Regional Integration And Global Free Trade:

Regional Integration and Global Free Trade Mark S. LeClair, 1997 Recent trade initiatives suggest that there is renewed interest in forming tariff free regional trading zones Running concurrent with this move toward regional integration is the multilateral process of global trade liberalization This text looks at the two issues Chapter one examines the inherent conflict between the two main approaches to reducing barriers to trade economic integration and multilateralism Chapter two provides a theoretical framework for evaluating the relative accomplishments of both regional trading blocs and multilateral free trade Chapter three utilizes a number of theoretical constructs to evaluate the effects of regional trading arrangements and discusses the trade history of the European Union Chapter four provides an analysis of the trade effects of tariff reductions achieved under the GATT system and chapter five provides recommendations for ensuring continued progress in multilateral tariff reductions under the banner of the World Trade Organization

South American Free Trade Area or Free Trade Area of the Americas? Mario Carranza, 2017-11-22 This title was first published in 2000 This work examines the hemispheric diplomacy after the Summits of the America in Miami December 1994 and Santiago April 1998 focusing on the strengthening of the South American position in the FTAA negotiations and the Brazilian proposal for a South American Free Trade Area SAFTA The book also looks at the implications of the preceding analysis for regional integration theory and international relations theory The conclusion looks beyond open regionalism and considers three scenarios for US South American relations after the Santiago Summit First reassertion of US hegemony and signing of an FTAA agreement on schedule second erosion of US hegemony but continuing negotiations between North and South America for a distant FTAA and finally breakdown of the FTAA negotiations and emergence of SAFTA as an alternative to the FTAA

Regional Integration and the Global Trading System Kym Anderson, Richard Blackhurst, 1993 Discusses questions surrounding the relationship between regional integration agreements and the global trading system It has been revised following a conference at the GATT and forms part of the background material for a study in the GATT Secretariat's annual report International Trade

Emerging Global Trade Governance Lurong Chen, Shujiro Urata, Junji Nakagawa, Masahito Ambashi, 2018-12-07 Mega free trade agreements FTAs are being formed to fill the gap created by new developments in global governance and are reshaping the world economic order The Trans Pacific Partnership TPP agreement is one of such 21st century FTAs This book highlights three trade related issues covered by the TPP that greatly concern emerging countries investment intellectual property rights IPR and state owned enterprises SOEs It contains rigorous economic legal and political analyses on the final text of the agreement combined with country specific policy discussions focusing on Indonesia the Philippines Thailand and Viet Nam giving readers insights on the establishment of global rules and regulations for 21st century trade The book also outlines the requirements for emerging Asian countries to better formulate trade policies in the new era of international trade and promote regional integration in ASEAN and East Asia

Economic

Integration and Development Mordechai Elihu Kreinin, Michael G. Plummer, 2003-01-01 The intriguing and provocative results on the effects of the single European market and NAFTA make this short book worth a read even if one is concerned only with how developing countries have been affected by regional trade agreements that do not include them Peter J Montiel Journal of Regional Science This book is an excellent attempt to pin down the effects of regional economic integration on developing countries it will prove to be a good guide for researchers and students of development economics working in the area of regional trading arrangements and policymakers and governments which are in the process of exploring the possibilities of forming free trade areas Pravakar Sahoo Development Policy Review Students interested in either the methodological issues inherent in research on trade or on the economics of trading blocs in general would profit from the book James J Hentz The European Journal of Development Research Questions related to the economics of regionalism became increasingly important beginning in the late 1980s when regional groupings started to become very popular as a tool of commercial policy The goal of this book is to address the question of whether or not regionalism in developed countries has truly benefited developing countries and to what degree regionalism among developing countries and between developed and developing countries will improve economic development prospects Mordechai Kreinin and Michael Plummer consider the implications of the emerging global trend of economic regionalism for developing countries The analysis focuses on the trade and investment effects of integration in developed countries on developing countries as well as the ramifications of regional integration in the latter After an extensive review of the theoretical and empirical literature pertinent to the economics of regionalism the book considers the ex post trade and direct foreign investment effects of the Single Market Program in Europe and NAFTA followed by chapters on ASEAN and economic integration in Latin America primarily MERCOSUR The study suggests three salient conclusions First in designing preferential trading arrangements developed countries should recognize and attempt to minimize the possible discriminating effect on developing countries Second the developing countries have an abiding interest in the success of WTO negotiations that would minimize the discrimination against them of regional groupings in Europe and North America And third any customs unions or free trade areas among the developing countries themselves should be outward looking if they are to enhance the welfare of developing countries Economists and policy scholars as well as readers interested in regionalism and economic development will find this book a great resource
