives It contrasts the pace of integration amongst EU member states with the failure of financial and administrative apparatus to evolve to encompass

fiscal federalism i.e. the development of a centralised budgetary system. This impressive collection with contributions from a range of internationally respected authors shall interest students and researchers involved with European economics and economic integration. Its accessible style will also make it extremely useful to policy makers and professionals for whom European economic integration is a daily topic of conversation. **Environment and Planning.
