Regional Orders At Centurys Dawn:

Global Rogues and Regional Orders Il Hyun Cho, 2016 *Global Rogues and Regional Orders* examines the relationship between nuclear proliferation and regional order in East Asia and the Middle East looking at what factors shape the perceptions and responses of relevant regional actors to North Korea and Iran why some of these regional actors cooperate with the United States while others do not and the consequences of shifting relations among these countries *China's Challenges and International Order Transition* Huiyun Feng, Kai He, 2020-01-30 *China's Challenges and International Order Transition* introduces an integrated conceptual framework of international order categorized by three levels power rules and norms and three issue areas security political and economic Each contributor engages one or more of these analytical dimensions to examine two questions 1 Has China already challenged this dimension of international order 2 How will China challenge this dimension of international order in the future The contested views and perspectives in this volume suggest it is too simple to assume an inevitable conflict between China and the outside world With different strategies to challenge or reform the many dimensions of international order China's role is not a one way street It is an interactive process in which the world may change China as much as China may change the world The aim of the book is to broaden the debate beyond the Thucydides Trap perspective currently popular in the West Rather than offering a single argument this volume offers a platform for scholars especially Chinese scholars vs Western scholars to exchange and debate their different views and perspectives on China and the potential transition of international order *South Africa and the Logic of Regional Cooperation* James J. Hentz, 2005 Examines South Africa's role in regional political economy since its transition to democracy

Powerplay Victor D. Cha, 2018-04-24 A close look at the evolution of American political alliances in Asia and their future While the American alliance system in Asia has been fundamental to the region's security and prosperity for seven decades today it encounters challenges from the growth of China based regional organizations How was the American alliance system originally established in Asia and is it currently under threat How are competing security designs being influenced by the United States and China In *Powerplay* Victor Cha draws from theories about alliances unipolarity and regime complexity to examine the evolution of the U S alliance system and the reasons for its continued importance in Asia and the world Cha delves into the fears motivations and aspirations of the Truman and Eisenhower presidencies as they contemplated alliances with the Republic of China Republic of Korea and Japan at the outset of the Cold War Their choice of a bilateral hub and spokes security design for Asia was entirely different from the system created in Europe but it was essential for its time Cha argues that the alliance system's innovations in the twenty first century contribute to its resiliency in the face of China's increasing prominence and that the task for the world is not to choose between American and Chinese institutions but to maximize stability and economic progress amid Asia's increasingly complex political landscape Exploring U S bilateral relations in Asia after World War II *Powerplay* takes an original look at how global alliances are achieved and maintained

The United States and Northeast Asia G. John Ikenberry, Chung-in Moon, 2007-12-24 Since World War II the United States has played a crucial role in shaping Northeast Asian politics and economics However as this authoritative book shows the Cold War's demise September 11 and America's major strategic realignments have unleashed seismic changes in the region China's rise Japan's quest for a normal state and the North Korean nuclear quagmire are also potential flashpoints Collective memories of past aggression as well as resurgent nationalism further complicate regional dynamics But hopeful signs abound as deepening economic interdependence expanding social and cultural exchanges and the proliferation of informal economic social and cultural networks have improved the chances for a peaceful evolution to a liberal and stable region Contributions by Vinod K Aggarwal Paul Bacon Avery Goldstein G John Ikenberry Takashi Inoguchi Ki Jung Kim Myongsob Kim Woosang Kim Yongho Kim Min Gyo Koo Michael Mastanduno Chung in Moon Katharine H S Moon Seung won Suh and William C Wohlforth

Advancing East Asian Regionalism Melissa Curley, Nicholas Thomas, 2012-10-12 Developments in East Asia have progressed rapidly in terms of regionalism since the 1997 crisis The end of the Asian miracle called into question not only the capacity of regional states to meet the needs of their attendant peoples but also challenged the viability of regional organizations such as ASEAN to adapt and respond to the changing circumstances *Advancing East Asian Regionalism* looks at the ways in which ASEAN has expanded since the crisis and evaluates the potential of East Asia to come together in a regional formation one capable of representing the region as a whole akin to the European Community It draws upon the knowledge and perspectives of

academics and policy makers actively engaged in the contradictory issues of regionalism Coupling case study material on regionalism institutions and sectoral cooperation with theoretical debates on regionalization this book is an invaluable resource that pushes our understanding of East Asian regionalism forward **The Black Sea Region** Oleksandr Pavliuk,Ivanna Klympush-Tsintsadze,2016-07-08 The ring of countries bordering the Black Sea make up one of the unstable subregions of former Soviet republics satellites and neighbours This volume analyses the security issues in the Black Sea region and the development of mechanisms that would promote cooperation and conflict management **The Political Economy of Regional Peacemaking** Steven E. Lobell,Norrin M. Ripsman,2016-02-02 In The Political Economy of Regional Peacemaking scholars examine the efficacy of trade agreements economic sanctions and other strategies of economic statecraft for the promotion of peace both between rival states and across conflict ridden regions more generally In the introduction Steven E Lobell and Norrin M Ripsman pose five central questions 1 What types of economic statecraft including incentives and sanctions can interested parties employ 2 Who are the appropriate targets in the rival states state leaders economic and social elites or society as whole 3 When should specific economic instruments be used to promote peace prior to negotiations during negotiations after signature of the treaty or during implementation of the treaty 4 What are the limits and risks of economic statecraft and economic interdependence 5 How can economic statecraft be used to move from a bilateral peace agreement to regional peace The chapters that follow are grouped in three sections corresponding to the three stages of peacemaking reduction or management of regional conflict peacemaking or progress toward a peace treaty and maintenance of bilateral peace and the regionalization of the peace settlement In each chapter the contributors consider the five key questions from a variety of methodological historical cultural and empirical perspectives drawing data from the Pacific the Middle East Europe Asia and Latin America The conclusion expands on several themes found in the chapters and proposes an agenda for future research
