Regional Excellence Governing Together To Compete Globally And Flourish Locally:

Regional Excellence William R. Dodge, 1996 Governance and Opportunity in Metropolitan America Committee on Improving the Future of U.S. Cities Through Improved Metropolitan Area Governance, Commission on Behavioral and Social Sciences and Education, Division of Behavioral and Social Sciences and Education, National Research Council, 1999-09-24

America's cities have symbolized the nation's prosperity dynamism and innovation Even with the trend toward suburbanization many central cities attract substantial new investment and employment Within this profile of health however many urban areas are beset by problems of economic disparity physical deterioration and social distress This volume addresses the condition of the city from the perspective of the larger metropolitan region It offers important thought provoking perspectives on the structure of metropolitan level decisionmaking the disadvantages faced by cities and city residents and expanding economic opportunity to all residents in a metropolitan area The book provides data real world examples and analyses in key areas Distribution of metropolitan populations and what this means for city dwellers suburbanites whites and minorities How quality of life depends on the spatial structure of a community and how problems are based on inequalities in spatial opportunity with a focus on the relationship between taxes and services The role of the central city today the rationale for revitalizing central cities and city suburban interdependence The book includes papers that provide in depth examinations of zoning policy in relation to patterns of suburban development regionalism in transportation and air quality the geography of economic and social opportunity social stratification in metropolitan areas and fiscal and service disparities within metropolitan areas *Kentucky Government, Politics, and Public Policy* James C. Clinger, Michael W. Hail, 2013-10-08 The cornerstone of the American republic is an educated active and engaged citizenry however the multifaceted inner workings of government and the political forces that shape it are incredibly complex *Kentucky Government Politics and Public Policy* is the first book in nearly three decades to provide a comprehensive overview of the commonwealth's major governing and political institutions and the public policy issues that profoundly affect Kentuckians daily lives In this groundbreaking volume editors James C Clinger and Michael W Hail have assembled respected scholars from across the state to inform citizens about their governing institutions the consequences of their policy choices and the intricacies of the political process They provide clear and authoritative information on Kentucky's government and explain significant trends and patterns exploring the legacy of the state's political history and illuminating the contributions of influential Kentucky politicians such as Henry Clay Abraham Lincoln and Jefferson Davis The contributors also address essential topics such as the structure and function of the three branches of government the constitution and federalism and intergovernmental relations as well as administration budgeting and finance They analyze key issues in education policy economic and community development and health care in great detail explaining persistently controversial topics such as campaign finance the cost of elections ethics and the oversight of regulatory agencies From the executive branch to the

legislature from the court system to political parties there is no better primer on government in the commonwealth

Governing Metropolitan Areas David K. Hamilton, 2014-04-24 Interest and research on regionalism has soared in the last decade Local governments in metropolitan areas and civic organizations are increasingly engaged in cooperative and collaborative public policy efforts to solve problems that stretch across urban centers and their surrounding suburbs Yet there remains scant attention in textbooks to the issues that arise in trying to address metropolitan governance *Governing Metropolitan Areas* describes and analyzes structure to understand the how and why of regionalism in our global age The book covers governmental institutions and their evolution to governance but with a continual focus on institutions David Hamilton provides the necessary comprehensive in depth description and analysis of how metropolitan areas and governments within metropolitan areas developed efforts to restructure and combine local governments and governance within the polycentric urban region This second edition is a major revision to update the scholarship and current thinking on regional governance While the text still provides background on the historical development and growth of urban areas and governments efforts to accommodate the growth of metropolitan areas this edition also focuses on current efforts to provide governance through cooperative and collaborative solutions There is also now extended treatment of how regional governance outside the United States has evolved and how other countries are approaching regional governance

Regional Government Innovations Roger L. Kemp, 2003 Provides an overview of regional government discusses twenty five examples of initiatives promoting regional government and explores the evolving role of regional government agencies

