Regionalism And Globalization Essays On Appalachia Globalization And Global Computerization:

Regionalism and Globalization Joseph J. Matvey III Ph.D Sociology, 2010-06-17 Regionalism and Globalization represents research on three thematic Appalachia Global Computerization and Globalization First the spatial expression of corporate national and transnational capitalism essentially created the peripheralization of Appalachia and today fuels the development of underdevelopment in the region Computerization a second thematic concern is essentially perceived as one of the more significant instruments facilitating the technological compression of the globe In fact as computerization is more comprehensively embedded in the techno social aspects of globalization it now becomes possible to speak of global computerization or the objective computerization of the globe Finally Globalization is not merely a theme but a comprehensive paradigmatic shift in how we know the world It is further a systematic overarching process subsuming and in fact configuring and reordering the former two constructs of Appalachia and Computerization Additionally explored research includes global religion education international organizations popular culture and the global internet global sociology the concept of humanity and finally the global implications of Windows and Linux computer operating systems **Building**

Sustainable Futures for Adult Learners Jennifer K. Holtz, Stephen B. Springer, Carrie J. Boden, 2014-10-01 Building Sustainable Futures for Adult Learners is an edited and refereed collection of papers published in conjunction with the joint Adult Higher Educational Alliance AHEA and American Association of Adult and Continuing Education Conferences AAACE This book is the third in a series of scholarly publications associated with the annual AHEA conference The book is arranged thematically according to the topics of submissions Building Sustainable Futures is important because it fills a unique niche in the field of adult education extends the scope of AHEA to a larger audience and offers a current volume for scholars and practitioners based on both research and practice based research *Sociological Abstracts* Leo P. Chall, 1995 To Move a Mountain Eve S. Weinbaum, 2004-01-01 Eve Weinbaum's firsthand look at the devastation wrought by the closings of community sustaining factories become moving stories in the age of corporate globalization With striking portraits of managers workers organizers and local officials the book sets the Appalachian plant closings squarely in the economic and political context of economic development strategies and uncovers a government and economic leadership whose policies show little regard for the workers they leave behind Yet despite the repeated defeat of the workers an astonishingly fiery economic justice movement sprung up in Tennessee as factory workers were transformed into sophisticated activists generating coalitions starting allied campaigns for living wages and writing groundbreaking legislation **BOOK JACKET**

Appalachia in Regional Context Dwight B. Billings, Ann E. Kingsolver, 2018-03-02 In an increasingly globalized world place matters more than ever This concept especially holds true in Appalachian studies a field that brings scholars activists artists and citizens together around the region to contest misappropriations of resources and power and to combat stereotypes of isolation and intolerance In Appalachia in Regional Context Place Matters Dwight B Billings and Ann E

Kingsolver assemble scholars and artists from a variety of disciplines to broaden the conversation and challenge the binary opposition between regionalism and globalism In addition to theoretical explorations of place some of the case studies examine foodways depictions of gendered and racialized Appalachian identity in popular culture the experiences of rural LGBTQ youth and the pitfalls and promises of teaching regional studies Drawing on ideas from cultural anthropology sociology and a variety of other fields and interleaved with poems by bell hooks this volume furthers the examination of new perspectives on one of America's most compelling and misunderstood regions **Appalachia and Globalization**

