Imperatives for Action Ambassador Rajiv Bhatia, Mr Swaran Singh, Ms Reena Marwah, 2013-11-15 Right from the Himalayan hermit kingdoms of Nepal and Bhutan to the island and archipelago countries of Sri Lanka and the Maldives the sheer variety of South Asia not only in geographic terms but also in terms of culture language and tradition is unparalleled A wide array of religious beliefs existing in the region alongside distinctive mind sets tend to differentiate the countries that make up South Asia The divisions however of the region among countries are not the same as the divisions among cultures religions This book titled Transforming South Asia Imperatives for Action is the outcome of serious deliberations among well known scholars diplomats and policymakers at the Third Conference of the Asian Relations Conference Series organized by Indian Council of World Affairs in collaboration with Association of Asia Scholars in March 2012 Papers presented in the conference were thoroughly revised before publication and editors acknowledge with gratitude these insightful contributions Most contributors to this volume believe in the pertinence of regional integration amongst various South Asian nations Specifically the volume sheds considerable light on the issue of regionalization and co operation as tools to achieve the much longed for transformation in South Asia Experts do not shy away from examining issues of conflict and how border disputes have often marred the positive spirit of regionalization as also other mechanisms of SAARC in its day to day functioning Therefore an effort to present the complex reality objectively is visible Contributors also underscore India s role in regionalization of South Asia as being far more pragmatic since it has strengthened local synergies especially at the level of their civil societies

South Asia Trade and Energy Security Narottam P. Banskota, 2012 Today policy makers in both developed and developing countries are pursuing regionalization as a means to achieve easier market access economies of scale and welfare gains South Asia Trade and Energy Security explains how regional economic cooperation in trade and energy security could

help facilitate the economic transformation of the region reducing poverty and expanding production. Currently intra regional trade in South Asia is constrained by tariff and non tariff barriers. A fully functional free trade area as envisaged in the South Asian Free Trade Area agreement has yet to be realized. This book explains the current patterns and limitations of energy trade between countries in South Asia and how the growing demand for energy could be met by working closely with energy rich Iran, Burma and Central Asian countries. Cross border cooperation between India and China, Chinese investment in Tibet and Xinjiang and water relations are also discussed. Policymakers, geopolitical strategists and academics working in Asian Studies will appreciate this detailed analysis of how globalization and regional cooperation in trade and energy are playing a transformative role in South Asia's economic development. *Regional Cooperation in South Asia and Southeast Asia* Kripa Sridharan, 2007. Provides a comparative sketch of regional cooperation in South and Southeast Asia in the light of various political, economic and social developments in the two regions. *The Challenge of Confidence-building Measures in South Asia* Moonis Ahmar, 2001. This book is a most timely and welcome addition to the growing body of literature on CBMs in South Asia. It provides reasons for hope as there are many reasons to be dispirited about the absence of proper confidence building measures in South Asia. **Paramilitary Forces of India** M. D. Sharma, M.C. Sharma, 2008. In today's situation the security and safety of our countrymen is not only in the hands of Indian army and state police but also forces known as Paramilitary Forces. The security of Indian borders and internal matters are being looked after by these brave men working in these Paramilitary Forces including their history, origin, organization, duties and functions, role and future. It also examines the role of these forces in counter insurgency and also international peacekeeping under UN. Covering all paramilitary organizations of India, this volume provides valuable information to students, researchers and laymen. An excellent book which will serve as a sound and lively introduction for all and also will make an impressive and substantial contribution to the study of Paramilitary Forces of India. *Regionalism and Regional Security in South Asia* Zahid Shahab Ahmed, 2016-04-08. Zahid Shahab Ahmed evaluates the progress of the South Asian Association for Regional Cooperation (SAARC). This study goes beyond economic integration to present a detailed appraisal of cooperation under the overarching themes of economic cooperation, environmental security, human welfare and cooperation in security matters. According to the author, SAARC is making progress in addressing the myriad of issues on its agenda. The transition from agreements to actions and frequent interactions among the member states has boosted confidence. The progress of SAARC is more evident in the less controversial areas of human security such as poverty alleviation, health and safety, human resources development and higher education. Notwithstanding enthusiastic commitments reflected in agreements and action plans, there is a gulf between rhetoric and implementation, most notably in sensitive areas relating to traditional security. In the light of the findings of this study, the author proposes that greater cooperation in common human security areas has a potential to pave the way for a cooperation on issues of a contentious nature, particularly terrorism.