The Social Impacts of Urban Containment Arthur C. Nelson, Casey J. Dawkins, 2016-02-24 One of the policies that has been most widely used to try to limit urban sprawl has been that of urban containment These policies are planning controls limiting the growth of cities in an attempt to preserve open rural uses such as habitat agriculture and forestry in urban regions While there has been a substantial amount of research into these urban containment policies most have focused on issues of land use consumption transportation impacts or economic development issues This book examines the effects of urban containment policies on key social issues such as housing wealth building and creation racial segregation and gentrification It argues that while the policies make important contributions to environmental sustainability they also affect affordability for all the economic groups of citizens aside from the most wealthy However it also puts forward suggestions for revising such policies to counter these possible negative social impacts As such it will be valuable reading for scholars of environmental planning social policy and regional development as well as for policy makers

The Profession of City Planning Lloyd Rodwin, 2017-09-29 In thirty four provocative and insightful chapters the nation's leading planners present a definitive assessment of fifty years of city planning and establish a benchmark for the profession for the next fifty years The book appraises what planners do and how well they do it how and why their current activities differ from past practices and how much and in what ways planners have or have not enhanced the quality of urban life and contributed to

the intellectual capital of the field How have the goals values and practices of planners changed What do planners say about their roles and the problems they confront What is the relevance of their skills from design capabilities and environmental savvy to intermediate and long term perspectives and the pragmatics of implementation The contributors seeking to answer these questions include Anthony Downs Nathan Glazer Philip B Herr Judith E Innes Terry S Szold Lawrence J Vale and Sam Bass Warner Jr The Profession of City Planning contrasts with the main changes in the US over the second half of the twentieth century in city planning Sector images of the practice and effects of planning on housing transportation and the environment as well as the development of economic tools are also discussed **Measuring the Effectiveness of**

Regional Governing Systems David K. Hamilton, 2012-10-23 Regional governance is a topical public policy issue and is receiving increased attention from scholars government officials and civic leaders As countries continue to urbanize and centralize economic functions and population in metropolitan regions the traditional governing system is not equipped to handle policy issues that spill over local government boundaries Governments have utilized four basic approaches to address the regional governing problem consolidating governments adding a regional tier creating regional special districts and functional cooperative approaches The first two are structural approaches that require major radical changes to the governing system The latter two are governance approaches that contemplate marginal changes to the existing governance structure and rely generally on cooperation with other governments and collaboration with the nongovernmental sector Canada and the United States have experimented with these basic forms of regional governance This book is a systematic analysis of these basic forms as they have been experienced by North American cities Utilizing cases from Canada and the United States the book provides an in depth analysis of the pros and cons of each approach to regional governance This research provides an additional perspective on Canadian and U S regional governance and adds to the knowledge of Canadian and United States governing systems This study contributes to the literature on the various approaches to regional governance as well as bringing together the most current literature on regional governance The author develops a framework of the values that a regional governing system should provide and measures to assess how well each basic approach achieves these values Based on this assessment he suggests an approach to regional governance for North American metropolitan areas that best achieves these values *The Federal Nation* I. Morgan, P. Davies, 2008-12-08 This

volume gathers contributors from both the US and UK to provide a comparative examination of federalism in the Bush era a period of huge change in national politics but also one of significant shifts in US federalism in relation to social and socioeconomic issues Steps to Local Government Reform Allyn O. Lockner, 2013-03-29 Does the performance of your local government leave something to be desired Maybe you're not satisfied with the services your government provides or maybe the cost for these services is far too much If so take heart you can do something about it Steps to Local Government Reform is your step by step guide to undertaking reform on the local level Public manager Allyn O Lockner combines years of

experience in the public sector to show how you as a resident or an elected local official can work with others to successfully implement change within your community Lockner explains how to make numerous choices regarding the preparation for and the study planning marketing approval implementation and evaluation of reforms He also shows you how to share these reform results with others Using various criteria comparisons practices analyses and other studies aimed at local government performance Lockner delves into the sometimes tricky world of enacting reform He reveals how local government works and provides a map for maneuvering around bureaucratic roadblocks In addition he includes a comprehensive bibliography for research an appendix of terms commonly used in the reform process and guides to creating reform models that are likely to work With this compendium you can help resolve vital issues improve your community and live a better life

Unveiling the Power of Verbal Art: An Emotional Sojourn through **Regional Excellence Governing Together To Compete Globally And Flourish Locally**