Culture, Class, and Politics in Modern Appalachia Jennifer Egolf, Ken Fones-Wolf, Louis C. Martin, 2009-03-30 During the past four decades scholars have completely reinterpreted Appalachian history and culture Gone are the assumptions of a static and homogeneous region a product of colonial settlers isolated by the mountainous terrain and unchanged by the forces of modernization at work in the rest of the nation Few scholars have had as much impact in unraveling these stereotypes and rewriting the history of twentieth century Appalachia as Ronald L Lewis Through his own work and from the students he mentored Lewis has had an enormous effect on the field of Appalachian studies Their scholarship has helped reconceptualize Appalachian culture by investigating political and economic power and the role of social actors and social movements in shaping the region's history Culture Class and Politics in Modern Appalachia takes stock of the field of Appalachian studies as it explores issues still at the center of its scholarship culture industrialization the labor movement and twentieth century economic and political failure and their social impact This new generation of scholars continues the work of Appalachian studies pioneers exploring the diversity and complexity of the region and its people Labor migrants from around the world transformed the region during its critical period of economic growth Collective struggles over occupational health and safety the environment and civil rights challenged longstanding stereotypes Investigations of political and economic power and the role of social actors and social movements in Appalachian history add to foundational work that demonstrates a dynamic and diverse region The Frog Level Project Michael E. Bowen, University of North Carolina at Charlotte. College of Arts and Architecture, 2012 Critical regionalism embraces contradiction It simultaneously resists romantic historicism and homogenous globalization and values cultural tradition and progressive qualities seemingly opposing thoughts The contemporary dialogue on critical regionalism creates a polemic discussion that both polarizes and aestheticizes these inherent view points This discourse will begin with the introduction of two contingent ideas on sustainability and aesthetics that are necessary to an understanding of this author's critical regionalist thinking The goals of this discourse are to discover the essence of critical regionalism and to appropriate its understanding in an attempt to demystify a regional housing typology and the hope of discovering an appropriate and reproducible design methodology and process **Globalization and the American South** James Charles Cobb, William Whitney Stueck, 2005 In 1955 the Fortune

magazine list of America's largest corporations included just 18 with headquarters in the Southeast. By 2002 the number had grown to 123. In fact the South attracted over half of the foreign businesses drawn to the United States in the 1990s. The eight original essays collected here consider this stunning dynamism in ways that help us see anew the region's place in that ever accelerating transnational flow of people, capital and technology known collectively as globalization. Moving between local and global perspectives, the essays discuss how once faraway places like Latin America, Asia, Africa and the Indian Subcontinent are now having an impact on the South. One essay, for example, looks at a range of issues behind the explosive growth of North Carolina's Latino population which grew by almost 400 percent during the 1990s, miles ahead of the national growth percentage of 61. In another essay we learn why BMW workers in Germany frustrated with the migration of jobs to South Carolina refer to the American South as our Mexico. Showing that global forces are often on both sides of the match, reshaping the South but also adapting to and exploiting its peculiarities, many of the essays make the point that although the new ethnic food section at the local Winn-Dixie is one manifestation of globalization, so is the wide-ranging export of such originally southern phenomena as NASCAR and Kentucky Fried Chicken. If a single message emerges from the book it is this: Beware of tidy accounts of worldwide integration. On one hand globalization can play to southern shortcomings, think of the region's reputation as a source of cheap labor; on the other the influx of new peoples, customs and ideas is poised to alter forever the South's historic black-white racial divide.

Moving Appalachia Forward
Appalachian Regional Commission Strategic Plan 2011-20
Appalachian Regional Commission, 2015-12-31
The Appalachian Regional Commission has a key role in helping the people of Appalachia build a better future, creating jobs, building infrastructure to foster business and community growth and to connect the Region with national and international markets and developing an educated, healthy workforce prepared to participate fully in the global economy. Appalachia has made significant progress in addressing its historical challenges but ARC's vision for the Region has not yet been achieved. In fiscal year 2010 more than 80 counties were still classified as economically distressed. Increased global competition and technological change have resulted in job losses and restructuring in many key Appalachian industries. Because of its rugged terrain and high proportion of rural residents, Appalachia is at risk of falling behind in the implementation and use of modern technology and telecommunications, necessary components of competitiveness in today's economy. In this time of economic challenges and rapid change in the way business is conducted worldwide, ARC is working to ensure that Appalachia's leaders and citizens have the capacity, capability and resources they need to build and strengthen their local economies. The Commission's structure as a federal-state local partnership and as a regional agency makes it uniquely suited to help guide and foster the local efforts required for change. This strategic plan is a guide for ARC to take targeted and measurable action toward its vision of bringing Appalachia into full economic parity with the nation. It outlines goals and objectives that provide clear guidance for priorities and a basis for annual evaluation. It calls for alignment of resources to maximize results and for

performance measurement that ensures that the ARC partnership is effective and accountable It creates a framework for building on past accomplishments to help move Appalachia forward
